Compatible with iOS, Mac, Android, and Windows operating systems, it provides all the features of the desktop-based Plat-UX-102 Practice Exam software.

## Salesforce Certified Platform Strategy Designer Sample Questions (Q38-Q43):

### NEW QUESTION # 38

Cloud Kicks is making sustainability a new core value.

Which methodology should a strategy designer use to help stakeholders understand the impact of that decision on current products and services?

- A. Corporate integrity workshop
- B. Heuristics evaluation
- C. Business model canvas

**Answer: C**

**Explanation:**

A business model canvas is a methodology that a strategy designer should use to help stakeholders understand the impact of making sustainability a new core value on current products and services. A business model canvas is a tool that helps describe, design, and evaluate the key elements of a business model, such as value proposition, customer segments, revenue streams, cost structure, and

key resources. It helps assess the desirability, viability, and feasibility of a product or service, and identify opportunities and risks for improvement or innovation. <https://trailhead.salesforce.com/en/content/learn/modules/salesforce-strategy-designer-certification-prep/create-a-business-model-canvas>

#### NEW QUESTION # 39

A strategy designer is presenting their new service vision to an executive audience. What should the designer include in the executive summary to meet the audience needs?

- A. A detailed report of the data that informed the new vision
- **B. A plan description including who needs to act and what they need to do**
- C. The different options explored in the process of designing this vision

**Answer: B**

Explanation:

The best thing to include in the executive summary when presenting a new service vision to an executive audience is a plan description including who needs to act and what they need to do, as this provides a clear and concise overview of the vision and its implementation. A detailed report of the data that informed the new vision or the different options explored in the process of designing this vision may not be relevant or interesting for an executive audience.

#### NEW QUESTION # 40

Cloud Kicks (CK) is committed to making its new Commerce Cloud accessible to everyone. Which consideration should CK make when delivering this solution?

- A. Adequate accessibility measures make usability testing redundant.
- **B. Accessibility needs to be integrated throughout the entire project lifecycle.**
- C. Integrated accessibility evaluation methodologies are not helpful in this context.

**Answer: B**

Explanation:

The consideration that CK should make when delivering this solution is that accessibility needs to be integrated throughout the entire project lifecycle. Accessibility refers to the design and development of products or services that are usable by everyone, regardless of their abilities or disabilities. Accessibility needs to be considered and incorporated from the beginning to the end of the project, not as an afterthought or a separate process. This helps ensure that the solution meets the standards and guidelines for accessibility, and provides a positive and inclusive experience for all users. <https://trailhead.salesforce.com/en/content/learn/modules/salesforce-strategy-designer-certification-prep/integrate-accessibility-throughout-the-entire-project-lifecycle>

#### NEW QUESTION # 41

Cloud Kicks wants to improve its business model to be closer to its customers and provide quantifiable improvements to business efficiency.

Which framework should be used to drive the success of the new business model?

- **A. Desirable, Feasible, Viable**
- B. Feasible, Viable, Impactful
- C. Usable, Feasible, Cost-Effective

**Answer: A**

Explanation:

The Desirable, Feasible, Viable framework is essential for ensuring a new business model's success. It ensures the model is customer-centric (Desirable), technically and organizationally achievable (Feasible), and financially sustainable (Viable), aligning the innovation with customer needs, operational capabilities, and business objectives.

#### NEW QUESTION # 42

While conceptualizing a new footwear line, the design team gained feedback that both employees and consumers are seeking more

sustainable products. Leaders need more rationale to justify the investment.  
Which values-based design principle should be used to reinforce this feedback?

- **A. Create products from recycled materials.**
- B. Focus on creating enduring advantage
- C. Use energy from renewable resources.

**Answer: A**

Explanation:

The best values-based design principle to use to reinforce the feedback that both employees and consumers are seeking more sustainable products is to create products from recycled materials, as this helps reduce environmental impact, conserve resources, and demonstrate social responsibility. Using energy from renewable resources or focusing on creating enduring advantage may not be directly related to the product design.

## NEW QUESTION # 43

.....
