You will receive an email attached with VMCE\_v12 exam study guide within 5-10 min after you pay. It means that you do not need to wait too long to get the dumps you want. Besides, you will have free access to the updated Veeam VMCE\_v12 study material for one year. If there is any update, our system will send the update VMCE\_v12 Test Torrent to your payment email automatically. Please pay attention to your payment email for the latest Veeam VMCE\_v12 exam dumps. If there is no any email about the update, please check your spam.

### Veeam VMCE\_v12 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• <b>Replication:</b> This section of the exam covers the description of use cases, architectures, and elements of replication jobs.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>Veeam Data Platform:</b> This section deals with the identification and description of the goal of each major product in the Veeam Data Platform.</li> </ul>

Topic 3	<ul style="list-style-type: none"> <li>• Scale-out Backup Repository: This section of the exam covers the description of the architecture, placement policies, and data tiers.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• Transport modes: This section aims to analyze different methods to collect and read data from the production environment.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Agent backup: This section of the exam covers the identification of protection groups for automating the installation of Veeam Agents.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• Enacting a recovery: This section is about getting practice in recovering various recoveries with diverse data.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• Backup data optimizations: This section covers the need for object storage to be backed up and the supported object storage solutions while utilizing repositories.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>• Core components: This section of the exam covers exploring the functionality of Veeam Backup &amp; Replication and system requirements.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>• Incident Response Planning: This section of the exam covers integrating Veeam Backup and Replication into the incident response strategy.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>• Recovery scenarios and features: This section covers the impact of various recovery procedures and choosing the most viable recovery technique.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>• Virtual machine backup: This section of the exam covers protecting the VMware and Hyper V to safeguard VMware that follows SLAs.</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>• Moving or copying backups: This section of the exam covers use cases for backup processes using VeeamMover.</li> </ul>
Topic 13	<ul style="list-style-type: none"> <li>• Risk scenarios: This section covers exploring various risk scenarios and identifying the type of risks we may face in the environment.</li> </ul>
Topic 14	<ul style="list-style-type: none"> <li>• Data protection strategies: This section of the exam covers an overview of data protection strategies.</li> </ul>
Topic 15	<ul style="list-style-type: none"> <li>• Veeam Backup Enterprise Manager: The section describes the use cases for Veeam Backup Enterprise Manager.</li> </ul>
Topic 16	<ul style="list-style-type: none"> <li>• Initial security considerations: This section defines ways and tools to secure the Veeam backup server.</li> </ul>
Topic 17	<ul style="list-style-type: none"> <li>• Verifying recoverability: This section of the exam covers the creation of automated tests to ensure recoverability from backups and replicas.</li> </ul>
Topic 18	<ul style="list-style-type: none"> <li>• Unstructured data backup: This section is about highlighting vital features required to protect unstructured data.</li> </ul>

## Valid Dumps VMCE\_v12 Sheet - VMCE\_v12 Reliable Exam Registration

As a result, it gives you a feeling of taking the actual test. The Veeam VMCE\_v12 desktop practice exam software runs on computers and laptops with a Windows operating system and it requires no internet. Since CertkingdomPDF always assists its customers, you can contact our team 24/7 to address your issues.

## Veeam Certified Engineer v12 Sample Questions (Q210-Q215):

### NEW QUESTION # 210

A Veeam administrator has been tasked to create a backup that will automatically make a copy of data on a different media type, while also being off site, without creating additional backup or backup copy jobs. The administrator has determined that a Scale-out Backup Repository can be used as part of the solution. How can this be accomplished?

- A. Add a capacity tier to the Scale-out Backup Repository and enable the "Move" option.
- **B. Add a capacity tier to the Scale-out Backup Repository and enable the "Copy" option.**
- C. Add an archive tier to the Scale-out Backup Repository and enable "GFS Tiering".
- D. Add an archive tier to the Scale-out Backup Repository and enable the "Copy" option.

**Answer: B**

Explanation:

By adding a capacity tier to the Scale-out Backup Repository and enabling the "Copy" option, the administrator can create a backup that automatically copies data to a different media type (object storage) and also ensures that the data is offsite. This is accomplished without creating additional backup or backup copy jobs. The "Copy" option allows for immediate copying of backups to the capacity tier, meeting the criteria specified.

### NEW QUESTION # 211

A number of VMs are running as interdependent applications. They need to fail over, one by one, as a group. What method should be used to do this?

- **A. Failover plan**
- B. Replication plan
- C. Replica failover
- D. Planned failover

**Answer: A**

Explanation:

To ensure VMs running interdependent applications fail over one by one, as a group, the method to use is D: Failover plan. In Veeam Backup & Replication, a failover plan allows for the orchestration of a group of replicas to fail over in a predefined sequence. This includes the capability to set up delays between starting each VM, which is crucial for interdependent applications that must be started in a specific order to function correctly. The failover plan ensures that dependencies among the group are respected and that the startup sequence follows the correct order, enabling a smooth and organized transition to the failover state.

### NEW QUESTION # 212

Which two service offerings can a Veeam Cloud Service Provider provide to Veeam's customers? (Choose two.)

- A. On premise tape
- **B. Backup as a Service**
- C. Physical site security as a Service
- D. Application Development as a Service
- **E. Disaster Recovery as a Service**

**Answer: B,E**

Explanation:

Veeam Cloud Service Providers (VCSPs) are equipped to offer a range of services designed to extend Veeam's data protection capabilities to the cloud, enhancing the flexibility and reliability of backup and disaster recovery strategies for Veeam's customers. The two service offerings that align with VCSP capabilities are:

A) Backup as a Service (BaaS) - This service allows Veeam customers to offload their on-premises backup operations to the cloud, leveraging cloud resources for storage and management of backups. BaaS simplifies backup processes, reduces the need for extensive on-premises infrastructure, and provides an added layer of data protection and accessibility.

E) Disaster Recovery as a Service (DRaaS) - DRaaS extends beyond basic backup services to offer a more comprehensive disaster recovery solution. It ensures not only the availability of backups but also the capability to rapidly restore and run critical workloads in the cloud in the event of a disaster, minimizing downtime and ensuring business continuity.

These services leverage the robust capabilities of Veeam Backup & Replication, tailored for cloud environments, to offer scalable, efficient, and secure data protection solutions.

#### NEW QUESTION # 213

Some VMware virtual machines must be restored from the most recent backup due to four different problems. For which problem can a Full VM Restore be completed using Quick Rollback?

- A. The virtual machine does not start after a host power outage.
- B. The virtual machine does not start after the datastore runs out of space.
- C. The virtual machine fails to start after it is migrated to a different VMware host in a different data center.
- **D. The virtual machine does not start after a software update fails inside the virtual machine.**

**Answer: D**

#### NEW QUESTION # 214

Which of the following services are installed on every Veeam backup proxy server? Choose two options.

- A. Veeam Backup Catalog Service
- B. Veeam Backup Service
- **C. Veeam Data Mover Service**
- D. Veeam Distribution Service
- **E. Veeam Installer Service**

**Answer: C,E**

Explanation:

Explanation

Refer to [https://helpcenter.veeam.com/docs/backup/vsphere/backup\\_proxy.html?ver=100](https://helpcenter.veeam.com/docs/backup/vsphere/backup_proxy.html?ver=100)

#### NEW QUESTION # 215

.....

We are one of the largest and the most professional dealer of VMCE\_v12 practice materials for we have been professional in this career for over ten years. And we have enough strength on this field. That is why our VMCE\_v12 actual exam outreaches others greatly among substantial suppliers of the exam. Getting place great orders with competitive prices and unquestionable quality for your information, the excellency of our VMCE\_v12 Exam Questions is obvious. Just come and buy them!
