You can benefit from a number of additional benefits after completing the Microsoft GH-300 Certification Exam.

Microsoft GitHub Copilot Sample Questions (Q117-Q122):

NEW QUESTION # 117

When using GitHub Copilot Chat to generate unit tests, which slash command would you use?

- A. /init-tests
- B. /create-tests
- C. /generate-tests
- D. /tests

Answer: D

Explanation:

"/tests: Generate unit tests for the selected code or function."

This is the official description of the /tests slash command, confirming it is the command used to create unit tests.

References: GitHub Copilot Chat slash command reference.

NEW QUESTION # 118

Select a strategy to increase the performance of GitHub Copilot Chat.

- A. Use a single GitHub Copilot Chat query to find resolutions for the collection of technical requirements
- B. Apply prompt engineering techniques to be more specific
- C. Optimize the usage of memory-intensive operations within generated code
- D. Limit the number of concurrent users accessing GitHub Copilot Chat

Answer: B

Explanation:

Applying prompt engineering techniques to be more specific is the best strategy to increase the performance and relevance of GitHub Copilot Chat's responses.

NEW QUESTION # 119

An independent contractor develops applications for a variety of different customers. Assuming no concerns from their customers, which GitHub Copilot plan is best suited?

- A. GitHub Copilot Business
- B. GitHub Copilot Enterprise
- C. GitHub Copilot Business for non-GHE Customers
- **D. GitHub Copilot Individual**
- E. GitHub Copilot Teams

Answer: D

Explanation:

For an independent contractor, GitHub Copilot Individual is the most suitable and cost-effective plan.

Reference: GitHub Copilot pricing documentation.

NEW QUESTION # 120

When using GitHub Copilot Chat to generate boilerplate code for various test types, how can you guide the AI to follow the testing standards of your company?

- **A. By using specific prompt examples in your chat request.**
- B. By using a specific slash command in the prompt.
- C. By using a specific command in the terminal.
- D. By using a specific setting in GitHub Copilot's configuration.

Answer: A

Explanation:

"The quality of Copilot Chat responses depends on the clarity and specificity of your prompts. You can guide Copilot to follow organizational standards by including examples or requirements in your request." This means prompt engineering with specific examples is the way to align with company standards.

References: GitHub Copilot Chat best practices documentation.

NEW QUESTION # 121

Identify the right use cases where GitHub Copilot Chat is most effective. (Each correct answer presents part of the solution. Choose two.)

- **A. Creation of a unit test scenario for newly developed Python code**
- **B. Explain a legacy COBOL code and translate the code to another language like Python.**
- C. Create a technical requirement specification from the business requirement documentation
- D. Creation of end-to-end performance testing scenarios for a web application

Answer: A,B

Explanation:

GitHub Copilot Chat is effective for explaining and translating legacy code and generating unit test scenarios for new code.

Reference: GitHub Copilot Chat use cases.

NEW QUESTION # 122
