- A. Select "All employees are eligible" under Eligibility Settings, update eligibility rules to EXCLUDE the desired inactive employees.
- B. Select "All employees are eligible" under Eligibility Settings, update eligibility rules to INCLUDE the desired inactive employees.

- D. Select "Including Inactive Users when defining the Method of Planner, select "All employees are eligible" under Eligibility Settings, update eligibility rules to EXCLUDE the undesired inactive employees.

Answer: C

Explanation:

To include a specific population of inactive employees in the worksheet, select settings that specify inclusion criteria for inactive users and adjust eligibility accordingly.

* Option C: "Select 'Including Inactive Users' when defining the Method of Planner, select 'All employees are eligible' under Eligibility Settings, update eligibility rules to INCLUDE the desired inactive employees."

* By enabling the "Including Inactive Users" option, planners can ensure that inactive employees are part of the worksheet. Setting "All employees are eligible" provides a base eligibility, while the eligibility rules can then specifically include only the desired inactive employees based on criteria set in the rule.

: SAP SuccessFactors Compensation Guide > Eligibility Configuration > Including Inactive Users in Worksheets.

Explanation for Incorrect Options:

Option A would exclude desired inactive employees instead of including them.

Option B does not set the "Including Inactive Users" option, which is necessary for inactive employees.

Option D does not include inactive employees in the initial settings, missing the requirement for the "Including Inactive Users" setting.
