## Amazon AWS Certified Developer Associate Exam (DVA-C02) Sample Questions (Q318-Q323):

### NEW QUESTION # 318

A developer is building a website that will be hosted in an Amazon S3 bucket with static website hosting enabled. The developer will use Amazon Route 53 for the DNS service and will use an alias record to point the company's domain to the bucket. The developer must redirect one S3 object to a different URL.

What should the developer use so that the redirect will work correctly from a page on the website?

- A. A Route 53 A record that points to the new location
- B. An S3 object-level redirect through system-defined metadata
- C. A Route 53 CNAME alias record that points to the new location
- D. A redirect that is configured within the S3 bucket's policy

**Answer: C**

Explanation:

Expalantion:

<https://docs.aws.amazon.com/Route53/latest/DeveloperGuide/RoutingToS3Bucket.html>

### NEW QUESTION # 319

Regarding Amazon SQS, what happens if there is no activity against a queue for more than 30 consecutive days?

- A. Nothing
- B. Your account will be suspended
- C. The queue may be deleted
- D. The queue will be deleted

**Answer: C**

Explanation:

AWS reserve the right to delete a queue if none of the following requests have been issued against the queue for more than 30 consecutive days:

SendMessage

ReceiveMessage

DeleteMessage

GetQueueAttributes

SetQueueAttributes

You should design your application with this in mind.

### NEW QUESTION # 320

A developer is updating an application deployed on AWS Elastic Beanstalk. The new version is incompatible with the old version. To successfully deploy the update, a full cutover to the new updated version must be performed on all instances at one time, with the ability to roll back changes in case of a deployment failure in the new version.

How can this be performed with the LEAST amount of downtime?

- A. Perform an Elastic Beanstalk Rolling deployment
- B. Perform an Elastic Beanstalk Rolling with additional batch deployment
- C. Deploy the new version in a new Elastic Beanstalk environment and swap environment URLs
- D. Use the Elastic Beanstalk All at once deployment policy to update all instances simultaneously

**Answer: C**

#### NEW QUESTION # 321

A developer is creating a script to automate the deployment process for a serverless application. The developer wants to use an existing AWS Serverless Application Model (AWS SAM) template for the application.

What should the developer use for the project? (Choose two.)

- A. Call `aws cloudformation package` to create the deployment package. Call `aws cloudformation deploy` to deploy the package afterward.
- B. Create a ZIP package locally and call `aws serverlessrepo create-application` to create the application.
- C. Create a ZIP package and upload it to Amazon S3. Call `aws cloudformation create-stack` to create the application.
- D. Call `sam package` to create the deployment package. Call `sam deploy` to deploy the package afterward.
- E. Call `aws s3 cp` to upload the AWS SAM template to Amazon S3. Call `aws lambda update-function-code` to create the application.

**Answer: C,E**

Explanation:

Explanation/Reference:

<https://docs.aws.amazon.com/serverless-application-model/latest/developerguide/serverless-getting-started-hello-world.html>

<https://docs.aws.amazon.com/AWSCloudFormation/latest/UserGuide/using-cfn-cli-package.html>

#### NEW QUESTION # 322

What does Amazon SQS provide?

- A. A synchronous message queue service.
- B. A Simple Query Server, managed directly by Amazon Web Services.
- C. An asynchronous message queue service.
- D. None of these.

**Answer: C**

Explanation:

Amazon SQS stands for Simple Queue Services, and provides a cost-effective way to decouple the components of your application through an asynchronous message queue service Reference: <http://aws.amazon.com/sqs/>

#### NEW QUESTION # 323

.....

In order to meet the different need from our customers, the experts and professors from our company designed three different versions of our AWS-Certified-Developer-Associate exam questions for our customers to choose, including the PDF version, the online version and the software version.
