GARP Sustainability and Climate Risk Sample Questions (Q96-Q101):

NEW QUESTION # 96

A Central American country signs the Paris Agreement to align actions and policies to keep global temperature rise below 1.5°C. The country's environmental agency develops a nationally determined contribution plan that includes domestic, economy-wide, and sector-specific policies. The power generation sector is most comprehensively covered by the plan.

Which policy included in the plan targets the power generation sector?

- A. Carbon tax
- B. Emission trading scheme
- C. Renewable portfolio standard
- D. Green/low carbon public procurement

Answer: C

NEW QUESTION # 97

A product manager at a regional bank analyzes customer feedback and sustainability trends to enhance bank offerings. After completing the review, the manager recommends a new consumer-facing product to attract sustainability-conscious customers.

Which product does the manager most likely recommend?

- A. Green car loans designed to finance modern EVs
- B. SLLs to finance properties in areas prone to physical climate risk
- C. Green loans to support general-purpose financing secured from sustainable sources
- D. Sustainable credit cards with rewards for purchase of eco-certified products

Answer: A

NEW QUESTION # 98

A recent sustainability report revealed the pension fund of a small European nation is heavily invested in sectors with poor sustainability records. In response to pensioner and other stakeholder requests, the fund joins the PRI.

What strategy must the fund incorporate to comply with the PRI?

- A. Invest passively in companies with strong environmental performance.
- B. Divest from energy companies involved in fossil fuel extraction.
- C. Request disclosure from investee firms on ESG issues.
- D. Standardize reporting frameworks across investment sectors.

Answer: C

NEW QUESTION # 99

Organizers of an upcoming UN Climate Change Conference prepare a document highlighting successes and failures of climate accords over the last 20 years.

The document lists what success from the 2009 Copenhagen Accord?

- A. Binding short-term GHG emissions reduction commitments
- B. Unconditional emissions reduction targets by Annex II parties
- C. Acceptance of a quantitative long-term global warming limit
- D. Establishment of a uniform emissions reduction target baseline

Answer: C
