

New ED-Con-101 Exam Questions - Exam ED-Con-101 Quick Prep

BIOD 101 PORTAGE LEARNING EXAM 1 QUESTIONS AND ANSWERS

What is matter? - correct answer Matter is anything that has mass and volume and takes up space. It can be in gaseous, liquid, or solid states.

What is matter made up of? - correct answer Elements

What is an essential element? - correct answer An element that is required for human life, and is present in large abundances.

What is a trace element? - correct answer An element that is required, but only in small quantities.

ionic bond - correct answer A chemical bond resulting from the attraction between oppositely charged ions.

covalent bond - correct answer A chemical bond that involves sharing a pair of electrons between atoms in a molecule

hydrogen bond - correct answer weak attraction between a hydrogen atom and another atom

ion - correct answer A charged atom

What is the charge of a cation? - correct answer positive (+)

What four organic compounds make up biomacromolecules? - correct answer Lipids, proteins, nucleic acids, carbohydrates

What is a carbohydrate? - correct answer Commonly referred to as sugars. They are the primary fuel source for organisms and have the same three elements in their main structure: carbon, hydrogen, and oxygen. Fructose, glucose. H to O ratio always 2:1.

Polymer - correct answer A long molecule consisting of many similar or identical monomers linked together.

Monomer - correct answer A simple compound whose molecules can join together to form polymers

Why are lipids unique among the macromolecules? - correct answer Lipids are insoluble in water. Lipids are also not monomers; they are assembled from smaller molecules that are chemically linked together

ED-Con-101 Reliable Practice Questions & ED-Con-101 Exam Training Material & ED-Con-101 Pdf Vce

The three versions of our ED-Con-101 training materials each have its own advantage. On the one hand, the software version can simulate the real ED-Con-101 examination for all of the users in windows operation system. By actually simulating the real test environment. On the other hand, if you choose to use the software version, you can download our ED-Con-101 Exam Prep only for Windows system. We strongly believe that the software version of our ED-Con-101 study materials will be of great importance for you to prepare for the exam and all of the employees in our company wish you early success.

Salesforce Certified Education Cloud Consultant Sample Questions (Q55-Q60):

NEW QUESTION # 55

A large university has a Career Service Center that provides career advice to current students and alumni. Staff provide advice the phone, via email and face-to-face. Students and alumni are served on a first come, first served basis and are rarely assigned to a specific advisor.

What should the consultant recommend to meet the requirement?

- A. Queue Management
- B. Success Teams
- C. Appointment Scheduling
- D. Assignment Rules

Answer: C

Explanation:

Appointment Scheduling is a solution that the consultant can recommend to meet the requirement of providing career advice to current students and alumni via phone, email, or face-to-face. Appointment Scheduling is a feature that allows users to create and manage appointments with customers or clients from Salesforce. Appointment Scheduling can be used to offer different types of services, such as career advice, tutoring, or counseling. Appointment Scheduling also integrates with calendars, email notifications, and reports. Success Teams, Queue Management, and Assignment Rules are not solutions that can meet the requirement of providing career advice to current students and alumni via phone, email, or face-to-face. NEW QUESTION # 56

A university wants to track the Biology 101 class for next semester. The class will be held on Tuesdays and Thursdays from 3:00-4:00 PM in Lecture Hall A.

and on Wednesdays and Fridays from 1:00-2:30 PM in the adjacent lab facility.

Which object in Education Data Architecture (EDA) should a consultant use to meet this requirement?

- A. Time Block
- B. Course Offering Schedule
- C. Program Enrollment

Answer: B

Explanation:

The consultant should use the Course Offering Schedule object in EDA to meet the requirement of tracking the Biology 101 class for next semester that will be held on Tuesdays and Thursdays from 3:00-4:00 PM in Lecture Hall A and on Wednesdays and Fridays from 1:00-2:30 PM in the adjacent lab facility for the university. The Course Offering Schedule object is an object in EDA that allows users to store information about when and where a course offering is held, such as day of week, start time, end time, or location. The Course Offering Schedule object can help the consultant meet the requirement of tracking the Biology 101 class for next semester that will be held on Tuesdays and Thursdays from 3:00-4:00 PM in Lecture Hall A and on Wednesdays and Fridays from 1:00-2:30 PM in the adjacent lab facility for the university by creating two Course Offering Schedule records for the Biology 101 course offering, one for the lecture sessions and one for the lab sessions, and specifying the day of week, start time, end time, and location for each record. Time Block, Program Enrollment, or Course Connection are not objects in EDA that the consultant should use to meet the requirement of tracking the Biology 101 class for next semester that will be held on Tuesdays and Thursdays from 3:00-4:00 PM in Lecture Hall A and on Wednesdays and Fridays from 1:00-2:30 PM in the adjacent lab facility for the

university. Reference:

NEW QUESTION # 57

A university's IT department is setting up an integration between the student information system (SIS) and the Education Data Architecture (EDA). The SIS integration will send students' academic major, status, and dates.

Which Salesforce object should this be mapped to?

- **A. A Program Enrollment**
- B. Course Connection
- C. Education History

Answer: A

Explanation:

A Program Enrollment object in EDA is used to track a student's registration in an academic program or course of study, including information such as registration dates, status, credits earned, and GPA¹. A Course Connection object is used to track a student's enrollment in a specific course offering, including information such as role, grade, and attendance². An Education History object is used to track a student's previous education records, such as schools attended, degrees earned, and test scores³. Reference:

1: Education Data Architecture Documentation - Salesforce¹

2: EDA Object Reference - Salesforce⁴

3: EDA Object Reference - Salesforce⁴

NEW QUESTION # 58

A college is replacing its legacy system with the Education Data Architecture (EDA). The consultant is working on the data migration and needs to map available classes.

Which EDA object indicates a class is available for a given term?

- A. Course Connection
- **B. Course Offering**
- C. Time Block
- D. Attendance Event

Answer: B

Explanation:

Course Offering is an EDA object that indicates a class is available for a given term. Course Offering is an object that represents a specific instance of a course that is offered during a term. Course Offering can be used to track various information about a class, such as name, code, capacity, faculty, location, or schedule. The consultant can create a Course Offering record for each class that is available for a given term and associate it with the Term object. Course Connection, Attendance Event, and Time Block are not EDA objects that indicate a class is available for a given term. Reference:

<https://powerofus.force.com/s/article/EDA-Course-Offerings>

<https://powerofus.force.com/s/article/EDA-Course-Offerings-Create>

NEW QUESTION # 59

A university is implementing a student community and rolling it out to 20,000 students. The IT manager is concerned about the large increase in users accessing the system at any one time.

Which step should the consultant recommend?

- A. Log a case with Salesforce Support to increase limits.
- **B. Develop a Performance Testing Strategy.**
- C. Use a third-party testing automation tool.

Answer: B

Explanation:

The step that the consultant should recommend to the IT manager who is concerned about the large increase in users accessing the

student community at any one time is B. Develop a Performance Testing Strategy¹. This is because a performance testing strategy can help the IT manager to plan, execute, and analyze tests that measure the system's performance, scalability, reliability, and availability under various user loads and scenarios. A performance testing strategy can also help the IT manager to identify and resolve any performance issues or bottlenecks before the student community goes live, and to ensure that the system meets the expected service level agreements and user satisfaction².

A. Use a third-party testing automation tool and C. Log a case with Salesforce Support to increase limits are not valid steps for this scenario. Using a third-party testing automation tool may be a part of the performance testing strategy, but it is not a step by itself. The IT manager needs to define the objectives, scope, approach, tools, and metrics of the performance testing strategy before choosing and using a testing automation tool². Logging a case with Salesforce Support to increase limits may be a possible action that the IT manager can take after conducting the performance testing and analyzing the results, but it is not a step that the consultant should recommend before the testing. The IT manager needs to determine the current and expected system capacity, throughput, response time, and resource utilization before requesting any limit increases from Salesforce Support³.

NEW QUESTION # 60

.....

So rest assured that with the Salesforce Certified Education Cloud Consultant (ED-Con-101) practice questions you will not only make the entire ED-Con-101 exam dumps preparation process and enable you to perform well in the final Salesforce Certified Education Cloud Consultant (ED-Con-101) certification exam with good scores.
