Exam H19-341_V1.0 Torrent & H19-341_V1.0 Exam Certification

HCSA-Field-Intelligent Collaboration V1.0 (H19-341_V1.0) prep material there is. The 3 kinds of Huawei H19-341_V1.0 preparation formats ensure that there are no lacking points in a student when he attempts the actual H19-341_V1.0 exam. The HCSA-Field-Intelligent Collaboration V1.0 (H19-341_V1.0) exam registration fee varies between 100\$ and 1000\$, and a

candidate cannot risk wasting his time and money, thus we ensure your success if you study from the updated Huawei H19-341_V1.0 practice material. We offer the demo version of the actual HCSA-Field-Intelligent Collaboration V1.0 (H19-341_V1.0) questions so that you may confirm the validity of the product before actually buying it, preventing any sort of regret.

Huawei HCSA-Field-Intelligent Collaboration V1.0 Sample Questions (Q17-Q22):

NEW QUESTION # 17

Huawei CloudLink soft client can run on Windows, iOS, HarmonyOS, and Android operating systems.

- A. TRUE
- B. FALSE

Answer: A

Explanation:

The Huawei CloudLink soft client (available as CloudLink Desktop and CloudLink Mobile) is designed for cross-platform collaboration. It supports a wide range of operating systems to ensure a seamless "anywhere" office experience:

* Windows: For PC and laptop users.

* iOS/macOS: For Apple mobile devices and computers.

* Android: For a vast range of mobile devices.

* HarmonyOS: Specifically optimized for Huawei's ecosystem of smartphones and tablets.

This multi-OS support allows users to join video conferences, share content, and use IM (Instant Messaging) features across different hardware.

NEW QUESTION # 18

How many high-definition video input ports does the Huawei Box 310 have?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: D

Explanation:

The Huawei CloudLink Box 310 is a next-generation Ultra-HD video conferencing terminal. It is designed with a specific set of physical ports to accommodate various meeting room setups:

* 2 x HDMI Input Ports: Typically used for one camera input and one presentation/content sharing input.

* 1 x HT-RX Port: This is a specialized all-in-one port that supports video transmission (up to 4K), camera control, and power supply over a single cable (up to 100 meters).

In total, the Box 310 provides 3 high-definition video input ports. Note that while the HT-RX and one of the HDMI ports are often used for the primary camera, they are physically distinct ports on the hardware chassis.

NEW QUESTION # 19

Which one is not the feature of the Huawei digital classroom solution?

- A. Whiteboard/Green-colored blackboard: Writing using only chalks is supported, and the content can be synchronized to the IdeaHub.
- B. Keep traditional method: Teachers can write on the digital whiteboard as easily as they write on a traditional blackboard.
- C. Blackboard content saving: Teachers and students can save blackboard content effortlessly by scanning a QR code.
- D. Digitalized blackboard content: The content on the blackboard can be automatically synchronized to the IdeaHub.

Answer: A

Explanation:

In the Huawei Digital Classroom Solution, the "not correct" feature is Option A.

* The Reality: While the solution includes a Digital Blackboard (an electronic companion to the IdeaHub) that supports chalk and synchronization, a standard "Green-colored blackboard" is an analog surface. If a teacher uses only chalks on a traditional green

board, there is no electronic sensor to capture and synchronize that data to the IdeaHub. Synchronization requires the Electronic Blackboard hardware. Options B, C, and D are all core features highlighting the interactive and digitizing capabilities of the smart classroom environment.

NEW QUESTION # 20

In the Huawei CloudRSE management system, which of the following permissions does the Media Administrator NOT have?

- **A. User management**
- B. Video download
- C. Video watching
- D. Recording management

Answer: A

Explanation:

Huawei CloudRSE (Recording & Streaming Engine) uses Role-Based Access Control (RBAC). The roles are strictly defined:

* System Administrator: Responsible for system-level settings, network configurations, and User Management (creating accounts and assigning roles).

* Media Administrator: Responsible for managing the content. This includes Recording management (deleting or moving files), setting permissions for Video watching, and authorizing Video downloads.

Because User Management is a system-level administrative task, it is restricted to the System Administrator role to ensure security and centralize account control.

NEW QUESTION # 21

Which multimedia communication protocols does the Huawei Bar 310 support? (Select all that apply)

- **A. BFCP**
- **B. H.323**
- **C. SIP**
- **D. H.239**

Answer: A,B,C,D

Explanation:

The Huawei CloudLink Bar 310 is an industry-standard terminal designed for maximum interoperability. It supports the two primary signaling protocols: H.323 (B) and SIP (D).

To facilitate content sharing (dual-stream) during a call, it supports the corresponding data protocols for each signaling type:

* H.239 (A): The standard for dual-streaming within H.323 calls.

* BFCP (C): The Binary Floor Control Protocol used for dual-streaming within SIP calls.

This ensures the Bar 310 can share presentations and video simultaneously regardless of the infrastructure it is connected to.

NEW QUESTION # 22

.....

This is the H19-341_V1.0 PDF format which contains real H19-341_V1.0 exam questions. You can print it and make a hard copy of this PDF file as well which helps you to prepare on the go. It comes in handy format and helps you prepare well with updated HCSA-Field-Intelligent Collaboration V1.0 exam questions. Moreover, this PDF has questions that are according to the present content of the test. This PDF format helps you to enhance your understanding of each topic which you need to self-evaluate to boost your Huawei H19-341_V1.0 Exam Score.
