

2026 Excellent CTFL-AcT–100% Free Reliable Exam Voucher | Valid ISTQB Foundation Level - Acceptance Testing Test Pass4sure

2025 Latest TestkingPDF CTFL-AcT PDF Dumps and CTFL-AcT Exam Engine Free Share: <https://drive.google.com/open?id=1KjQekDMfILnhgNvt9CLprHNAu05sPodF>

Are you still worried about not able to pass CTFL-AcT exam certification? Then you can ask TestkingPDF for help. It can bring you the master of the sophisticated techniques of IT industry and help you pass CTFL-AcT certification exam easily. With TestkingPDF's efforts for years, the passing rate of CTFL-AcT Certification Exam has reached as high as 100%. Choosing TestkingPDF is to choose the way to go to a beautiful future.

Do you want to pass the exam with the least time? If you do, you can choose us, we can do that for you. CTFL-AcT exam cram is high-quality, and it can help you pass the exam just one time. You just need to spend about 48 to 72 hours on practicing that you can pass the exam. Besides, you can obtain the download link and password within ten minutes after payment for CTFL-AcT Training Materials. In order to make you get the latest information for CTFL-AcT training materials, we offer you free update for one year after buying, and the latest version for CTFL-AcT exam materials will be sent to your email automatically.

Valid ISQI CTFL-AcT Test Pass4sure, CTFL-AcT Training Solutions

The TestkingPDF ISQI CTFL-AcT exam questions are being offered in three different formats. These formats are CTFL-AcT web-based practice test software, desktop practice test software, and PDF dumps files. All these three TestkingPDF CTFL-AcT Exam Questions format are important and play a crucial role in your ISTQB Foundation Level - Acceptance Testing exam preparation. With the CTFL-AcT exam questions you will get updated and error-free CTFL-AcT exam questions all the time.

ISQI ISTQB Foundation Level - Acceptance Testing Sample Questions (Q24-Q29):

NEW QUESTION # 24

Assume you are testing functionality of the interface of an elevator. One of the requirements is that the elevator can work only if the total weight of the passengers does not exceed 200 kg. The elevator can reach the following floors: Ground Floor, 1st floor and 2nd floor. You want to create an acceptance test using the Gherkin language. You can use the following phrases for this purpose:

- i. the total weight of passengers is greater than 200 kg
- ii. the elevator is on the Ground Floor
- iii. a button '1st floor' was pressed
- iv. the elevator goes to the 1st floor
- v. a passenger standing at the 2nd floor calls the elevator
- vi. a message 'too many passengers' is displayed on the screen

Which of the following statements correctly matches constructs of Given/When/Then with a relevant phrase in order to create a correct test case for the given requirement?

- A. GIVEN ii)
WHEN v) AND vi) THEN i)
- B. GIVEN ii)
WHEN i)
THEN vi)
- C. GIVEN ii)
WHEN iv)
THEN v)
- D. GIVEN iii)
WHEN ii)
THEN iv)

Answer: B

Explanation:

Gherkin is a structured language used in Behavior-Driven Development (BDD) to define test cases in a clear, business-readable format. It follows the GIVEN-WHEN-THEN structure:

GIVEN describes the precondition (system's state before the action).

WHEN describes the action/event.

THEN describes the expected result or outcome.

Analyzing the phrases:

ii) "The elevator is on the Ground Floor" is a precondition - fits GIVEN.

i) "The total weight of passengers is greater than 200 kg" is an action or state change - fits WHEN.

vi) "A message 'too many passengers' is displayed on the screen" is the expected outcome - fits THEN.

Thus, Option A correctly maps these elements to form a well-structured Gherkin scenario.

Other options are incorrect because:

Option B misplaces an expected outcome as an action.

Option C misrepresents the order - "login" isn't a precondition.

Option D introduces two THEN elements and violates the typical Gherkin structure.

Exact Reference - ISTQB CTFL Acceptance Testing Syllabus (Section 2.2.2):

"Gherkin test cases use GIVEN-WHEN-THEN structures to make the behavior of the system under test understandable by all stakeholders."

NEW QUESTION # 25

Which one of the following test design techniques fits accepting testing purposes BEST?

- A. defect-based test design
- B. equivalence partitioning

U	Percent weight	Input = Percent size	Delivery distance	Output = zero emission vehicle type
	Integer	Integer	string	string
1		<=90	<=10	normal bicycle
2	{15,60}	=	<=25	Electric cargo bike
3	-	>150	-	Electric van

- A. When the weight of the parcel exceeds 50kg then the electric cargo bike is necessarily used
- B. Electric cargo bikes are never used for short distances
- C. Normal bicycles are mainly used for short trips regardless of the weight of the parcel
- D. Electric vans are systematically used when the parcel size is larger than 150cm

Answer: A

Explanation:

Let's analyze the DMN table shown in the image:

Rule 1: If weight #15, size #50, and distance #10 # use Normal bicycle

Rule 2: If weight is between 15 and 60 kg, size #150, and distance #25 # use Electric cargo bike Rule 3: Otherwise # use Electric van Now consider the options:

A: Incorrect - parcel size is not the only determining factor for using electric vans; it's about weight, size, and distance combined.

B: Incorrect - normal bicycles are used only when weight #15 kg, size #50 cm, and distance #10 km - so not just "short trips." C:

Incorrect - electric cargo bikes are explicitly used for short trips (#25 km), per Rule 2.

D: Correct - based on the rules, any weight above 15 kg (and up to 60 kg) results in the use of electric cargo bikes. So if weight >50 kg (but #60), cargo bike is still used under the conditions of Rule 2.

Therefore, the most consistent interpretation of the decision model is:

D). When the weight of the parcel exceeds 50kg then the electric cargo bike is necessarily used

NEW QUESTION # 28

How does ISTQB CTFL test activities relate to the IQBBA FL business analysis and requirements engineering activities?

- A. Test analysis and test design activities may result in changes of acceptance criteria.
- B. Business analysts who follow the IQBBA requirements engineering process will not be involved in designing test cases.
- C. Business analysts and tester have to decide, whether they follow the IQBBA or ISTQB lifecycle processes, because they exclude each other.
- D. The IQBBA solution evaluation phase precedes the ISTQB test implementation and test execution activities.

Answer: A

Explanation:

The relationship between testing and requirements engineering is iterative and collaborative. According to ISTQB CTFL and IQBBA FL syllabi, test activities such as test analysis and test design involve reviewing and interpreting acceptance criteria to derive test conditions and test cases. During this process, testers may identify ambiguities, conflicts, or missing acceptance conditions. These insights often result in feedback to business analysts or stakeholders, leading to refinement or changes in the acceptance criteria to ensure clarity, completeness, and testability.

This iterative feedback loop is essential in both Agile and traditional lifecycles. Therefore, option D is correct.

It reflects the dynamic interaction between requirements and test design, where improving one often improves the other.

Other options are incorrect:

Option A falsely assumes business analysts don't engage in test design, while in practice, they collaborate closely with testers.

Option B incorrectly suggests that IQBBA and ISTQB lifecycles are mutually exclusive. In fact, they complement each other.

Option C is incorrect in sequencing. In reality, solution evaluation (IQBBA) follows test execution, not precedes it.

Exact Reference - ISTQB CTFL Acceptance Testing Syllabus (Section 1.3.2):

"During test analysis, inconsistencies or missing information in the acceptance criteria can be identified and addressed through collaboration with business analysts."

NEW QUESTION # 29

.....

You can see the demos of our CTFL-AcT exam questions which are part of the all titles selected from the test bank and the forms of the questions and answers and know the form of our software on the website pages of our study materials. The website pages list the important information about our CTFL-AcT real quiz. You can analyze the information the website pages provide carefully before you decide to buy our CTFL-AcT learning braindumps.

Valid CTFL-AcT Test Pass4sure: <https://www.testkingpdf.com/CTFL-AcT-testking-pdf-torrent.html>

The our TestkingPDF ISQI CTFL-AcT exam training materials, the verified exam, these questions and answers reflect the professional and practical experience of TestkingPDF, RECENTLY UPDATED ISQI Valid CTFL-AcT Test Pass4sure EXAM

In spite of the high-quality of our CTFL-AcT study braindumps, our after-sales service can be the most attractive project in our CTFL-AcT guide questions, It is defined in enough detail for both developers CTFL-AcT and managers to objectively assess the probability of success and to understand key risk areas.

The our TestkingPDF ISQI CTFE-AcT Exam Training materials, the verified exam, these questions and answers reflect the professional and practical experience of TestkingPDF.

We are sure that our CTFL-AcT exam questions and answers on sale is high-quality and can 100% help you achieve your goal, Our ISQI CTFL-AcT study guide files speak louder than words as the leading position in this field.
