SAP Certified Associate - SAP SuccessFactors Employee Central Core Sample Questions (Q25-Q30):

NEW QUESTION # 25

Which method of modifying employee data will trigger an event reason derivation?

- A. Inserting a new record in history UI
- B. Deleting a record in history UI
- C. Using Actions menu in People Profile
- D. Using Add New Hire

Answer: C

Explanation:

Event Reason Derivation in SAP SuccessFactors Employee Central is triggered when changes are made to employee data through specific actions. Utilizing the "Actions" menu in the People Profile to update employee information initiates the Event Reason Derivation process. This mechanism automatically determines the appropriate event reason based on the nature of the data change. In contrast, inserting a new record via the history UI, deleting a record in the history UI, or using the "Add New Hire" function does not trigger Event Reason Derivation. These actions either bypass the derivation process or involve scenarios where event reasons are manually selected.

Therefore, the correct answer is:

B: Using Actions menu in People Profile

This approach ensures that event reasons are accurately derived and recorded in line with the configured business rules in SAP SuccessFactors Employee Central.

NEW QUESTION # 27

A customer has scheduled an HRIS sync job, which includes mapping of job titles, to run every Friday. On Tuesday, an employee's job title is changed via Manager Self-Service (MSS) to become effective on Thursday.

When will the synchronization happen?

- **A. Friday, when the sync job completes**
- B. Tuesday, the day the transaction is entered
- C. Saturday, the day after the sync job completes
- D. Thursday, when the change becomes effective

Answer: A

Explanation:

In SAP SuccessFactors Employee Central, the HRIS synchronization (sync) job is responsible for aligning data between different modules and ensuring consistency across the system. When an employee's job title is changed via Manager Self-Service (MSS) with an effective date set to Thursday, and the HRIS sync job is scheduled to run every Friday, the synchronization will occur on Friday, when the sync job completes.

This means that any changes made effective on Thursday will be synchronized during the next scheduled HRIS sync job on Friday. Therefore, the correct answer is C. Friday, when the sync job completes.
