Mule-Dev-201 Free Exam | Mule-Dev-201 Accurate Test

Beware that the sections of the exam change from time to time. Therefore, be alert by checking the updates frequently. It will prevent you from wasting time, material expenses, and inner peace. DumpStillValid has another special deal as well. It will provide you with the Salesforce Mule-Dev-201 Dumps latest updates until 365 days after purchasing the Mule-Dev-201 exam questions.

Salesforce Certified MuleSoft Developer Sample Questions (Q149-Q154):

NEW QUESTION # 149

Refer to the exhibit.

In the execution of the Scatter-Gather, the "steep 1 sec" Flow Reference takes about 1 second to complete, and the "sleep 5 sees" Row Reference takes about 5 seconds to complete.

About how many seconds does it take from the time the Scatter-Gather is called until the Set Payload transformer is called?

- A. 0
- **B. 1**
- C. 2
- D. 3

Answer: B

NEW QUESTION # 150

Refer to the exhibits.

A JSON payload is set in the Set Payload transformer.

What is logged by the Logger?

- A. "Object"
- B. "JSON"
- C. "String"
- **D. "Array"**

Answer: D

NEW QUESTION # 151

Refer to the exhibits.

In the Choice router, the When expression for the domesticShipping route is set to "[payload = 'FR']". What is logged after the Choice router completes?

- **A. A DataWeave syntax error**
- B. The result of the internationalShipping flow
- C. The result of the domesticShipping flow
- D. A string with value "FR"

Answer: A

NEW QUESTION # 152

Refer to the exhibits.

What payload and variable are logged at the end of the main flow?

- A. [Req5Req10,Req15Req20, 5]
- **B. [[5, 10, 15, 20], 5]**
- C. [[5, 10, 15, 20], 1]
- D. [[Req5, Req10, Req15, Req20], 5]

Answer: B

Explanation:

Correct answer is [[5, 10, 15, 20], 5]

Key thing to note here is that any changes made to payload in for each loop are not available outside for each scope where as variable value updated in for each loop is visible out side for each loop too.

In this example , sequence can be described as follows

1) Payload is set to the value [5, 10, 15, 20]

2) Variable is set to the value of 1

3) For each loop is executed four times and in each loop payload value is updated to append "Req" and variable is count is increased by 1

4) Once control comes out of for each , payload changes made within for each are not visible. Hence payload at this point of time is equal to payload available before entering for each loop which was [5, 10, 15, 20].

Similarly variable value updated in for each loop is also available outside hence variable value is 5 as it was updated in loop.

5) Hence correct answer is [[5, 10, 15, 20], 5]

For Each Scope

The For Each scope splits a payload into elements and processes them one by one through the components that you place in the scope. It is similar to a for-each/for loop code block in most programming languages and can process any collection, including lists and arrays. The collection can be any supported content type, such as application/json, application/java, or application/xml.

General considerations about the For Each scope:

By default, For Each tries to split the payload. If the payload is a simple Java collection, the For Each scope can split it without any configuration. The payload inside the For Each scope is each of the split elements.

Attributes within the original message are ignored because they are related to the entire message.

For Each does not modify the current payload. The output payload is the same as the input.

For non-Java collections, such as XML or JSON, use a DataWeave expression to split data. Use the Collection field for this purpose.

NEW QUESTION # 153

Refer to the exhibit. What is the output of logger component?

□

- A. String
- B. Map
- C. Object
- **D. Array**

Answer: D

Explanation:

Database always return rows as an array.

Array is the correct answer

NEW QUESTION # 154

.....

In recent years, the market has been plagued by the proliferation of learning products on qualifying examinations, so it is extremely difficult to find and select our Mule-Dev-201 study materials in many similar products. However, we believe that with the excellent quality and good reputation of our study materials, we will be able to let users select us in many products. Our study materials allow users to use the Mule-Dev-201 research material for free to help users better understand our products better. Even if you find that part of it is not for you, you can still choose other types of learning materials in our study materials.
