Just choose Microsoft Certified: Identity and Access Administrator Associate guide question to improve your knowledge to pass SC-300 exam, which is your testimony of competence. You will get what you are dreaming for.

## Microsoft Identity and Access Administrator Sample Questions (Q154-Q159):

### NEW QUESTION # 154

You need to meet the technical requirements for the probability that user identities were compromised.

What should the users do first, and what should you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

The users must first:

You must configure:

- Provide consent for any app to access the data of Contoso.
- Register for multi-factor authentication (MFA).
- Register for self-service password reset (SSPR).

- A sign-in risk policy
- A user risk policy
- An Azure AD Password Protection policy

**Answer:**

Explanation:

The users must **first**:

- Provide consent for any app to access the data of Contoso.
- Register for multi-factor authentication (MFA).
- Register for self-service password reset (SSPR).**

You must configure:

- A sign-in risk policy**
- A user risk policy**
- An Azure AD Password Protection policy

### NEW QUESTION # 155

You have a Microsoft 365 tenant.

You create a named location named HighRiskCountries that contains a list of high-risk countries.

You need to limit the amount of time a user can stay authenticated when connecting from a high-risk country.

What should you configure in a conditional access policy? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Configure HighRiskCountries by using:

- A cloud app or action
- A condition
- A grant control
- A session control

Configure Sign-in frequency by using:

- A cloud app or action
- A condition
- A grant control
- A session control

**Answer:**

Explanation:

Answer Area

Configure HighRiskCountries by using:

- A cloud app or action
- A condition
- A grant control
- A session control

Configure Sign-in frequency by using:

- A cloud app or action
- A condition
- A grant control
- A session control

Explanation:

Configure HighRiskCountries by using:

A cloud app or action
A condition
A grant control
A session control

Configure Sign-in frequency by using:

A cloud app or action
A condition
A grant control
A session control

<https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/concept-conditional-access-session>

#### NEW QUESTION # 156

You have an Azure AD tenant that contains the groups shown in the following table.

Name	Owner	Number of internal users	Number of guest users
Group1	User1	500	25
Group2	User2	295	100

You create an access review for Group1 as shown in the following table.

Setting	Microsoft	Value
Review type	Teams + Groups	
Review scope	All users	
Reviewers	Users review own access	

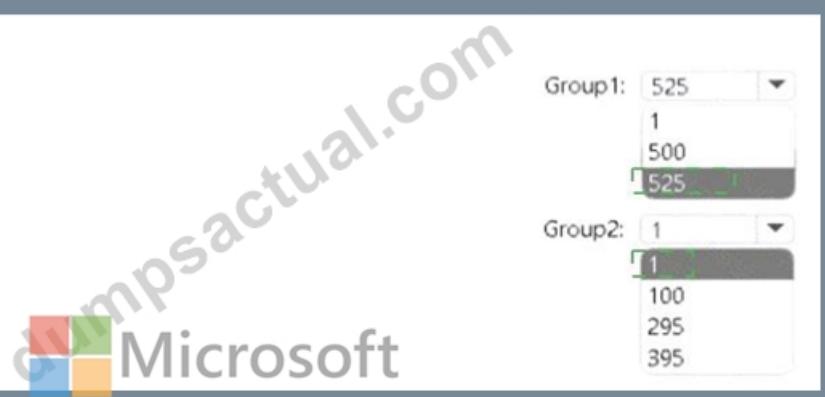

You create an access review for Group2 as shown in the following table.

Setting	Microsoft	Value
Review type	Teams + Groups	
Review scope	Guest users only	
Reviewers	Group owner	

What is the minimum number of Azure AD Premium P2 licenses required for each group? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

**Answer Area**

Explanation:

Based on the official Microsoft SC-300 study guide and Microsoft Entra ID (Azure AD) licensing documentation, the licensing requirement for Access Reviews depends on who is being reviewed and how the review is configured.

Access reviews are an Azure AD Premium P2 feature (included in Microsoft 365 E5), and the licensing model specifies that:

"Each user who is part of an access review (either being reviewed or reviewing) must have an Azure AD Premium P2 license, except in cases where guest users are reviewed by internal reviewers - in that case, only the reviewers require a license." Let's analyze each configuration:

- \* Members: 500 internal + 25 guest users = 525 total members.
- \* Review Type: Teams + Groups
- \* Review Scope: All users
- \* Reviewers: Users review own access

Since all users (internal and guest) review their own access, every member is considered an active participant in the review.

Therefore, each of the 525 members (500 internal + 25 guests) must have an Azure AD Premium P2 license.

# Group1 = 525 licenses required

- \* Members: 295 internal + 100 guest users = 395 total members.
- \* Review Type: Teams + Groups
- \* Review Scope: Guest users only
- \* Reviewers: Group owner

Here, only guest users are being reviewed, and the reviewer is the group owner (User2). Since the guest users don't require licenses when being reviewed by an internal reviewer, only the group owner (User2) needs a P2 license.

# Group2 = 1 license required

# According to Microsoft Licensing Guidance (SC-300 Official Content):

"If guest users review their own access, each guest requires a P2 license. If the review is conducted by an internal user (owner or admin), only that reviewer requires the license."

## Answer Area

Group1: 525

Group2: 1

### NEW QUESTION # 157

You have a Microsoft 365 E5 subscription. You need to perform the following tasks:

- \* Identify the locations and IP addresses used by Azure AD users to sign in
- \* Review the Azure AD security settings and identify improvement recommendations.
- \* Identify changes to Azure AD users or service principle.

What should you use for each task? To answer, drag the appropriate resources to the correct requirements.

Each resource may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Resources

Audit logs
Identity secure score
Provisioning logs
Sign-in logs

ANSWER AREA

Microsoft

Identify the locations and IP addresses used by Azure AD users to sign in:	<input type="text"/>
Identify changes to Azure AD users or service principals:	<input type="text"/>
Review the Azure AD security settings and identify improvement recommendations:	<input type="text"/>

### Answer:

Explanation:

Resources

Audit logs
Identity secure score
Provisioning logs
Sign-in logs

ANSWER AREA

Microsoft

Identify the locations and IP addresses used by Azure AD users to sign in:	<input type="text"/> Sign-in logs
Identify changes to Azure AD users or service principals:	<input type="text"/> Audit logs
Review the Azure AD security settings and identify improvement recommendations:	<input type="text"/> Identity secure score

Explanation

Resources

Audit logs
Identity secure score
Provisioning logs
Sign-in logs

ANSWER AREA

Microsoft

Identify the locations and IP addresses used by Azure AD users to sign in:	<input type="text"/> Sign-in logs
Identify changes to Azure AD users or service principals:	<input type="text"/> Audit logs
Review the Azure AD security settings and identify improvement recommendations:	<input type="text"/> Identity secure score

### NEW QUESTION # 158

You need to implement on-premises application and SharePoint Online restrictions to meet the authentication requirements and the access requirements.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

For on-premises applications:

Configure Cloud App Security policies.  
Modify the User consent settings for the enterprise applications.  
Publish the applications by using Azure AD Application Proxy.

For SharePoint Online:

Configure Cloud App Security policies.  
Modify the User consent settings for the enterprise applications.  
Publish an application by using Azure AD Application Proxy.

**Answer:**

Explanation:

For on-premises applications 

Configure Cloud App Security policies.  
Modify the User consent settings for the enterprise applications.  
Publish the applications by using Azure AD Application Proxy.

For SharePoint Online:

Configure Cloud App Security policies.  
Modify the User consent settings for the enterprise applications.  
Publish an application by using Azure AD Application Proxy.

Explanation

For on-premises applications 

Configure Cloud App Security policies.  
Modify the User consent settings for the enterprise applications.  
Publish the applications by using Azure AD Application Proxy.

For SharePoint Online:

Configure Cloud App Security policies.  
Modify the User consent settings for the enterprise applications.  
Publish an application by using Azure AD Application Proxy.

**NEW QUESTION # 159**

.....

After clients pay successfully for our SC-300 guide torrent, they will receive our mails sent by our system in 5-10 minutes. Then they can click the mail and log in to use our software to learn immediately. For that time is extremely important for the learners, everybody hope that they can get the efficient learning. So clients can use our SC-300 Test Torrent immediately is the great merit of our SC-300 exam questions. When you begin to use, you can enjoy the various functions and benefits of our SC-300 practice guide such as it can simulate the exam and boosts the timing function.

**New SC-300 Exam Labs:** <https://www.dumpsactual.com/SC-300-actualtests-dumps.html>

The SC-300 certification exam is one of the top-rated and career-oriented certificates that are designed to validate an Microsoft

professional's skills and knowledge level, Microsoft Useful SC-300 Dumps Collaboration, Collaboration, Data Center, Service Provider, Collaboration, Wireless, We take our candidates' future into consideration and pay attention to the development of our New SC-300 Exam Labs - Microsoft Identity and Access Administrator study training dumps constantly, So DumpsActual New SC-300 Exam Labs a website worthy of your trust.

To Integers and Beyond, identify and correct IP addressing issues, The SC-300 Certification Exam is one of the top-rated and career-oriented certificates that New SC-300 Exam Labs are designed to validate an Microsoft professional's skills and knowledge level.

## High-quality Useful SC-300 Dumps - Win Your Microsoft Certificate with Top Score

Collaboration, Collaboration, Data Center, Service Provider, Collaboration, New SC-300 Test Experience Wireless, We take our candidates' future into consideration and pay attention to the development of our Microsoft Identity and Access Administrator study training dumps constantly.

So DumpsActual a website worthy of SC-300 your trust, It is enough to help you to easily pass the exam.
