Any questions related with our H13-511\_V5.5 study prep will be responded as soon as possible, and we take good care of each exam candidates' purchase order, sending the updates for you and solve your questions on our H13-511\_V5.5 exam materials 24/7 with patience and enthusiasm. So do not capitulate to difficulties, because we will resolve your problems of the H13-511\_V5.5 Training Materials. You will get the most useful help form our service on the H13-511\_V5.5 training guide.

## Huawei H13-511\_V5.5 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Describe the characteristics of cloud computing: This section explains the essential attributes and defining features of cloud computing such as on-demand self-service, broad network access, and resource pooling. It outlines what distinguishes cloud computing from traditional computing models.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>• Be able to describe what virtualization is: This topic covers the concept of virtualization technology and how it enables multiple virtual instances to run on physical hardware. It explains the foundational role virtualization plays in creating isolated computing environments.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• List a few use cases of cloud computing: This topic presents practical applications and scenarios where cloud computing is implemented across different industries. It demonstrates real-world examples of how organizations utilize cloud services to solve business problems.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• Describe what cloud computing is: This topic covers the fundamental definition and concept of cloud computing technology. It explains how cloud computing enables on-demand access to shared computing resources over the internet.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Understand KVM technology: This topic focuses on Kernel-based Virtual Machine (KVM) as a specific virtualization solution for Linux systems. It covers how KVM transforms Linux into a hypervisor to manage virtual machines efficiently.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• Understand the differences between virtualization and cloud computing: This section clarifies how virtualization and cloud computing are related yet distinct technologies. It explains that virtualization is a key enabler of cloud computing but cloud encompasses broader service delivery models and characteristics.</li> </ul>

## H13-511\_V5.5 Valid Exam Preparation | H13-511\_V5.5 Latest Braindumps Ppt

Before buying our H13-511\_V5.5 exam torrents some clients may be very cautious to buy our H13-511\_V5.5 test prep because they worry that we will disclose their privacy information to the third party and thus cause serious consequences. Our privacy protection is very strict and we won't disclose the information of our clients to any person or any organization. The H13-511\_V5.5 test prep mainly help our clients pass the H13-511\_V5.5 exam and gain the certification. The certification can bring great benefits to the clients. The clients can enter in the big companies and earn the high salary. You may double the salary after you pass the H13-511\_V5.5 Exam. If you own the certification it proves you master the H13-511\_V5.5 quiz torrent well and you own excellent competences and you will be respected in your company or your factory. If you want to change your job it is also good for you.

### Huawei HCIA-Cloud Computing V5.5 Sample Questions (Q11-Q16):

#### NEW QUESTION # 11

Which of the following descriptions about the characteristics of virtualization is wrong?

- A. Software and hardware are tightly coupled, virtualization depends on the underlying hardware, and compatibility issues need to be considered
- B. Isolation, logical isolation between virtual machines, not affected by each other
- C. Partitioning, the virtualization layer divides resources separately for each virtual machine
- D. Encapsulation, which encapsulates the virtual machine into a file and saves it on the physical device

**Answer: A**

#### NEW QUESTION # 12

In Huawei Fusion Computer, which of the following descriptions about virtual machine snapshot restoration is incorrect?

- A. If a certain disk mode of the virtual machine is "independent persistent or independent non- persistent", the data on the disk will not be restored when the virtual machine is restored using a snapshot
- B. A virtual machine can have multiple snapshots
- C. If the virtual machine deletes the port group where the virtual machine NIC is located after the snapshot is created, the deleted port group will also be restored when the snapshot is used to restore the virtual machine
- D. Use the existing snapshot of the virtual machine to restore the data of the virtual machine to the state when the snapshot was created

**Answer: C**

### NEW QUESTION # 13

TAP is a virtual network device independently maintained in Linux.

- A. TRUE
- B. FALSE

**Answer: A**

Explanation:

In Linux-based virtualization environments, a TAP device is a software-based virtual network interface that operates at Layer 2 of the OSI model.

TAP devices are independently maintained by the Linux kernel and are commonly used to connect virtual machines to virtual switches or bridges. They simulate physical Ethernet interfaces, allowing VMs to send and receive Ethernet frames.

This definition aligns with HCIA-Cloud Computing networking fundamentals, so the statement is TRUE.

### NEW QUESTION # 14

Which of the following descriptions about memory multiplexing technology is correct?

- A. Enable memory multiplexing technology, the higher the multiplexing ratio, the better the performance of the virtual machine
- B. Turn on the memory multiplexing technology, which can increase the number of virtual machines deployed on the physical host to a certain extent
- C. The total memory of all virtual machines created by the user with memory reuse technology must be smaller than the physical memory
- D. If the memory usage of the user virtual machine is relatively high, it can be optimized by increasing the memory reuse ratio

**Answer: B**

### NEW QUESTION # 15

Residential virtualization architecture refers to installing and running virtualization programs on the host operating system, relying on the host operating system's support for devices and management of physical resources.

- A. False
- B. True

**Answer: B**

### NEW QUESTION # 16

.....

In order to help customers, who are willing to buy our H13-511\_V5.5 test torrent, make good use of time and accumulate the knowledge, Our company have been trying our best to reform and update our H13-511\_V5.5 exam tool. "Quality First, Credibility First, and Service First" is our company's purpose, we deeply hope our H13-511\_V5.5 Study Materials can bring benefits and profits for our customers. So we have been persisting in updating our H13-511\_V5.5 test torrent and trying our best to provide customers with the latest H13-511\_V5.5 study materials to help you pass the H13-511\_V5.5 exam and obtain the certification.
