Prep4pass's training course has a high quality, which its practice questions have 95% similarity with real examination. If you use Prep4pass's product to do some simulation test, you can 100% pass your first time to attend 1z0-1057-25 Certification Exam.

Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q48-Q53):

NEW QUESTION # 48

When setting up capitalization options on a project type, you have decided to enable the Require Complete Asset Definition option. If this option is enabled, the "Transfer Assets to Oracle Fusion Assets" process will place asset lines with complete definition into which queue in Oracle Fusion Assets?

- A. New
- B. Post
- C. Posted
- D. Hold

Answer: D

Explanation:

If the Require Complete Asset Definition option is enabled on a project type, the "Transfer Assets to Oracle Fusion Assets" process will place asset lines with complete definition into the Hold queue in Oracle Fusion Assets. This queue holds the asset lines that require manual review and approval before they can be posted to the asset register. Asset lines with incomplete definition will be placed into the Error queue in Oracle Fusion Assets. This queue holds the asset lines that have errors or missing information that need to be corrected before they can be transferred to the Hold queue. NEW QUESTION # 49

Your customer has implemented Oracle Project Portfolio Management Cloud recently and they have hired new employees for their Professions Services business. These employees are set up in Oracle Human Capital Management Cloud, but the Project Administrators are unable to add them as resources in the Planning Resource Breakdown Structure.

What are three conditions for new employees to show up in the list? (Choose three.)

- A. Current date is before the effective date of the resource, and you did not enable the "Include people with future-dated effective start dates" option during the search.
- B. All new employees created as persons must have an active supervisor.
- C. All new employees created as persons must have an active assignment.
- D. All new employees created as persons must be assigned to a department.
- E. All new employees created as persons must have an active project role.

Answer: A,C,D

Explanation:

Ref: https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapfin/project-foundation-configuration-define-project-resource-breakdown-structures.html#OAPFM180158_2 Why can't I find persons in the list of resources when I enter team members, planning resources, or person rate schedules?

You can't find persons in the list of resources when you enter team members, planning resources, or person rate schedules in the following situations:

* The administrator didn't assign a department while creating users. Persons must have an active assignment and be assigned to a department in Oracle Fusion Human Capital Management before they can be added as team members or entered as resources on the planning resource breakdown structure or person rate schedule.

* The resource isn't active in Oracle Fusion Human Capital Management because the current date is before the effective date of the resource. If you want to include persons who will start in the future, select the Include people with future-dated effective start dates option when you search for the person.

* Persons assigned as project managers aren't active as of the project start date.

* The assignment of the person is terminated, and an appropriate value isn't set for the number of days to display people with terminated assignments. You can set the profile value appropriately at the site profile level using the Specify Number of Days to Display People with Terminated Assignments task in the Setup and Maintenance work area.

NEW QUESTION # 50

You are managing a project based on a Waterfall model. You define a project and a project plan in Oracle Project Portfolio Management with tasks and subtasks applicable to each of the phases of the project:

Initiation, Discovery, Design, Build, Test, and Deploy. As a project manager, you want to define deliverables for your project requirements that are elucidated during the Discovery phase of your project. You now want to understand how the inheritance between requirements, tasks, and deliverables works. Identify the two correct statements in this respect. (Choose two.)

- A. A deliverable associated with a requirement is not automatically associated with the tasks created for that requirement.
- B. The association of a deliverable with a task is dependent on associating a requirement with a task.
- C. You associate a deliverable with a task, independent of associating a requirement with a task.
- D. A deliverable associated with a requirement is automatically associated with the tasks created for that requirement.

Answer: A,C

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapem/define-project-deliverables.html#OAPEM1122079> Associate deliverables with one or many tasks or requirements at any level. Associate existing deliverables to tasks or requirements or create deliverables directly for tasks or requirements. You can delete a deliverable in New status if it is not associated with tasks or requirements.

Can deliverables for projects and tasks be inherited from associated requirements?

Can deliverables for projects and tasks be inherited from associated requirements?

No. A deliverable associated with a requirement is not automatically associated with the tasks created for that requirement. You associate a deliverable with a task, independent of associating a requirement with a task.

NEW QUESTION # 51

Where should you specify the Default Capitalized Interest Rate Schedule?

- A. Manage Project Plan Type page
- B. Manage Expenditure Type page
- C. Manage Capitalized Interest Rate Schedules page
- **D. Manage Project Type page**
- E. Manage Capitalized Interest Rates page

Answer: D

Explanation:

The Default Capitalized Interest Rate Schedule should be specified on the Manage Project Type page. This option allows you to select a capitalized interest rate schedule that will be used as the default for projects or tasks that use the project type. A capitalized interest rate schedule defines the interest rates and dates that are used to calculate the capitalized interest amount for a project or task. Reference: <https://docs.oracle.com/en/cloud/qaas/project-portfolio-management/20c/oapfm/manage-project-costs.html#OAPFM2356101>

NEW QUESTION # 52

Your organization has decided to enable the common accounting and project accounting periods option while defining business unit implementation options.

Where will you maintain the accounting period statuses if this option has been enabled?

- **A. Project Foundation**
- B. General Ledger
- C. Subledger Accounting
- D. Project Costing

Answer: A

NEW QUESTION # 53

.....
