SAP Certified Associate - Implementation Consultant - SAP SuccessFactors Onboarding Sample Questions (Q62-Q67):

NEW QUESTION # 62

What tool in Admin Center do you use to configure the Hire/Rehire parameters to decide which fields are matched to indicate potential rehires?

- A. Manage Business Configuration
- B. Rehire Inactive Employee
- C. Manage Configuration UI
- **D. Manage Data**

Answer: D

NEW QUESTION # 63

What are some of the Email Services features available in Onboarding?

Note: There are 3 correct answers to this question.

- **A. Configure reminder notifications to control the frequency of reminder messages**
- B. Trigger an onboarding task
- C. Delete a preconfigured email template
- **D. Create new email templates with business and locale-specific rules content**
- **E. Attach documents to email notifications**

Answer: A,D,E

Explanation:

The Email Service tool in SAP SuccessFactors Onboarding enables administrators to configure email notifications for onboarding participants, supporting communication throughout the process. Several features enhance the flexibility and functionality of these notifications.

According to the SAP SuccessFactors Onboarding Configuration Guide:

* Create new email templates with business and locale-specific rules content (Option B):

Administrators can create custom email templates in Email Services and define content based on business rules or locale-specific requirements, ensuring relevant messaging for different regions or scenarios.

* Configure reminder notifications to control the frequency of reminder messages (Option C): Email Services allows configuration of reminder notifications, including setting the frequency (e.g., daily or weekly) to prompt users to complete overdue tasks.

* Attach documents to email notifications (Option E): Documents, such as onboarding forms or instructions, can be attached to email notifications to provide new hires or managers with necessary materials directly in the email.

Option A (Delete a preconfigured email template) is incorrect because preconfigured templates are system-defined and cannot be deleted, though they can be disabled or customized. Option D (Trigger an onboarding task) is incorrect because tasks are triggered by business rules or process steps, not directly by Email Services.

NEW QUESTION # 64

What rehire conditions can be enabled with the Hire/Rehire Configuration generic object?

Note: There are 3 correct answers to this question.

- A. First Name, Middle Name, Last Name
- **B. First Name, Last Name, Date of Birth**
- **C. National ID**
- **D. First Name, Last Name**
- E. Date of Birth

Answer: B,C,D

NEW QUESTION # 65

Which data model contains job-related data about an employee, such as compensation data?

- A. Country-Specific Succession Data Model
- B. Corporate Data Model
- C. Country-Specific Corporate Data Model
- **D. Succession Data Model**

Answer: D

Explanation:

In SAP SuccessFactors, data models define the structure of employee data used across modules like Onboarding and Employee Central. The data model containing job-related information, including compensation data, is critical for onboarding processes where such data is collected or mapped.

According to the SAP SuccessFactors Onboarding Implementation Guide:

* Succession Data Model (Option A): The Succession Data Model includes entities like jobInfo, compInfo, and employmentInfo, which store job-related data (e.g., position, department) and compensation details (e.g., salary, bonuses). This model is used in Onboarding to populate and validate employee data during steps like Personal Data Collection or Additional Data Collection. Option B (Country-Specific Succession Data Model) is incorrect because it extends the Succession Data Model with country-specific fields but is not the primary model for job-related data. Option C (Country-Specific Corporate Data Model) is incorrect because it focuses on organizational data (e.g., legal entities), not employee job or compensation data. Option D (Corporate Data Model) is incorrect because it primarily defines organizational structures, not employee-specific job or compensation details.

NEW QUESTION # 66

What are some of the Email Services features available in Onboarding? Note: There are 3 correct answers to this question.

- **A. Configure reminder notifications to control the frequency of reminder messages.**
- B. Delete a preconfigured e-mail template.
- **C. Create new e-mail templates with business locale-specific rules content.**
- D. Trigger an onboarding task.
- **E. Attach documents to e-mail notifications.**

Answer: A,C,E
