### **NEW QUESTION # 66**

You need to recommend integration solutions to fulfill the company requirements.

Which Microsoft integration aligns with each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

The requirement is to match each integration requirement with the correct Microsoft integration solution in Business Central.

\* Customer email collaboration # Business Central Outlook add-inThe Business Central Outlook add-in allows users to create sales documents such as quotes, orders, or invoices directly from Outlook emails.

This supports the requirement to create sales orders while collaborating with customers by email.

\* Sales team collaboration # Business Central app for TeamsThe Business Central app for Teams enables users to view, share, and even edit Business Central data such as customer records while working inside Microsoft Teams chat or channels. This aligns with the requirement to edit customer information while collaborating with the sales team in a group chat.

\* Customer notifications for sales campaign # Power AutomatePower Automate is designed for automating workflows such as sending notifications, approval requests, or bulk communications. To notify all customers at once about a sales campaign, Power Automate can integrate Business Central data with email or marketing tools.

Why not Word template?

Word templates are mainly used for document formatting and mail merges but do not handle automated notifications at scale. For distributing campaign notifications to multiple customers, Power Automate is the correct tool.
