You will find it easy to adjust to this new thing and get complete support from the International Code Council M2 exam questions and practice exams for the International Code Council M2 certification exam.

International Code Council Commercial Mechanical Inspector Sample Questions (Q18-Q23):

NEW QUESTION # 18

What is the maximum distance allowed below the design flood elevation from which ventilation may be obtained?

- A. 6 inches
- B. 0 inches
- C. 2 feet
- **D. 1 foot**

Answer: D

Explanation:

This question appears to contain a wording issue. In ICC flood-related provisions tied to ventilation/flood openings, the governing limit is that the opening location is not more than 1 foot relative to the reference grade condition used for flood-opening compliance. That corresponds to 1 foot, so Option C is the best-supported answer.

NEW QUESTION # 19

What type of cooking appliance is required to have its own independent hood and exhaust system?

- A. Medium-duty
- **B. Extra-heavy-duty**
- C. Light-duty
- D. Heavy-duty

Answer: B

Explanation:

The IMC specifically provides that Type I hoods used over extra-heavy-duty cooking appliances shall not cover other appliances requiring fire-extinguishing protection and shall discharge to an independent exhaust system. Therefore, D is correct.

NEW QUESTION # 20

When testing dampers located in corridors, the dampers shall demonstrate acceptable closure performance when subjected to _____ fpm velocity across the face of the damper using the UL 555 fire exposure test.

- A. 0
- **B. 1**
- C. 2
- D. 3

Answer: B

Explanation:

Corridor damper testing under the referenced standard requires acceptable closure performance at 150 fpm across the face of the damper. Therefore Option C is correct.

NEW QUESTION # 21

Solid-fuel cooking equipment:

- A. is permitted to be installed under Type II noncanopy-type hoods.
- B. is permitted to be installed under Type II canopy-type hoods.
- C. is permitted to be installed under common canopy-type hoods with other cooking equipment.
- **D. shall be vented through a separate hood and exhaust system**

Answer: D

Explanation:

Solid-fuel cooking equipment requires a separate hood and exhaust system. It is not permitted to share the same hood/exhaust arrangement in the manner suggested by the other choices. This is a standard commercial kitchen exhaust requirement because of the added fire and residue hazards associated with solid-fuel appliances.

NEW QUESTION # 22

Exhibit:

What hp is EF-2?

- A. 0
- B. 1.5
- C. 1/2
- D. 1

Answer: B

Explanation:

Based on the equipment schedule shown in the exhibit, EF-2 is listed with a motor size of 1.5 horsepower . Therefore, the correct answer is C .

NEW QUESTION # 23

.....

For purchasing the M2 study guide, the candidates may have the concern of the safety of the websites, we provide you a safety network environment for you. We have occupied in this business for years, and the website and the M2 Study Guide of our company is of good reputation. We also have professionals offer you the guide and advice.
