## Salesforce Certified Experience Cloud Consultant Sample Questions (Q92-Q97):

### NEW QUESTION # 92

universal Containers UC maintains multiple customer-facing sites, but only one profile for all customerusers.

Ho customer has access to more than one site.

which two steps should the UC admin take to grant access to each customer?

Choose 2 answers

- A. Select a permission set for a given site.
- B. Select the profile for a given site.
- C. Create a permission set.
- D. Edit the applicable user profile.

Answer: A,C

Explanation:

To grant access to each customer to only one site, UC should create a permission set and select a permission set for a given site. A permission set is a collection of settings and permissions that give users access to various tools and functions. UC can create a permission set for each site that specifies the site access and the object permissions for the customer users. UC can then select a permission set for a given site in the Experience Builder, which will assign the permission set to all new and existing users of that site.

#### NEW QUESTION # 93

A consultant is asked to set up a new experience using the Customer service template. The articles from an existing knowledge base must be exposed in the new site.

What are the two ways the consultant should associate the articles with topics?

Choose 2 answers

- A. Allow guest users to tag displayed articles with relevant topics on a public page.
- **B. Manually add one or more topics to each article within Workspaces.**
- **C. Select the appropriate topics on the Knowledge tab within Lightning Experience.**
- D. Establish automatic topic assignment of topics to specified data categories within WorkSpaces.

**Answer: B,C**

Explanation:

Two ways the consultant should associate the articles with topics are A and D. Topics are keywords or phrases that help users find and organize content in Experience Cloud sites. To associate articles with topics, you can select the appropriate topics on the Knowledge tab within Lightning Experience, which allows you to view and edit articles in a list or Kanban view. You can also manually add one or more topics to each article within Workspaces, which allows you to create and manage articles in a collaborative environment.

#### NEW QUESTION # 94

Ursa Major Solar (UMS) would like authenticated Experience Site users to see cases, quotes, contracts, and Knowledge articles appear in search results, but the Search Results component is only returning Knowledge articles.

How should UMS configure its search results to yield the desired results?

- A. On the Search page, select the appropriate objects in the property editor for the Search Results component.
- **B. On the Search page, switch the Search Results component with Global Search Results and select the appropriate objects in the property editor.**
- C. In Salesforce Setup, under the Experience Site users' profile, adjust the system permissions to allow for multiple objects in search results.
- D. On the Home page, in the property editor for the Hero component, adjust the Hero Type to "Call to Action" instead of "Search".

**Answer: B**

Explanation:

This option allows UMS to configure its search results to include cases, quotes, contracts, and Knowledge articles. The Global Search Results component is a new component that supports multiple objects and facets in the search results. UMS can add this component to the Search page and select the objects that they want to display in the property editor.

#### NEW QUESTION # 95

Ursa Major Solar would like content from Salesforce CMS to be queried when users search for keywords in its customer portal. Which setting must be turned on in order for Global Search in Experience Builder to query content in Salesforce CMS?

- A. Sharing Rules must be set to Read/Write.
- B. Community must be activated.
- **C. Search must be enabled for the selected CMS Channel.**
- D. Gather Customer Insights Data must be selected.

**Answer: C**

Explanation:

This setting allows the CMS content to be searchable within the channel where it is published. To enable search for a channel, open the CMS Channels tab in Salesforce CMS, select Edit beside a channel, and click the Search toggle. Additionally, if the site is created with Experience Builder, the Global Search Box component must be configured to include the Content object<sup>4</sup>

### NEW QUESTION # 96

Ursa Major Solar created a public knowledge base where both authenticated customers and unauthenticated guest users can view Known articles as a self-service option to troubleshoot issues.

When creating a Knowledge article, which checkbox should be selected so that all users can view the articles?

- A. Visible to Partner
- B. Visible to Customer
- C. Visible to Public Knowledge Base
- D. Visible to Anyone

**Answer: C**

Explanation:

To make a Knowledge article visible to both authenticated customers and unauthenticated guest users on the public knowledge base, you need to select the Visible to Public Knowledge Base checkbox when creating the article. This will allow you to share the article with public users on your site. You can also select other visibility options, such as Visible to Customer or Visible to Partner, if you want to share the article with other channels.
