**Answer: B**

### NEW QUESTION # 53

A customer has purchased Cortex XSOAR and has a need to rapidly stand up the product in their environment. The customer has stated that their internal staff are currently occupied with other projects.

Which Palo Alto Networks service offering should be recommended to the customer?

- A. Onboarding
- **B. QuickStart**
- C. Fast-Track
- D. Deployment

**Answer: B**

Explanation:

The QuickStart service offering is designed for customers who need to rapidly deploy a solution like Cortex XSOAR. It provides a streamlined process for setting up the product, which is ideal for customers who have limited availability of internal resources due to other projects. QuickStart allows for a faster and more efficient implementation.
