

# HP HPE7-J02 Exam Practice Test To Gain Brilliance Result

DOWNLOAD the newest TestsDumps HPE7-J02 PDF dumps from Cloud Storage for free: [https://drive.google.com/open?id=1FPmyui1Ob-C4rC\\_rasu8R-p-QNgopg4q](https://drive.google.com/open?id=1FPmyui1Ob-C4rC_rasu8R-p-QNgopg4q)

But our company can provide the anecdote for you--our HPE7-J02 study materials. Under the guidance of our HPE7-J02 exam practice, you can definitely pass the exam as well as getting the related certification with the minimum time and efforts. We would like to extend our sincere appreciation for you to browse our website, and we will never let you down. The advantages of our HPE7-J02 Guide materials are more than you can imagine. Just rush to buy our HPE7-J02 practice braindumps!

## HP HPE7-J02 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Monitoring and Telemetry: This section examines the skills of Cloud Operations Specialists in using HPE or third-party management tools to monitor customer telemetry. Candidates must configure alerts, analyze logs, and evaluate reports to identify SLA trends, outages, and performance issues.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Planning and Validating Storage Solutions: This section assesses the role of Storage Consultants in evaluating complex, multi-vendor environments. Candidates will demonstrate their ability to plan, size, and validate storage solutions tailored for enterprise workloads, ensuring proposals meet customer requirements effectively.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Remote Support Configuration: This small but important section tests the ability of System Administrators to configure HPE solutions for remote support, ensuring proactive monitoring and timely resolution of technical issues.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Optimizing the Customer's Environment: This domain evaluates the skills of Optimization Specialists in identifying opportunities for improvement. Candidates will design and validate optimization plans that enhance customer environments, ensuring measurable performance and efficiency gains.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Advanced Troubleshooting and Prevention: This section focuses on the ability of Support Engineers to identify root causes of issues and implement advanced preventive measures. It emphasizes building resilience in customer environments to minimize future disruptions.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Competitive Positioning of HPE Storage: This part of the exam focuses on the ability of Trusted Advisors to identify competitive opportunities for HPE Storage solutions. It requires articulating HPE's strengths in comparison to multi-vendor environments, customer needs, and market trends, helping customers make informed technology choices.</li> </ul>

## HPE7-J02 Latest Test Fee, HPE7-J02 Relevant Answers

You have to put in some extra effort, time, and investment and prepare well to pass this milestone. Do you have a plan to get success in the HP HPE7-J02 certification exam? Are you looking for the right study material that ensures your success in the TestsDumps new real HP HPE7-J02 Exam Questions on your first attempt? If your answer is yes then you just need to get help from TestsDumps practice exam questions.

### HP Advanced HPE Storage Integrator Solutions Written Exam Sample Questions (Q35-Q40):

#### NEW QUESTION # 35

The storage solution based on the exhibit is deployed at a customer site.

How can the sequential read performance values be enhanced for this configuration?

- A. By adding another expansion shelf
- **B. By increasing the amount of 10/25 Gb NICs**
- C. By adding SCM to the solution
- D. By replacing 10/25 Gb with a 32 Gb FC HBA

**Answer: B**

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

The exhibit shows a system delivering ~2.3 GB/s sequential read. For large-block sequential workloads, aggregate host link bandwidth (number × speed of front-end ports) is the primary limiter. Increasing the count of 10/25 Gb iSCSI NICs adds parallel lanes, raising sustained read GB/s to the hosts. This is a recommended first step in HPE sizing before changing protocols.

Analysis of Incorrect Options (Distractors):

A: Adding an expansion shelf increases capacity, not front-end bandwidth.

C: Moving to 32 Gb FC can help, but simply adding more existing 10/25 Gb ports achieves the same goal without a protocol/adaptor change and is the straightforward, supported scale-out path.

D: SCM (Storage Class Memory) targets latency/IOPS; it doesn't materially lift sequential GB/s if the link budget is the bottleneck.

Key Concept: Scale front-end connectivity to increase sequential throughput; capacity or media class changes won't fix a link-limited system.

Reference: HPE Alletra 6000/MP Sizing and Host Connectivity Guidelines (throughput scaling via additional host ports).

#### NEW QUESTION # 36

Your customer wants to use their HPE Alletra Storage MP B10000 array to store persistent data for Kubernetes-based applications. After deploying the CSI driver using Helm and creating the secret with the command `kubectl create -f hpe-backed.yaml`, what is the next required step to enable the containerized applications to consume persistent volumes on the Alletra MP array?

- A. Update the Helm repository by using `helm repo update` to recognize the CSI driver
- **B. Define a StorageClass by running `kubectl create -f storageclass.yaml`**
- C. Create a PersistentVolumeClaim by using `kubectl create -f my-pvc.yaml`
- D. Create a PersistentVolume by using `kubectl create -f pv.yaml`

**Answer: B**

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

After installing the HPE CSI driver and creating backend secrets, the next critical step is to define a StorageClass that references the backend driver and parameters. Without the StorageClass, Kubernetes cannot dynamically provision PersistentVolumes (PVs).

Once the StorageClass is created, workloads can request storage using PersistentVolumeClaims (PVCs).

Distractors:

A: Helm repo update only refreshes Helm charts; it does not enable CSI provisioning.

B: A PVC requires a StorageClass to bind dynamically - it cannot be created successfully beforehand.

C: Manually creating PVs is possible, but not the HPE best practice with CSI, which relies on StorageClass for dynamic provisioning.

Key Concept: Kubernetes CSI workflow: Secret # StorageClass # PVC # Pod.

### NEW QUESTION # 37

Your customer has just gone through a merger and is consolidating datacenters. They are currently using a mix of manufacturers. They are evaluating whether to consolidate on HPE as their new standard. You are helping them size their new virtualized environment.

What additional information do you need to decide on an assessment tool?

- A. If they are using AWS or Azure public cloud storage
- **B. If they are virtualized on VMware or Hyper-V**
- C. If any equipment has expired support contracts
- D. If they are only purchasing in a CapEx model

**Answer: B**

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

The choice of assessment tool (e.g., HPE CloudPhysics for VMware vs. CloudPhysics.vhdx collector for Hyper-V) depends primarily on the virtualization platform in use. VMware and Hyper-V require different collectors, and this is the deciding factor for tool selection.

Distractors:

A: Public cloud use matters for hybrid sizing but not for tool selection.

C: Expired contracts are unrelated to tool choice.

D: Procurement model (CapEx vs. GreenLake) is separate from sizing assessment.

Key Concept: Assessment tool choice = based on hypervisor platform (VMware vs Hyper-V).

Reference: HPE CloudPhysics Assessment Guide.

### NEW QUESTION # 38

Which statement is true regarding HPE's SAP HANA solutions?

- A. 77% of customers prefer SAP HANA solutions on HPE.
- **B. About 40% of HANA infrastructure runs on HPE.**
- C. Customers can reduce licensing costs with Alletra MP Block.
- D. HPE supplies custom HANA licenses exclusive for HPE appliances.

**Answer: B**

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

HPE is one of the leading infrastructure providers for SAP HANA, with ~40% of global SAP HANA deployments running on HPE platforms (ProLiant, Alletra, Nimble/Primera for storage). This is an official HPE statistic repeatedly cited in white papers and customer references.

Distractors:

A: SAP HANA licensing is provided directly by SAP, not custom-issued by HPE.

B: Licensing costs are tied to SAP metrics (memory size), not Alletra storage type.

C: "77% prefer" is a marketing exaggeration and not the accurate documented figure.

Key Concept: HPE's strong positioning in SAP HANA infrastructure market share.

Reference: HPE SAP HANA Solutions Overview, HPE Global SAP HANA Customer Reference Sheet.

### NEW QUESTION # 39

Which statement is correct when deploying an HPE Zerto DR solution where an Extended Journal Copy is required with a one-year retention period?

- A. HPE Zerto integrates with HPE StoreOnce to enable long-term retention for Extended Journal Copies.
- B. Extended Journal Copies always come from the target site to avoid impact on the production site.
- C. HPE Zerto supports a maximum of 30-day retention and cannot exceed this period.
- D. An additional license is required to enable the Extended Journal Copy feature.

**Answer: A**

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

Zerto Extended Journal allows retention up to one year by integrating with secondary storage like HPE StoreOnce. Short-term journals (seconds to days) reside on primary replication storage, while long-term copies (weeks/months/years) are offloaded to StoreOnce for cost-efficient retention.

Distractors:

A: No separate license is required - it is a standard Zerto feature when integrated.

C: Extended Journals can be sourced from production or target, depending on setup; not "always" target.

D: Incorrect - Zerto supports >30 days retention with Extended Journal.

Key Concept: Zerto + HPE StoreOnce for long-term DR retention.

Reference: HPE Zerto with StoreOnce White Paper.

### NEW QUESTION # 40

.....

If you are not satisfied with the function of PDF version which just only provide you the questions and answers, the APP version of HPE7-J02 exam cram materials can offer you more. APP version can not only simulate the real test scene but also point out your mistakes and notice you to practice many times. This version of HP HPE7-J02 Exam Cram materials is rather powerful. If you are willing, you can mark your performance every day and adjust your studying and preparation relatively. HPE7-J02 exam cram materials will try our best to satisfy your demand.
