

# New Nokia OSPF Routing Protocol Exam Actual Test - 4A0-113 Updated Torrent & Nokia OSPF Routing Protocol Exam Practice Pdf

What's more, part of that TestsDumps 4A0-113 dumps now are free: <https://drive.google.com/open?id=1TNi0il1NKKZ8UmPf6MsNb29xRF5ftWel>

In order to make all customers feel comfortable, our company will promise that we will offer the perfect and considerate service for all customers. If you buy the 4A0-113 training files from our company, you will have the right to enjoy the perfect service. We have employed a lot of online workers to help all customers solve their problem. If you have any questions about the 4A0-113 learning dumps, do not hesitate and ask us in your anytime, we are glad to answer your questions and help you use our 4A0-113 study questions well. We believe our perfect service will make you feel comfortable when you are preparing for your exam.

Nokia 4A0-113 certification exam covers a wide range of topics related to OSPF routing protocol, including OSPF concepts and terminology, OSPF network design and implementation, OSPF area types and configuration, and OSPF troubleshooting and optimization. 4A0-113 exam also covers advanced topics like OSPF multi-area and multi-vendor interoperability. Passing the exam demonstrates that the candidate has a deep understanding of OSPF routing protocol and can effectively manage and troubleshoot OSPF-based networks.

To prepare for the Nokia 4A0-113 Exam, Nokia offers a variety of training courses and resources. These include instructor-led courses, self-paced e-learning modules, and hands-on labs. The training covers all the topics that are included in the exam and provides practical experience in configuring and troubleshooting OSPF-based networks. Additionally, there are numerous study guides and practice exams available online to help you prepare for the exam.

## Nokia 4A0-113 Latest Test Format - Realistic Nokia OSPF Routing Protocol Exam Exam Testking Pass Guaranteed Quiz

Time is life, time is speed, and time is power. You have to spend less time reaching your goals before you can walk ahead and seize more opportunities. Now, if you use our 4A0-113 preparation materials, you only need to learn twenty to thirty hours to go to the exam. And this data is provided and tested by our worthy customers. For they have passed the exam with the help of our 4A0-113 Exam Questions in such a short time and as 98% to 100% of them passed. The pass rate is also unmatched in the market!

Earning the Nokia 4A0-113 (Nokia OSPF Routing Protocol) Certification is highly beneficial for network engineers who are seeking to advance their career in the field of networking. Nokia OSPF Routing Protocol Exam certification validates the candidate's expertise in implementing and troubleshooting OSPF routing protocol, which is a highly sought-after skill in the industry. Additionally, this certification demonstrates the candidate's commitment to ongoing professional development and their dedication to staying up-

to-date with the latest technologies and trends in the field of networking.

## Nokia OSPF Routing Protocol Exam Sample Questions (Q74-Q79):

### NEW QUESTION # 74

What is the source IP address in an OSPF update?

- A. The system address of the router
- B. 224.0.0.5
- C. 224.0.0.6
- D. The unicast IP address of the interface the update is being sent on.

**Answer: D**

### NEW QUESTION # 75

What is the default priority value used for electing the DR on an Nokia 7750 SR running OSPF on an Ethernet?

- A. Priority of 1
- B. Priority of 255
- C. Priority of 0
- D. Priority of 64

**Answer: A**

### NEW QUESTION # 76

Which of the following concerning OSPFv3 is TRUE?

- A. OSPFv3 uses MD5 Authentication.
- B. NSSA is supported in OSPFv3.
- C. OSPFv3 uses a 64-bit router ID.
- D. Router LSAs carry IPv6 prefix information.

**Answer: B**

### NEW QUESTION # 77

Which of the following statements regarding area border routers in an OSPF network is true?

- A. By definition, an area border router must perform route summarization between areas.
- B. An OSPF network needs at least one area border router to function.
- C. Area border routers connect the backbone area to other areas in an OSPF network.
- D. The term backbone router has the same definition as the term area border router.

**Answer: C**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

From Nokia 7750 SR OS OSPF Guide - Area Border Routers (ABRs) Section:

"An ABR is a router connected to both area 0 and at least one non-backbone area, responsible for exchanging routing information between areas." ABRs serve as gateways between the backbone area (area 0) and non-backbone areas.

Summarization is optional on ABRs, not mandatory.

Thus, the correct answer is C.

### NEW QUESTION # 78

An interface is configured on a router for OSPF but the command "show router ospf neighbor" does not show any neighbors. Which of the following is NOT a possible cause?
