

Flexible CMMC-CCP Testing Engine - Latest CMMC-CCP Version

P.S. Free 2026 Cyber AB CMMC-CCP dumps are available on Google Drive shared by PrepAwayExam:
https://drive.google.com/open?id=1WgVsNvSLuu2wAstjZ-Q-UPZmD_PwSLU

The product we provide with you is compiled by professionals elaborately and boosts varied versions which aimed to help you learn the CMMC-CCP study materials by the method which is convenient for you. They check the update every day, and we can guarantee that you can get a free update service from the date of purchase. Once you have any questions and doubts about the Cyber AB exam questions we will provide you with our customer service before or after the sale, you can contact us if you have question or doubt about our exam materials and the professional personnel can help you solve your issue about using CMMC-CCP Study Materials.

Cyber AB CMMC-CCP Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• CMMC Ecosystem: This section of the exam measures the skills of consultants and compliance professionals and focuses on the different roles and responsibilities across the CMMC ecosystem. Candidates must understand the functions of entities such as the Department of Defense, CMMC-AB, Organizations Seeking Certification, Registered Practitioners, and Certified CMMC Professionals, as well as how the ecosystem supports cybersecurity standards and certification.
Topic 2	<ul style="list-style-type: none">• CMMC Assessment Process (CAP): This section of the exam measures the planning and execution skills of audit and assessment professionals, covering the end-to-end CMMC Assessment Process. This includes planning, executing, documenting, reporting assessments, and managing Plans of Action and Milestones (POA&M) in alignment with DoD and CMMC-AB methodology.
Topic 3	<ul style="list-style-type: none">• CMMC Governance and Source Documents: This section of the exam measures the capabilities of legal or compliance advisors, covering key regulatory frameworks that govern cybersecurity compliance. Topics include Federal Contract Information, Controlled Unclassified Information, the role of NIST SP 800-171, DFARS, FAR, and the structure and requirements of CMMC v2.0, including self-assessments and certification levels.

Topic 4	<ul style="list-style-type: none"> • CMMC Model Construct and Implementation Evaluation: This section of the exam measures the evaluative skills of cybersecurity assessors, focusing on the application and assessment of the CMMC model. It includes understanding its levels, domains, practices, and implementation criteria, and how to assess whether organizations meet the required cybersecurity practices using evidence-based evaluation.
Topic 5	<ul style="list-style-type: none"> • CMMC-AB Code of Professional Conduct (Ethics): This section of the exam measures the integrity of cybersecurity professionals by evaluating their understanding of the CMMC-AB Code of Professional Conduct. It emphasizes ethical responsibilities, including confidentiality, objectivity, professionalism, conflict-of-interest avoidance, and respect for intellectual property, ensuring candidates can uphold ethical standards throughout their CMMC-related duties.

Latest CMMC-CCP Version, CMMC-CCP Exam Blueprint

The CMMC-CCP pdf dumps file is the most efficient and time-saving method of preparing for the Cyber AB CMMC-CCP exam. Cyber AB CMMC-CCP dumps pdf can be used at any time or place. You can use your pc, tablet, smartphone, or any other device to get CMMC-CCP PDF Question files. And price is affordable.

Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q192-Q197):

NEW QUESTION # 192

Which words summarize categories of data disposal described in the NIST SP 800-88 Revision 1. Guidelines for Media Sanitation?

- A. Clear, overwrite, purge
- B. Clear redact, destroy
- C. Clear, purge, destroy
- D. Clear, overwrite, destroy

Answer: C

NEW QUESTION # 193

An Assessment Team is conducting a Level 2 Assessment at the request of an OSC. The team has begun to score practices based on the evidence provided. At a MINIMUM what is required of the Assessment Team to determine if a practice is scored as MET?

- A. Complete one of the following: examine two artifacts, either observe a satisfactory demonstration of one control or receive one affirmation from the OSC personnel.
- B. Examine and accept evidence from one of the three evidence types.
- C. All three types of evidence are documented for every control.
- D. Complete two of the following: examine one artifact, either observe a satisfactory demonstration of one control or receive one affirmation from the OSC personnel.

Answer: D

Explanation:

This question pertains to the minimum evidence requirements needed by a CMMC Assessment Team to score a practice as MET during a Level 2 Assessment.

The CMMC Level 2 assessment must align with NIST SP 800-171 and follow the procedures outlined in the CMMC Assessment Process (CAP) Guide v1.0, particularly around evidence collection and scoring methodology.

#Step 1: Refer to the CMMC Assessment Process (CAP) Guide v1.0 CAP v1.0 - Section 3.5.4: Evaluate Evidence and Score Practices "To assign a MET determination, the Assessment Team must collect and corroborate at least two types of objective evidence: either through examination of artifacts, interviews (affirmation), or testing (demonstration)." This means at least two types of the following evidence are required:

Examine (documentation/artifacts),
Interview (affirmation from personnel),

Interview (affirmation from personnel),

Test(demonstration of implementation).

#Step 2: Clarify the Official Minimum Standard for a Practice to be Scored METThe CAP explicitly states:

"A practice can only be scored MET when a minimum of two types of evidence from the E-I-T (Examine, Interview, Test) triad are successfully collected and evaluated." The evidence types must come from two different categories, for example:

An artifact(Examine)+ an interview affirmation(Interview),

A demonstration(Test)+ an interview(Interview),

Etc.

This cross-validation ensures that the control is implemented, documented, and understood by personnel - a core principle in assessing effective cybersecurity implementation.

#Why the Other Options Are IncorrectA. All three types of evidence are documented for every control##Incorrect:While collecting all three types (E-I-T) strengthens the assessment, the minimum requirement is only two. Collecting all three is not required for a practice to be scored MET.

B). Examine and accept evidence from one of the three evidence types##Incorrect:This fails to meet the minimum two-evidence-type requirements set by the CAP. Single-source evidence is not sufficient to score a practice as MET.

C). Complete one of the following: examine two artifacts, observe one demonstration, or receive one affirmation##Incorrect:Even if two artifacts are examined, this is still only one type of evidence(Examine). The CAP requires two types- not two instances of the same type.

#Why D is CorrectD. Complete two of the following: examine one artifact, either observe a satisfactory demonstration of one control or receive one affirmation from the OSC personnel.

This directly reflects the CAP's requirement for collecting two different types of objective evidence to determine a practice is MET.

BLUF (Bottom Line Up Front):To score a CMMC Level 2 practice as MET, the Assessment Team must collect a minimum of two distinct types of evidence- from the Examine, Interview, Test (E-I-T) categories.

This requirement is clearly stated in the CMMC Assessment Process (CAP) v1.0.

NEW QUESTION # 194

A C3PAO has completed a Limited Practice Deficiency Correction Evaluation following an assessment of an OSC. The Lead Assessor has recommended moving deficiencies to a POA&M. but the OSC will remain on an Interim Certification. What is the MINIMUM number of practices that must be scored as MET to initiate this course of action?

- A. 100 practices
- B. 80 practices
- C. 110 practices
- D. 88 practices

Answer: A

Explanation:

The Limited Practice Deficiency Correction Evaluation process occurs when an Organization Seeking Certification (OSC) has undergone a CMMC Level 2 Assessment by a Certified Third-Party Assessment Organization (C3PAO) and has unresolved deficiencies in some security practices.

According to CMMC 2.0 policy and DFARS 252.204-7021, OSCs can still achieve Interim Certification if they meet the minimum threshold of security practices while addressing deficiencies through a Plan of Action & Milestones (POA&M).

* The CMMC 2.0 Interim Rule states that an OSC must meet at least 100 out of 110 practices to qualify for a POA&M-based remediation.

* A maximum of 10 practices can be listed in the POA&M for later correction.

* Failure to meet at least 100 practices results in failing the assessment outright, requiring a full reassessment after remediation.

* The Lead Assessor can recommend POA&M placement only if the OSC meets at least 100 practices.

* Less than 100 practices scored as MET means the OSC does not qualify for a POA&M and must retest completely.

* DFARS 252.204-7021 and CMMC 2.0 policies confirm the 100-practice threshold for conditional certification.

* A. 80 practices (Incorrect)- Falls well below the 100-practice requirement.

* B. 88 practices (Incorrect)- Still below the POA&M eligibility threshold.

* D. 110 practices (Incorrect)- While meeting 110 practices would be ideal, CMMC allows a POA&M option at 100 practices.

* The correct answer is C. 100 practices, as this meets the minimum threshold for POA&M-based Interim Certification.

NEW QUESTION # 195

The results package for a Level 2 Assessment is being submitted. What MUST a Final Report. CMMC Assessment Results include?

- A. Gaps or deltas due to any reciprocity model are recorded as met
- **B. Affirmation for each practice or control**
- C. Documented rationale for each failed practice
- D. Suggested improvements for each failed practice

Answer: B

NEW QUESTION # 196

Which NIST SP defines the Assessment Procedure leveraged by the CMMC?

- A. NISTSP800-53a
- **B. NISTSP800-171a**
- C. NIST SP 800-53
- D. NIST SP 800-171

Answer: B

Explanation:

Which NIST SP Defines the Assessment Procedures for CMMC?CMMC Level 2 is directly based on NIST SP 800-171, and the assessment procedures used in CMMC assessments are derived from NIST SP 800-171A.

Step-by-Step Breakdown:#1. NIST SP 800-171A Defines Assessment Procedures

* NIST SP 800-171A is titled "Assessing Security Requirements for Controlled Unclassified Information (CUI)".

* It provides detailed assessment objectives and test procedures for evaluating compliance with NIST SP 800-171 security requirements, which CMMC Level 2 is fully aligned with.

* CMMC Assessors use 800-171A as a baseline for assessing the effectiveness of security controls.

#2. Why the Other Answer Choices Are Incorrect:

* (A) NIST SP 800-53#

* 800-53 defines security controls for federal information systems, but it does not provide assessment procedures specific to CMMC.

* (B) NIST SP 800-53A#

* 800-53A provides assessment procedures for 800-53 controls, but CMMC is based on NIST SP 800-171, not 800-53.

* (C) NIST SP 800-171#

* 800-171 defines security requirements, but it does not provide assessment procedures.

The assessment procedures are in 800-171A.

* The CMMC Assessment Guide (Level 2) explicitly states that assessment procedures are derived from NIST SP 800-171A.

Final Validation from CMMC Documentation: Thus, the correct answer is:

NEW QUESTION # 197

.....

It is a common sense that only high quality and accuracy CMMC-CCP training prep can relieve you from those worries. It is our communal wish to reap successful fruits. So our company did a lot to make sure that happen. Our CMMC-CCP learning quiz compiled by the most professional experts can offer you with high quality and accuracy results for your success. And we can claim that if you study with our CMMC-CCP Exam Braindumps for 20 to 30 hours, you will pass the exam for sure.
