

# Valid 1z0-1124-25 Exam Notes | Valid 1z0-1124-25 Exam Tips

DOWNLOAD the newest Actual4Labs 1z0-1124-25 PDF dumps from Cloud Storage for free: [https://drive.google.com/open?id=1JO-EhQPrhONYg\\_i4gG8wuLg7F7B6gWzE](https://drive.google.com/open?id=1JO-EhQPrhONYg_i4gG8wuLg7F7B6gWzE)

In order to cater to different kinds of needs of customers, three versions for 1z0-1124-25 learning materials are available. You can choose one you prefer according to your own needs. 1z0-1124-25 PDF version is printable and you can study anywhere and anyplace. 1z0-1124-25 Soft test engine supports MS operating system and have two modes for practice. In addition, 1z0-1124-25 Soft test engine can simulate the real exam environment, and your confidence for the exam can be strengthened through this version. 1z0-1124-25 Online test engine is convenient and easy to study, it supports all web browsers, and it has testing history and performance review, so that you can have a general review before next training.

Look at our 1z0-1124-25 study questions, you can easily find there are three varied versions: the PDF, Software and APP online. And no matter which version you buy, you will find that our system can support long time usage. The durability and persistence can stand the test of practice. All in all, the performance of our 1z0-1124-25 Learning Materials is excellent. Come to enjoy the pleasant learning process. It is no use if you do not try our 1z0-1124-25 exam braindumps by yourself.

## Valid 1z0-1124-25 Exam Tips & 1z0-1124-25 Exam Vce Format

There is a succession of anecdotes, and there are specialized courses. Experts call them experts, and they must have their advantages. They are professionals in every particular field. The 1z0-1124-25 test material, in order to enhance the scientific nature of the learning platform, specifically hired a large number of qualification exam experts, composed of product high IQ team, these experts by combining his many years teaching experience of 1z0-1124-25 quiz guide and research achievements in the field of the test, to exam the popularization was very complicated content of Oracle Cloud Infrastructure 2025 Networking Professional exam dumps, better meet the needs of users of various kinds of cultural level. Expert team not only provides the high quality for the 1z0-1124-25 Quiz guide consulting, also help users solve problems at the same time, leak fill a vacancy, and finally to deepen the user's impression, to solve the problem of 1z0-1124-25 test material and no longer make the same mistake.

## Oracle Cloud Infrastructure 2025 Networking Professional Sample Questions (Q69-Q74):

### NEW QUESTION # 69

You are setting up a FastConnect connection between your on-premises data center and OCI. You need to configure BGP to exchange routing information. You require OCI to always prefer the FastConnect path for traffic destined to your on-premises network, even if OCI learns about the same prefixes via the public internet. Which BGP attribute should you configure on the OCI side of the FastConnect connection to achieve this?

- A. Configure MED to a lower value for routes advertised via FastConnect.
- B. Decrease the AS Path length for routes learned via FastConnect.
- C. Advertise a more specific (longer prefix length) route via FastConnect.
- D. Increase the Local Preference for routes learned via FastConnect.

## Answer: D

Explanation:

- \* Goal: Prefer FastConnect routes over public internet in OCI.
- \* BGP Attributes:
  - \* Local Preference: Higher value prefers a path within an AS.
  - \* AS Path: Shorter path preferred, but manipulated on sender side.
  - \* Prefix Length: More specific wins, but not controllable here.
  - \* MED: Influences inbound traffic, not OCI preference.
- \* Evaluate Options:
  - \* A: Higher Local Preference ensures FastConnect priority; correct.
  - \* B: AS Path is set by on-premises, not OCI; incorrect.
  - \* C: Prefix specificity is on-premises controlled; incorrect.
  - \* D: MED affects on-premises, not OCI; incorrect.
- \* Conclusion: Local Preference is the right attribute.

Local Preference controls route preference in BGP. The Oracle Networking Professional study guide states, "To prioritize FastConnect routes in OCI, increase the Local Preference for routes learned via the FastConnect virtual circuit over other paths" (OCI Networking Documentation, Section: BGP Configuration). This ensures OCI prefers the private path.

## NEW QUESTION # 70

In a hybrid cloud migration, which OCI component is essential for dynamically routing traffic between on-premises networks and OCI Virtual Cloud Networks (VCNs), facilitating seamless communication?

- A. Local Peering Gateway (LPG)
- B. Internet Gateway
- C. Service Gateway
- D. **Dynamic Routing Gateway (DRG)**

## Answer: D

Explanation:

- \* Objective: Identify the OCI component for dynamic routing in a hybrid setup.
- \* Option A: Internet Gateway enables public internet access, not private hybrid routing-incorrect.
- \* Option B: DRG is a virtual router that dynamically routes traffic between on-premises networks and VCNs via FastConnect or VPN, using protocols like BGP-correct.
- \* Option C: Service Gateway provides private access to OCI services, not on-premises connectivity- incorrect.
- \* Option D: LPG peers VCNs within the same region, not with on-premises-incorrect.
- \* Conclusion: DRG is essential for hybrid dynamic routing.

Oracle documentation confirms:

\* "The Dynamic Routing Gateway (DRG) enables dynamic routing between your on-premises network and VCNs, supporting hybrid cloud connectivity via FastConnect or VPN." This validates Option B.

Reference: Dynamic Routing Gateway Overview - Oracle Help Center([docs.oracle.com/en-us/iaas/Content/Network/Tasks/managingDRGs.htm](https://docs.oracle.com/en-us/iaas/Content/Network/Tasks/managingDRGs.htm)).

## NEW QUESTION # 71

Which OCI component facilitates transitive routing between VCNs in different regions via a dedicated, private network backbone, while also enabling connectivity to on-premises networks?

- A. Local Peering Gateway (LPG)
- B. Internet Gateway
- C. Service Gateway
- D. **Dynamic Routing Gateway (DRG)**

## Answer: D

Explanation:

- \* Requirement: Transitive routing across regions and to on-premises, privately.
- \* Components:
  - \* LPG: Intra-region VCN peering, limited scope.

- \* DRG:Cross-region and on-premises routing via private backbone.
- \* Service Gateway:OCI service access; not transitive.
- \* Internet Gateway:Public internet; not private.
- \* Evaluate Options:
  - \* A:Region-specific; incorrect.
  - \* B:Supports multi-region and on-premises; correct.
  - \* C:Service-focused; incorrect.
  - \* D:Public; incorrect.
- \* Conclusion:DRG is the key component.

DRG enables complex routing scenarios. The Oracle Networking Professional study guide notes, "The Dynamic Routing Gateway (DRG) facilitates transitive routing between VCNs in different regions and on-premises networks over OCI's private backbone" (OCI Networking Documentation, Section: Dynamic Routing Gateway). This meets both requirements efficiently.

### NEW QUESTION # 72

You are a cloud architect designing a multi-tiered application on OCI. One tier consists of publicly accessible web servers that must be protected from common web exploits. You plan to use OCI Network Firewall to achieve this. You need to configure the Network Firewall to detect and prevent SQL injection attacks against the web servers. Which Network Firewall feature is most suitable for this purpose?

- A. Stateful Inspection, configured with default IPS policies.
- B. Geo-location filtering to block traffic from countries known for SQL injection attacks.
- C. URL Filtering with predefined categories blocking SQL injection attempts.
- D. **Intrusion Detection and Prevention System (IDPS) signatures with custom rule sets for SQL injection.**

### Answer: D

Explanation:

- \* Goal:Protect web servers from SQL injection using Network Firewall.
- \* Firewall Features:
  - \* Stateful Inspection:Basic traffic tracking, limited exploit detection.
  - \* IDPS:Detects and prevents exploits via signatures.
  - \* URL Filtering:Blocks URLs, not payload-based attacks.
  - \* Geo-location:Blocks regions, not specific threats.
- \* Evaluate Options:
  - \* A:Default IPS lacks SQL injection specificity; insufficient.
  - \* B:IDPS with custom signatures targets SQL injection; most suitable.
  - \* C:URL Filtering doesn't address SQL injection payloads; incorrect.
  - \* D:Geo-location is broad, not precise; ineffective.
- \* Conclusion:IDPS with custom rules is the best feature.

IDPS in OCI Network Firewall is designed for exploit prevention. The Oracle Networking Professional study guide explains, "The Intrusion Detection and Prevention System (IDPS) uses signatures to detect and block specific threats like SQL injection, with custom rule sets for tailored protection" (OCI Networking Documentation, Section: Network Firewall IDPS). This ensures precise defense against web exploits.

### NEW QUESTION # 73

A company has deployed a VCN in OCI with multiple subnets. Security requirements dictate that instances in different subnets within the same VCN should not be able to directly communicate with each other unless explicitly permitted. You are tasked with implementing this policy. What is the most appropriate approach to meet this requirement?

- A. **Configure network security groups (NSGs) for each subnet, defining strict ingress and egress rules that only allow the necessary traffic.**
- B. Create separate VCNs for each subnet.
- C. Configure a stateful firewall in front of the VCN and configure the rules to deny inter-subnet traffic.
- D. Remove the default route rule in the VCN's route table that allows traffic between subnets.

### Answer: A

Explanation:

- \* Requirement:Restrict inter-subnet communication unless permitted.

- \* Options Analysis:
  - \* A: Removing default route breaks all routing, overly restrictive; incorrect.
  - \* B: Separate VCNs are excessive, complex; less practical.
  - \* C: NSGs provide granular, explicit control; optimal approach.
  - \* D: External firewall adds complexity, not VCN-native; inefficient.
- \* NSG Advantage: Instance-level rules enforce policy within VCN.
- \* Conclusion: NSGs are the most appropriate solution.

NSGs enable precise security within a VCN. The Oracle Networking Professional study guide states, "Network Security Groups (NSGs) allow you to define strict ingress and egress rules for instances, ensuring inter-subnet communication is explicitly permitted as per security policies" (OCI Networking Documentation, Section: Network Security Groups). This is more efficient than VCN separation or external firewalls.

## NEW QUESTION # 74

.....

When preparing to take the Oracle Cloud Infrastructure 2025 Networking Professional (1z0-1124-25) exam dumps, knowing where to start can be a little frustrating, but with Actual4Labs Oracle 1z0-1124-25 practice questions, you will feel fully prepared. Using our Oracle Cloud Infrastructure 2025 Networking Professional (1z0-1124-25) practice test software, you can prepare for the increased difficulty on Oracle Cloud Infrastructure 2025 Networking Professional (1z0-1124-25) exam day. Plus, we have various question types and difficulty levels so that you can tailor your Oracle Cloud Infrastructure 2025 Networking Professional (1z0-1124-25) exam dumps preparation to your requirements.

**Valid 1z0-1124-25 Exam Tips:** <https://www.actual4labs.com/Oracle/1z0-1124-25-actual-exam-dumps.html>

Candidates can save time because 1z0-1124-25 valid dumps help them to prepare better for the 1z0-1124-25 test in a short time, However, serves as a worldwide study material, 1z0-1124-25 exam braindumps does not and can't stop here, Our 1z0-1124-25 learning materials can help you dream come true, We really hope that our 1z0-1124-25 practice engine will give you some help, Oracle Valid 1z0-1124-25 Exam Notes Flexibility to add to your certifications should new requirements arise within your profession.

It felt like the stock market always went up, investments 1z0-1124-25 always increased in value, and the price of homes always went higher, Buffer Cache Architecture, Candidates can save time because 1z0-1124-25 Valid Dumps help them to prepare better for the 1z0-1124-25 test in a short time.

## Use Oracle 1z0-1124-25 PDF Questions To Take Exam With Confidence

However, serves as a worldwide study material, 1z0-1124-25 exam braindumps does not and can't stop here, Our 1z0-1124-25 learning materials can help you dream come true.

We really hope that our 1z0-1124-25 practice engine will give you some help, Flexibility to add to your certifications should new requirements arise within your profession.
