Topic 6	<ul style="list-style-type: none"> • Transportation Management for Logistics Service Provider (LSP): This topic focuses on order management and transportation processes specific to LSPs, including forwarding orders.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition - Transportation Management Sample Questions (Q63-Q68):

NEW QUESTION # 63

In which of the following areas can you use incompatibilities? Note: There are 3 correct answers to this question.

- A. Carrier selection
- B. Charge calculation
- C. Freight unit building
- D. Tendering
- E. Delivery proposal

Answer: A,C,E

Explanation:

In SAP S/4HANA Transportation Management, incompatibilities are used to enforce restrictions in various processes to prevent incompatible combinations. According to the SAP documentation, incompatibilities can be applied in:

* Delivery proposal (A): Incompatibilities ensure that certain products or freight units are not combined in delivery proposals (e.g., due to hazardous material restrictions).

* Freight unit building (D): Incompatibilities prevent specific products or requirements from being combined into the same freight unit (e.g., incompatible goods).

* Carrier selection (E): Incompatibilities restrict certain carriers from being assigned to specific freight orders based on criteria like equipment or service capabilities.

The other options are incorrect:

* Tendering (B) uses tendering profiles and rules but does not typically involve incompatibilities.

* Charge calculation (C) relies on freight agreements and rate tables, not incompatibilities.

Reference:

SAP S/4HANA Cloud Private Edition, Transportation Management Study Guide: Unit 3 - Transportation Planning, Section on Incompatibilities.

SAP Help Portal: Transportation Management - Incompatibility Areas ().

NEW QUESTION # 64

A discrepancy is configured with tolerance and blocking. Which of the following blocks are set when a discrepancy outside the configured tolerance is reported for a freight order? Note: There are 3 correct answers to this question.

- A. An invoicing block for the freight order
- B. A planning block for the freight order
- C. An execution block for the freight unit
- D. An execution block for the freight order
- E. An invoicing block for the freight unit

Answer: A,C,D

NEW QUESTION # 65

You want to plan transports with driver assignment. Where can you assign a driver? Note: There are 2 correct answers to this question.

- A. Vehicle resource
- B. Freight booking
- C. Freight order
- D. Transportation lane

Answer: A,C

Explanation:

In SAP S/4HANA Transportation Management, driver assignment is part of the transportation planning process to ensure that specific drivers are allocated to transports. According to the SAP documentation, drivers can be assigned in:

* Freight order (C): Drivers can be assigned directly to a freight order during planning or execution, specifying who will operate the vehicle for the transport.

* Vehicle resource (D): Drivers can be assigned to a vehicle resource in the master data, linking a driver to a specific vehicle for planning purposes.

The other options are incorrect:

* Transportation lane (A) defines routes and costs but does not include driver assignments.

* Freight booking (B) is used for ocean or air transport and typically does not involve driver assignments, which are more relevant to road transport (freight orders).

Reference:

SAP S/4HANA Cloud Private Edition, Transportation Management Study Guide: Unit 3 - Transportation Planning, Section on Driver Assignment.

SAP Help Portal: Transportation Management - Driver Management ().

NEW QUESTION # 66

What can you define in the forwarding order type?

There are 3 correct answers to this question

- A. Output profile
- B. Stage determination
- C. Freight unit building rule
- D. Incoterm location stage building
- E. Purchasing organization

Answer: A,C,E

NEW QUESTION # 67

How to Review the item data?

There are 2 correct answers to this question.

- A. Provide high quality work by the most qualified people, at convenient times for customers
- B. On the Items tab, scroll to the right to review the assigned requirement.
- C. Select the item and review the product details.
- D. Improve customer satisfaction and consistently meet service-level agreements (SLAs)

Answer: B,C

NEW QUESTION # 68
