Pass Guaranteed Amazon - High Pass-Rate SOA-C02 Latest Exam Pass4sure

If you can obtain the job qualification SOA-C02 certificate, which shows you have acquired many skills. In this way, your value is greatly increased in your company. Then sooner or later you will be promoted by your boss. Our SOA-C02 preparation exam really suits you best. Our SOA-C02 Study Materials can help you get your certification in the least time with the least efforts. With our SOA-C02 exam questions for 20 to 30 hours, and you will be ready to take the exam confidently.

The advent of our Amazon SOA-C02 study guide with three versions has helped more than 98 percent of exam candidates get the certificate successfully. Rather than insulating from the requirements of the AWS Certified SysOps Administrator - Associate (SOA-C02) SOA-C02 Real Exam, our SOA-C02 practice materials closely co-related with it.

>> SOA-C02 Latest Exam Pass4sure <<

SOA-C02 New Braindumps Sheet - VCE SOA-C02 Dumps

It is quite convenient to study with our SOA-C02 study materials. If you are used to study with paper-based materials you can choose the PDF version which is convenient for you to print. If you would like to get the mock test before the real SOA-C02 exam you can choose the software version, and if you want to study in anywhere at any time then our online APP version is your best choice since you can download it in any electronic devices. And the price of our SOA-C02 learning guide is favorable.

Amazon AWS Certified SysOps Administrator - Associate (SOA-C02) Sample Questions (Q500-Q505):

NEW QUESTION # 500
A SysOps administrator Is troubleshooting an AWS Cloud Formation template whereby multiple Amazon EC2 instances are being created The template is working In us-east-1. but it is failing In us-west-2 with the error code:
How should the administrator ensure that the AWS Cloud Formation template is working in every region?

- A. Edit the AWS CloudFormatton template to specify the region code as part of the fully qualified AMI ID.
- B. Copy the source region's Amazon Machine Image (AMI) to the destination region and assign it the same ID.
- C. Edit the AWS CloudFormatton template to offer a drop-down list of all AMIs to the user by using the aws :: EC2:: ami :: imageiD control.
- D. Modify the AWS CloudFormation template by including the AMI IDs in the "Mappings" section. Refer to the proper mapping within the template for the proper AMI ID.

Answer: D

Explanation:
To ensure that the AWS CloudFormation template works in every region, you should use the Mappings section to specify region-specific AMI IDs. This allows the template to dynamically reference the correct AMI ID based on the region where the stack is being deployed.
Steps:
* Add Mappings to the Template:
* Define the AMI IDs for each region in the Mappings section of the CloudFormation template.
json
Copy code

```
{
"Mappings": {
"RegionMap": {
"us-east-1": { "AMI": "ami-0123456789abcdef0" },
"us-west-2": { "AMI": "ami-abcdef0123456789" }
}
}
}
```

* Reference the Mapping in the Template:
* Use the Fn::FindInMap function to reference the correct AMI ID based on the region.
json
Copy code

```
{
"Resources": {
"MyEC2Instance": {
"Type": "AWS::EC2::Instance",
"Properties": {
"ImageId": { "Fn::FindInMap": [ "RegionMap", { "Ref": "AWS::Region" }, "AMI" ] },
}
}
}
}
```

* Deploy the Template:
* Deploy the CloudFormation stack in any region, and it will use the correct AMI ID.
Reference: AWS CloudFormation Mappings

NEW QUESTION # 501
A SysOps administrator is responsible for a large fleet of Amazon EC2 instances and must know whether any instances will be affected by upcoming hardware maintenance. Which option would provide this information with the LEAST administrative overhead?

- A. Monitor AWS CloudTrail for Stopinstances API calls
- B. Review the AWS Personal Health Dashboard
- C. List any instances with failed system status checks using the AWS Management Console
- D. Deploy a third-party monitoring solution to provide real-time EC2 instance monitoring

Answer: B

Explanation:
The AWS Personal Health Dashboard provides a personalized view into the performance and availability of the AWS services underlying your AWS resources. It can alert you about upcoming hardware maintenance that could affect your EC2 instances.
Access AWS Personal Health Dashboard:
Open the AWS Personal Health Dashboard at AWS Personal Health Dashboard.
View Service Health:
The dashboard shows a list of recent events, including upcoming scheduled maintenance that might impact your EC2 instances.
You can filter events to view those that specifically affect your EC2 instances.
Set Up Notifications:
You can configure AWS CloudWatch Events or Amazon SNS to send notifications based on Personal Health Dashboard events.
Reference:
AWS Personal Health Dashboard
Monitoring AWS Health Events with Amazon CloudWatch Events

NEW QUESTION # 502

A company hosts a website on multiple Amazon EC2 instances that run in an Auto Scaling group. Users are reporting slow responses during peak times between
6 PM and 11 PM every weekend. A SysOps administrator must implement a solution to improve performance during these peak times.
What is the MOST operationally efficient solution that meets these requirements?

- A. Configure a scheduled scaling action with a recurrence option to change the desired capacity before and after peak times.
- B. Create a target tracking scaling policy to add more instances when memory utilization is above 70%.
- C. Configure the cooldown period for the Auto Scaling group to modify desired capacity before and after peak times.
- D. Create a scheduled Amazon EventBridge (Amazon CloudWatch Events) rule to invoke an AWS Lambda function to increase the desired capacity before peak times.

Answer: A

Explanation:
"Scheduled scaling helps you to set up your own scaling schedule according to predictable load changes. For example, let's say that every week the traffic to your web application starts to increase on Wednesday, remains high on Thursday, and starts to decrease on Friday. You can configure a schedule for Amazon EC2 Auto Scaling to increase capacity on Wednesday and decrease capacity on Friday." https://docs.aws.amazon.com/autoscaling/ec2/userguide/schedule_time.html

NEW QUESTION # 503

A company's public website is hosted in an Amazon S3 bucket in the us-east-1 Region behind an Amazon CloudFront distribution. The company wants to ensure that the website is protected from DDoS attacks. A SysOps administrator needs to deploy a solution that gives the company the ability to maintain control over the rate limit at which DDoS protections are applied.
Which solution will meet these requirements?

- A. Deploy an AWS WAF web ACL with a block default action in us-east-1. Configure an AWS WAF rate-based rule to allow matching traffic. Associate the web ACL with the S3 bucket.
- B. Deploy an AWS WAF web ACL with an allow default action in us-east-1. Configure an AWS WAF rate-based rule to block matching traffic. Associate the web ACL with the S3 bucket.
- C. Deploy a global-scoped AWS WAF web ACL with a block default action. Configure an AWS WAF rate-based rule to allow matching traffic. Associate the web ACL with the CloudFront distribution.
- D. Deploy a global-scoped AWS WAF web ACL with an allow default action. Configure an AWS WAF rate-based rule to block matching traffic. Associate the web ACL with the CloudFront distribution.

Answer: D

Explanation:
AWS WAF (Web Application Firewall) helps protect your web applications from common web exploits and bots. A rate-based rule allows you to control the rate of requests to your application.
Create a Global-Scoped AWS WAF Web ACL:
Navigate to the AWS WAF console.
Create a new Web ACL and choose "Global" for the scope.
Set the default action to "Allow".
Configure a Rate-Based Rule:
Within the Web ACL, add a new rule and select "Rate-based rule".
Define the rate limit (e.g., 2000 requests per 5 minutes).
Set the action to "Block".
Associate Web ACL with CloudFront Distribution:
After creating the Web ACL and rule, go to your CloudFront distribution settings.
In the "General" tab, associate the Web ACL with your CloudFront distribution.
Review and Confirm:
Review the configuration and ensure the Web ACL is correctly associated with the CloudFront distribution.
Reference:
AWS WAF Rate-Based Rules
Associating AWS WAF with CloudFront

NEW QUESTION # 504

A company is managing many accounts by using a single organization in AWS Organizations.

The organization has all features enabled.

The company wants to turn on AWS Config in all the accounts of the organization and in all AWS Regions.

What should a Sysops administrator do to meet these requirements in the MOST operationally efficient way?

- A. Use AWS CloudFormation StackSets to deploy stack instances that turn on AWS Config in all accounts and in all Regions.
- B. Create a script that uses the AWS CLI to turn on AWS Config in all accounts in the organization.
  Run the script from the organization's management account.
- C. Use AWS CloudFormation StackSets to deploy stack policies that turn on AWS Config in all accounts and in all Regions.
- D. Use service control policies (SCPs) to configure AWS Config in all accounts and in all Regions.

Answer: A

Explanation:

https://aws.amazon.com/blogs/mt/managing-aws-organizations-accounts-using-aws-config-and- aws-cloudformation-stacksets/

NEW QUESTION # 505

......

Based on the research results of the examination questions over the years, the experts give more detailed explanations of the contents of the frequently examined contents and difficult-to-understand contents, and made appropriate simplifications for infrequently examined contents. SOA-C02 test questions make it possible for students to focus on the important content which greatly shortens the students' learning time. With SOA-C02 Exam Torrent, you will no longer learn blindly but in a targeted way. SOA-C02 exam torrent will also help you count the type of the wrong question, so that you will be more targeted in the later exercises and help you achieve a real improvement. SOA-C02 exam guide will be the most professional and dedicated tutor you have ever met, you can download and use it with complete confidence.

SOA-C02 New Braindumps Sheet: https://www.guidetorrent.com/SOA-C02-pdf-free-download.html

Not only that they compile the content of the SOA-C02 praparation quiz, but also they can help our customers deal with all the questions when they buy or download, When you go over the SOA-C02 New Braindumps Sheet - AWS Certified SysOps Administrator - Associate (SOA-C02) test online files, you can learn efficiently because of your notes, Amazon SOA-C02 Latest Exam Pass4sure That is to say depending on your needs you can choose any one of the versions as you like, Amazon SOA-C02 Latest Exam Pass4sure And it's easier for you to make notes on the paper, which will bring the most proper way for your high efficient study.

Is Pinterest for You, During an iteration, the team Exam Dumps SOA-C02 Provider focuses on their current stories, making decisions about acceptance tests and code design, Not only that they compile the content of the SOA-C02 praparation quiz, but also they can help our customers deal with all the questions when they buy or download.

100% Pass 2026 Amazon High Hit-Rate SOA-C02 Latest Exam Pass4sure

When you go over the AWS Certified SysOps Administrator - Associate (SOA-C02) test online files, you can learn SOA-C02 efficiently because of your notes, That is to say depending on your needs you can choose any one of the versions as you like.

And it's easier for you to make notes on the paper, VCE SOA-C02 Dumps which will bring the most proper way for your high efficient study, If you are willing to buy our SOA-C02 dumps pdf, I will recommend you to download the free dumps demo first and check the accuracy of our SOA-C02 practice questions.
