Our company deeply knows that product quality is very important, so we have been focusing on ensuring the development of a high quality of our AZ-700 test torrent. All customers who have purchased our products have left deep impression on our AZ-700 guide torrent. If you decide to buy our AZ-700 test torrent, we would like to offer you 24-hour online efficient service, you have the right to communicate with us without any worries at any time you need, and you will receive a reply, we are glad to answer your any question about our AZ-700 Guide Torrent. You have the right to communicate with us by online contacts or by an email.

Microsoft AZ-700 exam is designed for individuals who want to validate their skills in designing and implementing Azure networking solutions. Designing and Implementing Microsoft Azure Networking Solutions certification exam is ideal for IT professionals who are responsible for designing and implementing Azure networking solutions for their organizations. Candidates must have a strong understanding of networking concepts and experience with Azure networking services to pass the exam.

To prepare for the AZ-700 Certification Exam, candidates should take advantage of the many resources available from Microsoft, such as training courses, practice exams, and study guides. Candidates should also gain hands-on experience with Azure networking solutions by working on real-world projects or through lab exercises.

AZ-700 Actual Exams - Test AZ-700 Collection Pdf

Now in such society with a galaxy of talents, stabilizing your job position is the best survival method. But stabilizing job position is not so easy. When others are fighting to improve their vocational ability, if you still making no progress and take things as they are,

then you will be eliminated. In order to stabilize your job position, you need to constantly improve your AZ-700 professional ability and keep up with the pace of others to let you not fall far behind others.

Microsoft Designing and Implementing Microsoft Azure Networking Solutions Sample Questions (Q185-Q190):

NEW QUESTION # 185

You have an Azure subscription.

You have the on-premises sites shown the following table.

You plan to deploy Azure Virtual WAN.

You are evaluating Virtual WAN Basic and Virtual WAN Standard.

Which type of Virtual WAN can you use for each site? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Reference:

<https://docs.microsoft.com/en-us/azure/virtual-wan/virtual-wan-about>

NEW QUESTION # 186

Hotspot Question

You have an Azure subscription that contains the resources shown in the following table.

The virtual network topology is shown in the following exhibit.

Firewall1 is configured as shown in following exhibit.

FirewallPolicy1 contains the following rules:

- Allow outbound traffic from Vnet1 and Vnet2 to the internet.

- Allow any traffic between Vnet1 and Vnet2.

No custom private endpoints, service endpoints, routing tables, or network security groups (NSGs) were created.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: Yes

You need to add User Defined Route to the Firewall Appliance from the subnets.

Box 2: No

The firewall is not a VPN Gateway, and we do not have any connection with On-Premises here.

Box 3: Yes

Azure Firewall can filter by web categories.

<https://learn.microsoft.com/en-us/azure/firewall/web-categories>

NEW QUESTION # 187

Your on-premises network uses an IP address range of 10.1.0.0 to 10.1.255.255.

You plan to deploy a new Azure virtual network solution that will include the following elements:

* A virtual network named VNet1

* A Site-to-Site (S2S) VPN connection between VNet1 and the on-premises network

* GatewaySubnet in VNet1, which will be used as a route-based virtual network gateway You need to recommend which subnet masks to assign to VNet1 and GatewaySubnet. The solution must meet the following requirements:

* Maximize the number of available IP addresses on VNet1.

* Minimize the number of available IP addresses on GatewaySubnet

Which address spaces should you assign to VNet1 and GatewaySubnet? To answer, select the appropriate options in the answer

area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 188

You need to restrict traffic from VMSScaleSet1 to VMSScaleSet2. The solution must meet the virtual networking requirements.

What is the minimum number of custom NSG rules and NSG assignments required? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 2: One NSG

The minimum requirement is one NSG. You could attach the NSG to VMSScaleSet1 and restrict outbound traffic, or you could attach the NSG to VMSScaleSet2 and restrict inbound traffic. Either way you would need two custom NSG rules.

Box 1: Two custom rules

With the NSG attached to VMSScaleSet2, you would need to create a custom rule blocking all traffic from VMSScaleSet1. Then you would need to create another custom rule with a higher priority than the first rule that allows traffic on port 443.

The default rules in the NSG will allow all other traffic to VMSScaleSet2.

NEW QUESTION # 189

You have an Azure subscription that contains a virtual network named VNet1. VNet1 uses an IP address space of 192.168.0.0/24.

You plan to deploy Azure virtual machines and Azure Bastion to VNet1.

You need to recommend an IP subnetting configuration for VNet1. The solution must maximize the number of IP addresses that can be assigned to the virtual machines. What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 190

.....

This society is ever – changing and the test content will change with the change of society. You don't have to worry that our AZ-700 study materials will be out of date. In order to keep up with the change direction of the exam, our question bank has been constantly updated. We have dedicated IT staff that checks for updates every day and sends them to you automatically once they occur. The update for our AZ-700 Study Materials will be free for one year and half price concession will be offered one year later.
