Our company is a professional certificate exam materials provider, and we have occupied in this field for years. Our company is in the leading position in exam materials providing. SCR exam materials of us have high pass rate, and you can pass it by using them, and money back guarantee for your failure. SCR Exam Materials have the questions and answers and therefore you can practice the question and check the answers in a quite convenient way. We also offer you free update for one year, and you can get the latest version timely if you buy the SCR exam dumps from us.

Preparing For GARP SCR Exam

How To Tackle GARP SCR Exam

A study guide tailored towards GARP test takers that aim to improve your score by increasing your knowledge and understanding of the exam.

If you're taking the GARP (Global Association of Risk Professionals) exam, you've probably already spent a lot of time studying and you're wondering if there's anything else you can do to improve your score. Well, I have good news for you - there is something you can take advantage of by using a study guide tailored towards GARP.

It's no secret that the finance industry is the highest contributor to greenhouse emissions in the world. Corporate Finance professionals hold the key to climate change solutions due to their influence on companies ability to adapt and mitigate environmental

risks. Join this online study guide to learn everything you need in order to tackle exam questions more efficiently as well as learn about GARP's role in tackling climate change on a global scale. The GARP SCR exam is designed to test your knowledge about sustainability and climate risk. Being knowledgeable is important for any finance professional. **SCR Dumps** contains multiple choice questions, as well as explanations and solutions to help you learn more about the exam.

You can't manage what you don't measure. Today, many of the leading financial firms are closely monitoring not only their business operations and balance sheets, but also the risks related to climate change and sustainability issues. In this study guide, we cover the important topics in the GARP exam related to corporate responsibility.

The need for sustainable finance professionals has increased significantly in recent years due to the growing awareness of the environmental and social risks associated with investments. The SCR Certification Exam is designed to help professionals understand how to integrate sustainability and climate risks into traditional risk management practices, allowing them to make informed decisions about investments and mitigate risks associated with ESG factors.

The SCR Exam is recognized globally as a mark of excellence in sustainability and climate risk management and provides professionals with a competitive edge in their careers. Overall, the SCR Exam is an excellent investment for professionals who want to make a positive impact on the environment and society while advancing their careers.

GARP Sustainability and Climate Risk Sample Questions (Q74-Q79):

NEW QUESTION # 74

A climate risk consultant advises an Eastern European central bank. In response to regulatory changes, the bank will incorporate climate-related risks into bank policies. The consultant writes a summary on how central banks incorporated climate-related risks into policies. The summary highlights the Bank of England (BoE) example to demonstrate how the BoE integrated climate-related risks within the bank supervisory scope.

Which of the following BoE practices will the consultant recommend?

- **A. Require banks and insurers include all material exposures relating to financial risks from climate change under capital adequacy and solvency assessments.**
- B. Adopt a policy that requires firms to submit climate risk disclosures that precisely follow NGFS guidelines.
- C. Integrate climate-related risks into bank monetary policy before attempting to integrate climate into other areas of bank operations.
- D. Obligate firms to allocate responsibility for climate-related risks using a bottom-up approach where the risk team assesses climate risks while the board of directors approves or denies.

Answer: A

NEW QUESTION # 75

An international hotel chain reviews progress on sustainability goals in preparation for an Earth Day marketing campaign. A sustainability director suggests the hotel highlight how its energy and food sustainability initiatives align with UN SDG targets. Which of the following correctly describes an SDG target that the hotel could align with?

- A. By 2030 reduce GHG emissions to half of 2000 levels.
- B. By 2050 double the share of renewables in the energy mix.
- **C. By 2050 reduce per capita food waste by half.**
- D. By 2030 double the rate of energy efficiency improvements.

Answer: C

NEW QUESTION # 76

A bank assesses lending portfolio alignment with various climate change scenarios. To assist in this process, the risk team applies the Paris Agreement Capital Transition Assessment (PACTA) tool to examine transition risk for power generation, automotive, and steel sectors. The team examines different PACTA metrics for each sector based on data availability and sectoral profile. For sectors with no clear zero-carbon pathway, what metric will PACTA employ?

- A. Emission intensity
- B. Technology and fuel mix
- C. Production volume trajectory
- D. Carbon allocation credit

Answer: A

NEW QUESTION # 77

An industry association in Germany surveys members on business alignment with nationally determined contributions (NDCs). The association members express concern about potential cascading legal repercussions or penalties if governments do not conform to Paris Agreement pledges. An attorney at the association researches this issue and sends a memo to members. The memo should state the Paris Agreement legally obliges signatories to take what action?

- A. Penalize industries exceeding NDC emissions thresholds.
- B. Revise NDC targets annually.
- C. Report on NDC progress every 5 years.
- D. Provide financing to help developing countries achieve NDC goals.

Answer: C

NEW QUESTION # 78

An investment analyst assesses climate-related stranded asset risk for a portfolio of energy companies. The analyst develops a list of companies potentially exhibiting stranded asset risk. After a more granular examination, the analyst summarizes corporate activity in the following table:

Company	Activity
Utility	Significant capital investments to switch from coal to lower-cost natural gas.
Oil & Gas	A write-down of the value of assets after forecasting a decline in company oil reserves.
Hydroelectric	Shut down of dam operations before the end of its useful life due to sustained droughts throughout a river basin.
Technology Startup	Reduction of solar panel expansion as the levelized cost of energy for renewables flatlines.

The analyst identifies the company with the highest stranded asset exposure for possible divestment. Which company does the analyst recommend for divestment?

- A. Utility
- B. Hydroelectric
- C. Technology startup
- D. Oil & Gas

Answer: C
