## ITIL 4 Specialist: Drive Stakeholder Value (ITL4SDSV) Sample Questions (Q39-Q44):

### NEW QUESTION # 39

A service provider is launching a new service. What is an appropriate method to encourage the demand for this service?

- A. Set an early-bird price.
- B. Increase the overall price of the service.
- C. Introduce a freeze period before the deadline.
- D. Add a cancellation fee to the order.

**Answer: A**

**Explanation:**

to create incentives that encourage early adoption and generate demand. An early-bird pricing strategy is particularly effective in this context.

\* Early-Bird Price:

\* Setting an early-bird price provides a discount or special pricing for those who sign up or purchase the service early. This strategy

creates a sense of urgency and encourages early adoption, which can help in gaining initial traction for the service.

#### NEW QUESTION # 40

A consumer organization is making significant changes to the technologies used by its employees, and is discussing those changes with its service provider.

How can the service provider BEST demonstrate the capability to meet the needs of the consumer organization?

- A. Ensure there is adequate capacity to meet the increased demand of the changes
- B. Be respectful of the consumer organization's decision to make these changes
- C. Ensure there are adequate knowledge and skills to support the customer's changes
- D. Respond in a timely manner to the customer's enquiries

**Answer: C**

Explanation:

To best demonstrate the capability to meet the needs of a consumer organization making significant technological changes, the service provider should "Ensure there are adequate knowledge and skills to support the customer's changes." ITIL 4 underscores the importance of aligning the service provider's capabilities with the customer's evolving needs. This involves not just having the right resources in place but also ensuring that the service provider's team possesses the necessary skills and knowledge to support the changes effectively.

#### NEW QUESTION # 41

The IT Manager of an organization is drafting the business case to move to the public cloud. The IT Manager seeks your advice to understand the approach that can be considered. What is the best approach that you will suggest?

- A. Put continual improvement at the center of this initiative and use all the ITIL guiding principles.
- B. Organize an onboarding workshop with all stakeholders early in the process, this will increase the customer's engagement.
- C. Draw up a customer journey map of all different types of customers to understand the value the service brings.
- D. Map out the SWOT analysis and perform a risk analysis to understand which services are ready to be migrated to the public cloud.

**Answer: A**

Explanation:

When drafting a business case to move to the public cloud, using ITIL's guiding principles, with a focus on continual improvement, is the most comprehensive approach. ITIL's guiding principles provide a holistic approach to managing services, ensuring that decisions are made with a view to ongoing value delivery, risk management, and alignment with business objectives.

\* Option A (Correct): This is the correct answer. Continual improvement ensures that the cloud migration will be assessed and refined over time, leading to better outcomes. Using all the ITIL guiding principles will help address various aspects of the migration, such as risk, value creation, and stakeholder engagement.

\* Option B (Incorrect): A customer journey map is useful for understanding the customer experience but is more limited in scope compared to a continual improvement approach using all guiding principles.

\* Option C (Incorrect): An onboarding workshop is a good practice for engagement, but it should be part of a broader strategy rather than the sole focus.

\* Option D (Incorrect): SWOT and risk analysis are important, but they are only part of the broader continual improvement and guiding principles approach.

#### NEW QUESTION # 42

An organization's business-critical service is experiencing frequent downtimes and slow performances. What do you suggest to improve the situation?

- A. Improve the recovery time object of the critical services to minimize the impact on the service value.
- B. Scale up the underlying infrastructure to increase the resilience of the service.
- C. Coordinate with the business to understand how the services are aligned to the business goals.
- D. Match the usage of the services to the downtimes and propose actions to spread the demand.

**Answer: C**

Explanation:

When an organization's business-critical service is experiencing frequent downtimes and slow performances, the best approach according to ITIL 4's "Drive Stakeholder Value" is to coordinate with the business to ensure that the services are properly aligned with business goals. This ensures that any technical improvements or strategic adjustments directly support the business's objectives.

- \* Option A (Incorrect): Improving the recovery time objective (RTO) is important but may not address the root cause of the frequent downtimes and slow performance.
- \* Option B (Correct): Coordinating with the business to understand alignment is crucial. By ensuring that the services align with business goals, you can prioritize the most impactful improvements and ensure that technical adjustments meet strategic needs.
- \* Option C (Incorrect): Scaling up infrastructure may help with resilience, but without understanding the business alignment, this might not be the most efficient or necessary solution.
- \* Option D (Incorrect): Matching usage to downtimes might mitigate some issues but does not address the underlying causes of the performance problems.

### NEW QUESTION # 43

Customers who love to eat organic food are an example of which category?

- A. Geographic market category
- **B. Psychographic market category**
- C. Demographic market category
- D. Behavioural market category

**Answer: B**

Explanation:

Customers who love to eat organic food represent a market segment based on their lifestyle, beliefs, and values. This segmentation falls under the psychographic market category.

\* Psychographic Market Category:

\* Psychographic segmentation divides the market based on lifestyle, values, attitudes, and personality traits. Consumers who prefer organic food typically share specific values and lifestyles related to health, environmental consciousness, and sustainability, making this a psychographic segmentation.

### NEW QUESTION # 44
