You may be upset about the too many questions in your C-BCBTM-2509 test preview. Now, you will clear your worries. Our C-BCBTM-2509 test engine can allow unlimited practice your exam. With the options to highlight the missed questions, you can know your mistakes in your C-BCBTM-2509 test training, then, you can practice with purpose. If you want to have 100% confidence, you can practice until you get right. Besides, you can do marks where possible, so as to review and remember next time.Through effort and practice, you can get high scores in your SAP C-BCBTM-2509 real test.

SAP C-BCBTM-2509 Exam Syllabus Topics:

Topic	Details
Topic 1	• Positioning SAP Business Transformation Management Solutions: This section of the exam measures the skills of SAP Solution Consultants and focuses on understanding how to position SAP Business Transformation Management solutions within diverse enterprise environments. It covers identifying the value proposition of these solutions, aligning them with customer transformation strategies, and demonstrating how they support business agility and operational excellence through data-driven insights and process optimization.
Topic 2	• Understanding SAP Signavio and SAP LeanIX Solutions: This section of the exam measures the expertise of Enterprise Architects and focuses on the core concepts of SAP Signavio and SAP LeanIX. It includes understanding how these solutions enhance enterprise architecture management, process intelligence, and business process transformation. Learners explore how SAP Signavio provides visibility into business processes and how SAP LeanIX supports IT landscape transparency, allowing organizations to improve alignment between business goals and IT systems.
Topic 3	• Understanding WalkMe: This section of the exam evaluates the competencies of Digital Adoption Specialists and covers the role of WalkMe within the SAP ecosystem. It focuses on how WalkMe enhances user experience, drives digital adoption, and simplifies workflows across SAP solutions. Candidates learn how WalkMe guidance and automation tools support end-users in navigating complex SAP applications, ultimately improving productivity, engagement, and system utilization.
Topic 4	• Understanding Business Transformation: This section of the exam evaluates the abilities of Business Transformation Advisors and covers the fundamental principles of business transformation in the digital age. It emphasizes recognizing transformation drivers, defining strategic objectives, and integrating technological innovations into organizational change processes. Candidates are expected to understand how SAP tools and methodologies enable efficient transformation planning, execution, and sustainability across various industries.

C-BCBTM-2509 Exams Training - Braindumps C-BCBTM-2509 Torrent

The Braindumpsqa is offering valid, updated, and real SAP C-BCBTM-2509 practice test questions. The Braindumpsqa is committed to making the SAP C-BCBTM-2509 exam preparation the simplest, easiest, and fast. We are quite confident that with SAP C-BCBTM-2509 Practice Exam Questions you can pass the challenging SAP C-BCBTM-2509 exam.

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q22-Q27):

NEW QUESTION # 22
Which use cases are central to SAP LeanIX solutions?
(Note: There are 2 correct answers to this question.)

- A. Technology Risk and Compliance
- B. Application Portfolio Management
- C. Spend Management
- D. Blockchain Analytics

Answer: A,B

Explanation:
SAP LeanIX is primarily focused on providing Enterprise Architecture Management (EAM) and Technology Risk and Compliance (TRC) capabilities, both essential for enabling data-driven transparency and governance in transformation projects.
"Core SAP LeanIX use cases include Application Portfolio Management (APM) and Technology Risk & Compliance (TRC), which help organizations streamline IT landscapes and mitigate risks." Reference:
Application Portfolio Management (Answer B):
SAP LeanIX enables organizations to document, analyze, and optimize their application landscape to ensure efficiency and alignment with business goals.
"The Application Portfolio Management use case helps enterprises assess application value, cost, and redundancy, improving decision-making and IT governance." Technology Risk and Compliance (Answer C):
This feature supports continuous evaluation of IT technology standards and compliance requirements, helping to manage risk exposure and regulatory alignment during transformation.
"Technology Risk and Compliance offers visibility into technology obsolescence, compliance, and cybersecurity risks to support resilient IT operations." Incorrect Options:
A: Spend management belongs to SAP Ariba and SAP Concur, not LeanIX.
D: Blockchain analytics is not a LeanIX function; LeanIX focuses on architecture and compliance, not blockchain technologies.
Verified Correct Answers:
B: Application Portfolio Management
C: Technology Risk and Compliance

NEW QUESTION # 23
What are typical challenges SAP customers face in an ERP transformation?
(Note: There are 3 correct answers to this question.)

- A. Significant reduction in product quality
- B. Not knowing how and where to start their transformation journey
- C. Alignment between business and IT
- D. Inability to generate financial reports due to a lack of data analytics capabilities
- E. Lack of transparency into processes and system landscapes

Answer: B,C,E

Explanation:
According to SAP's Business Transformation Management (BTM²) and SAP Signavio Transformation Framework, the most common ERP transformation challenges are strategic alignment, starting complexity, and lack of visibility across business and IT landscapes.

"Organizations often face difficulties with aligning business and IT, defining where to start transformation efforts, and gaining transparency across processes and systems." Reference:

A - Alignment between Business and IT:

Misalignment leads to inconsistent objectives between operations and technology strategy.

"Achieving alignment between IT capabilities and business goals remains one of the biggest barriers to transformation." B - Not Knowing Where to Start:

Many organizations lack clarity on prioritization and readiness assessment.

"Determining the starting point and sequencing of transformation steps is a recurring challenge in ERP modernization projects." C - Lack of Transparency:

Without visibility into existing processes, companies struggle to identify inefficiencies or dependencies.

"Insufficient transparency across processes and system landscapes hinders effective transformation planning and execution."

Incorrect Options:

D: Financial reporting challenges are typically ERP operational issues, not transformation barriers.

E: Product quality reduction is not a standard ERP transformation issue.

Verified Correct Answers: A, B, and C.

NEW QUESTION # 24

What makes SAP Signavio and SAP LeanIX a powerful combination?

(Note: There are 2 correct answers to this question.)

- A. We can help our customers lay off 20 to 30 percent of their workforce and therefore reduce costs tremendously.
- B. We can reduce the time for financial reporting by 70% on average.
- C. They help our customers understand the important aspects of a transformation: processes, people, systems, and applications.
- D. Both solutions focus on transforming businesses from a current state to a future state.

Answer: C,D

NEW QUESTION # 25

What does WalkMe Discovery help organizations achieve?

- A. Automates training development processes
- B. Translates all tools into multiple languages automatically
- C. Enhances employee satisfaction scores by 50%
- D. Identifies underutilized tools and compliance risks

Answer: D

Explanation:

WalkMe Discovery is a key component of the SAP Business Transformation Management (BTM) suite through SAP's partnership with WalkMe. It is designed to provide visibility into the digital application landscape and analyze software usage across the enterprise.

"WalkMe Discovery automatically discovers all web-based applications used across the organization, revealing underutilized tools, shadow IT, and potential compliance risks." Reference:

The tool allows transformation leaders to map actual system usage, understand license utilization, and identify areas of inefficiency or non-compliance, which directly supports SAP's Business Transformation Management (BTM²) framework goals for transparency and optimization.

"By identifying unused or redundant applications, WalkMe Discovery helps organizations reduce costs and mitigate compliance risks as part of their transformation initiatives." Option A (translation automation) and C (automated training development) are functions more aligned with WalkMe Digital Adoption Platform (DAP), not the Discovery module.

"While the WalkMe DAP provides in-app guidance and user training automation, Discovery focuses on discovering and analyzing app usage." Option D (enhancing satisfaction by 50%) is not a defined or measurable objective of the Discovery module; SAP does not claim specific numerical outcomes related to satisfaction.

Therefore, the correct answer - verified from SAP's official transformation documentation and WalkMe integration materials - is B: Identifies underutilized tools and compliance risks.

NEW QUESTION # 26

What is the primary purpose of WalkMe's Digital Adoption Platform (DAP)?

- A. To reduce digital friction and guide users through complex software
- B. To automate recruitment processes
- C. To manage payroll systems efficiently
- D. To implement advanced hardware solutions

Answer: A

Explanation:
The WalkMe Digital Adoption Platform (DAP) is designed to improve the user experience by reducing friction when interacting with digital systems. It provides on-screen guidance, automation, and analytics that help users complete tasks accurately and efficiently.
"The primary purpose of WalkMe's Digital Adoption Platform is to reduce digital friction and guide users through complex software environments using AI-powered, context-aware assistance." Reference:
The platform enhances employee productivity, adoption success, and process efficiency across SAP and third-party applications by simplifying navigation and ensuring process compliance.
"WalkMe DAP provides contextual guidance directly within applications, enabling users to execute digital workflows with minimal errors or training." Incorrect Options:
A: WalkMe is software-based, not a hardware solution.
B: Recruitment automation is part of SAP SuccessFactors, not WalkMe.
D: Payroll management is unrelated to WalkMe's purpose.
Verified Correct answer: C: To reduce digital friction and guide users through complex software.

NEW QUESTION # 27
