

# CNX-001考題免費下載 - CNX-001資訊

順便提一下，可以從雲存儲中下載PDFExamDumps CNX-001考試題庫的完整版：[https://drive.google.com/open?id=1FIAJ5qB2RluUQi-0\\_u-hjem3fCU25OPR](https://drive.google.com/open?id=1FIAJ5qB2RluUQi-0_u-hjem3fCU25OPR)

CompTIA的CNX-001考試認證是屬於那些熱門的IT認證，也是雄心勃勃的IT專業人士的夢想，這部分考生需要做好充分的準備，讓他們在CNX-001考試中獲得最高分，使自己的配置檔相容市場需求。

## CompTIA CNX-001 考試大綱：

主題	簡介
主題 1	<ul style="list-style-type: none"><li>Network Operations, Monitoring, and Performance: This section of the exam measures skills of Network Operations Specialists and covers day-to-day operational management of network environments. It involves configuring monitoring tools, analyzing performance data, and responding to alerts. Candidates are evaluated on their ability to maintain network health, optimize throughput, and ensure consistent uptime by applying best practices for proactive performance tuning and operations management.</li></ul>
主題 2	<ul style="list-style-type: none"><li>Network Architecture Design: This section of the exam measures the skills of Network Architects and covers the ability to design scalable, secure, and efficient network architectures. It focuses on understanding design principles, selecting appropriate network components, and aligning architecture decisions with organizational needs. Candidates are expected to demonstrate a solid grasp of topology planning, high-availability configurations, and integration of cloud and on-premise systems to ensure reliability and performance.</li></ul>
主題 3	<ul style="list-style-type: none"><li>Network Troubleshooting: This section of the exam measures the skills of Network Support Engineers and covers diagnosing and resolving connectivity and performance issues across various network layers. It focuses on identifying root causes, using diagnostic tools, and applying systematic troubleshooting methodologies. The goal is to ensure that professionals can minimize downtime, restore service quickly, and prevent recurring problems by maintaining a resilient and stable network environment.</li></ul>
主題 4	<ul style="list-style-type: none"><li>Network Security: This section of the exam measures the skills of Security Engineers and covers core practices for protecting network infrastructure. It includes applying firewall rules, implementing access control measures, and designing secure segmentation strategies. The content emphasizes threat mitigation techniques, secure configuration of networking devices, and adherence to compliance frameworks, preparing professionals to safeguard both internal and external network assets effectively.</li></ul>

## CNX-001資訊 & CNX-001考題寶典

CompTIA的CNX-001考試認證肯定會導致你有更好的職業前景，通過CompTIA的CNX-001考試認證不僅驗證你的

技能，也證明你的證書和專業知識，PDFExamDumps CompTIA的CNX-001考試培訓資料是實踐檢驗的軟體，有了它你會得到的理解理論比以前任何時候都要好，將是和你最配備知識。在你決定購買之前，你可以嘗試一個免費的使用版本，這樣一來你就知道PDFExamDumps CompTIA的CNX-001考試培訓資料的品質，也是你最佳的選擇。

## 最新的 CloudNetX CNX-001 免費考試真題 (Q73-Q78):

### 問題 #73

A partner is migrating a client from on-premises to a hybrid cloud. Given the following project status information, the initial project timeline estimates need to be revised:

(Refer to image: Phases like Discovery, Design, Implementation, and Knowledge Transfer have all exceeded their initial estimated timelines.) Which of the following documents needs to be revised to best reflect the current status of the project?

- A. SLA
- **B. WBS**
- C. SOW
- D. BIA

答案： B

解題說明：

Comprehensive and Detailed Explanation From Exact Extract:

The WBS (Work Breakdown Structure) is the document that outlines all project tasks, associated timelines, and deliverables. Since the project timeline has significantly deviated from its original estimates, updating the WBS will allow for accurate tracking, reallocation of resources, and setting new expectations. It directly reflects the phase durations and current project status.

Relevant Extract from CompTIA CloudNetX CNX-001 Study Guide - under "Project and Lifecycle Documentation":

"A Work Breakdown Structure provides a detailed timeline and scope of project tasks. Revisions to WBS are essential when milestones or phase durations change significantly." Other options:

- \* A. BIA (Business Impact Analysis) deals with criticality, not project scheduling.
- \* B. SLA (Service Level Agreement) defines performance guarantees, not project phases.
- \* C. SOW (Statement of Work) outlines scope and deliverables but doesn't track current status or time spent.

### 問題 #74

A network engineer is setting up guest access on a Wi-Fi network. After a recent network analysis, the engineer discovered that a user could access the guest network and attack the corporate network, since the networks share the same VLAN. Which of the following should the engineer do to prevent an attack like this one from happening?

- **A. Configure Layer 2 client isolation for the wireless network.**
- B. Set up a MAC filtering rule and add the MAC addresses of all corporate devices to the allow list.
- C. Set up a captive portal so all guest users have to register before gaining access to the wireless network.
- D. Set up a strong password on the guest wireless network.

答案： A

解題說明：

By enabling client isolation at Layer 2, guest clients can still reach the Internet but cannot directly communicate with any other device on that VLAN, including your corporate endpoints, stopping lateral attacks without needing MAC whitelists or overly complex captive-portal setups.

### 問題 #75

A network administrator is troubleshooting a user's workstation that is unable to connect to the company network. The results of commands the administrator runs on the workstation are shown below:

(A router on the same network shows the following output:

Which of the following is the most likely cause of the issues?

- A. DHCP server down
- B. Asynchronous routing
- C. Broadcast storm
- **D. IP address conflict**

答案: D

#### 問題 #76

A network administrator is troubleshooting a user's workstation that is unable to connect to the company network. The results of ipconfig and arp -a are shown. The user's workstation:

A router on the same network shows the following output:

- \* Has an IP address of 10.21.12.8
- \* Has subnet mask 255.255.255.0
- \* Default gateway is 10.21.12.254
- \* ARP table shows 10.21.12.8 mapped to 1A-21-11-31-74-4C (a different MAC address than the local adapter)

- A. DHCP server down
- B. Asynchronous routing
- C. Broadcast storm
- D. IP address conflict

答案: D

解題說明:

Comprehensive and Detailed Explanation From Exact Extract:

The local machine has the IP address 10.21.12.8 and the physical address 1A-21-11-33-44-5A. However, the ARP table shows that 10.21.12.8 is mapped to a different MAC address (1A-21-11-31-74-4C), meaning another device on the network is responding to ARP requests for the same IP. This is a clear sign of an IP address conflict, which would prevent the workstation from functioning properly on the network.

Relevant Extract from CompTIA CloudNetX CNX-001 Study Guide - under "Troubleshooting IP Addressing Issues":

"An IP conflict occurs when two devices on the same network are assigned the same IP address. Symptoms include connectivity loss, duplicate ARP entries, and inconsistent routing behavior." Other options:

- \* A. Asynchronous routing refers to packets taking different return paths, which is unrelated to ARP inconsistencies.
- \* C. DHCP server issues would affect IP assignment but are not indicated here - the workstation has an IP address assigned.

#### 問題 #77

A company is experiencing Wi-Fi performance issues. Three Wi-Fi networks are available, each running on the 2.4 GHz band and on the same channel. Connecting to each Wi-Fi network yields slow performance.

Which of the following channels should the networks be configured to?

- A. Channel 1, Channel 2, and Channel 3
- B. Channel 2, Channel 4, and Channel 9
- C. Channel 1, Channel 6, and Channel 11
- D. Channel 3, Channel 5, and Channel 10

答案: C

解題說明:

These are the three non-overlapping channels in the 2.4 GHz band, eliminating co-channel and adjacent- channel interference for optimal Wi-Fi performance.

#### 問題 #78

.....

為什麼我們領先於行業上的其他網站？因為我們提供的資料覆蓋面更廣，品質更高，準確性也更高。所以PDFExamDumps是你參加CompTIA CNX-001 認證考試的最好的選擇，也是你成功的最好的保障。
