P.S. Free & New GitHub-Copilot dumps are available on Google Drive shared by Exam4Docs: [https://drive.google.com/open?id=1\\_kqmlDRc6j2-Q8WKUXsBCnqKgf51Q7Y](https://drive.google.com/open?id=1_kqmlDRc6j2-Q8WKUXsBCnqKgf51Q7Y)

Our GitHub-Copilot exam questions have always been the authority of the area, known among the exam candidates for their high quality and accuracy. According to data collected by our workers who questioned former exam candidates, the passing rate of our GitHub-Copilot training engine is between 98 to 100 percent! It is nearly perfect. So it is undeniable that our GitHub-Copilot practice materials are useful and effective.

The system of GitHub-Copilot study materials is very smooth and you don't need to spend a lot of time installing it. We take into account all aspects on the GitHub-Copilot exam braindumps and save you as much time as possible. After the installation is complete, you can devote all of your time to studying GitHub-Copilot Exam Questions. And a lot of our worthy customers always praise the high-efficiency of our GitHub-Copilot learning guide. If you buy it, i guess you will love it as well.

**GitHub GitHub-Copilot Exam | GitHub-Copilot Practice Online - Authoritative Provider for GitHub-Copilot: GitHub Copilot Certification Exam Exam**

The GitHub-Copilot Exam is one of the best platforms that have been helping the GitHub GitHub-Copilot exam candidates in their preparation. Several GitHub GitHub-Copilot exam candidates have already passed their GitHub CopilotCertification Exam exam with good scores. They all used the Exams. GitHub-Copilot Exam Questions and got success in the final GitHub GitHub-Copilot exam easily.

## GitHub CopilotCertification Exam Sample Questions (Q47-Q52):

### NEW QUESTION # 47

What are two techniques that can be used to improve prompts to GitHub Copilot? (Select two.)

- A. Provide specific success criteria
- B. Provide insight on where to get the content from to get a response
- C. Provide links to supporting documentation
- D. Provide all information about the utilized files

**Answer: A,C**

Explanation:

Improving prompts involves providing specific success criteria and including links to supporting documentation to give GitHub Copilot more context and direction.

### NEW QUESTION # 48

Which of the following is a risk associated with using AI?

- A. AI eliminates the need for data privacy regulations.
- B. AI replaces the need for developer opportunities in most fields.
- C. AI algorithms are incapable of perpetuating existing biases.
- D. AI systems can sometimes make decisions that are difficult to interpret.

**Answer: D**

Explanation:

A risk associated with AI is that its decisions can be difficult to interpret, leading to a lack of transparency and potential misunderstandings.

### NEW QUESTION # 49

Identify the right use cases where GitHub Copilot Chat is most effective. (Each correct answer presents part of the solution. Choose two.)

- A. Creation of a unit test scenario for newly developed Python code
- B. Explain a legacy COBOL code and translate the code to another language like Python.
- C. Create a technical requirement specification from the business requirement documentation
- D. Creation of end-to-end performance testing scenarios for a web application

**Answer: A,B**

Explanation:

GitHub Copilot Chat is effective for explaining and translating legacy code and generating unit test scenarios for new code.

### NEW QUESTION # 50

What GitHub Copilot pricing plan gives you access to your company's knowledge bases?

- A. GitHub Copilot Individual
- B. GitHub Copilot Business
- C. GitHub Copilot Professional
- D. GitHub Copilot Enterprise

**Answer: D**

#### Explanation:

GitHub Copilot Enterprise provides access to your company's knowledge bases, enabling the tool to provide contextually relevant suggestions based on your organization's specific documentation and code.

#### NEW QUESTION # 51

In what way can GitHub Copilot and GitHub Copilot Chat aid developers in modernizing applications?

- A. GitHub Copilot can create and deploy full-stack applications based on a single query.
- B. GitHub Copilot can directly convert legacy applications into cloud-native architectures.
- **C. GitHub Copilot can suggest modern programming patterns based on your code.**
- D. GitHub Copilot can refactor applications to align with upcoming standards.

**Answer: C**

#### Explanation:

GitHub Copilot and GitHub Copilot Chat are powerful AI-driven tools designed to assist developers by providing context-aware code suggestions and interactive support. Specifically, in the context of modernizing applications, GitHub Copilot excels at analyzing existing code and suggesting modern programming patterns, best practices, and syntax improvements that align with contemporary development standards. For example, it can recommend updates to outdated constructs, propose more efficient algorithms, or suggest frameworks and libraries that are widely used in modern application development.

\* Why not A? GitHub Copilot does not "directly convert" legacy applications into cloud-native architectures. It can assist by suggesting code changes or patterns that support such a transition, but it doesn't autonomously perform the full conversion process, which involves architectural decisions and deployment steps beyond its scope.

\* Why not C? While GitHub Copilot can generate code snippets and even larger portions of an application, it cannot create and deploy full-stack applications from a single query. It requires developer input, refinement, and integration to achieve a complete, deployable solution.

\* Why not D? GitHub Copilot can assist with refactoring by suggesting improvements to existing code, but it doesn't inherently "align with upcoming standards" in a predictive sense. Its suggestions are based on current best practices and the data it was trained on, not future standards that are yet to be defined.

Thus, B is the most accurate and realistic way GitHub Copilot aids developers in modernizing applications, leveraging its ability to provide relevant, context-based suggestions to update and improve codebases.

#### NEW QUESTION # 52

.....

All these three Exam4Docs GitHub-Copilot exam questions formats contain valid, updated, and real GitHub Copilot Certification Exam exam questions. The GitHub GitHub-Copilot exam questions offered by the Exam4Docs will assist you in GitHub-Copilot Exam Preparation and boost your confidence to pass the final GitHub GitHub-Copilot exam easily.

**GitHub-Copilot Latest Test Testking:** <https://www.exam4docs.com/GitHub-Copilot-study-questions.html>

GitHub GitHub-Copilot Practice Online They never satisfy the current situation, GitHub GitHub-Copilot Practice Online Strict privacy protection, Our GitHub-Copilot preparation exam is consisted of a team of professional experts and technical staff, which means that you can trust our security system with whole-heart, This GitHub Copilot Certification Exam (GitHub-Copilot) study material is in the form of practice tests and GitHub-Copilot PDF that thoroughly covers the content of the test.

So to create use cases, you still need to sit down with expected users GitHub-Copilot of the system and do a thorough analysis of the functions they need from the new system, Learning the Groove Music App Window.

#### High Pass Rate GitHub Copilot Certification Exam Test Torrent is Convenient to Download - Exam4Docs

They never satisfy the current situation, Strict privacy protection, Our GitHub-Copilot Preparation exam is consisted of a team of professional experts and technical staff, which means that you can trust our security system with whole-heart.

This GitHub Copilot Certification Exam (GitHub-Copilot) study material is in the form of practice tests and GitHub-Copilot PDF that thoroughly covers the content of the test, The goal of GitHub GitHub-Copilot is to help our customers optimize their IT technology by providing convenient, high quality GitHub-Copilot exam prep training that they can rely on.
