---

## CASPO-001 Certified Agile Scrum Product Owner Practice Exam

1. Which of the following statements best reflects an Agile principle from the Agile Manifesto?

- A) Following a rigid plan no matter what
- B) Customer collaboration over contract negotiation
- C) Comprehensive documentation over working software
- D) Strict adherence to initial requirements

Answer: B

Explanation: The Agile Manifesto values customer collaboration over contract negotiation, emphasizing ongoing customer engagement and feedback.

2. What is the primary focus of Agile methodologies?

- A) Maximizing documentation
- B) Delivering value incrementally
- C) Minimizing team interactions
- D) Extending project timelines

Answer: B

Explanation: Agile methodologies focus on delivering value incrementally through iterative progress and continuous feedback.

3. Which of the following best describes Scrum within the Agile framework?

- A) A sequential process for project management
- B) A prescriptive methodology with fixed roles and events
- C) An iterative framework that includes roles, events, and artifacts
- D) A tool for creating Gantt charts

Answer: C

Explanation: Scrum is an iterative framework that defines specific roles, events, and artifacts to help teams work in short cycles.

4. What distinguishes Scrum from traditional project management approaches?

- A) Fixed scope and predetermined deadlines
- B) Emphasis on documentation over working software
- C) Incremental delivery and adaptive planning
- D) Centralized command and control

Answer: C

Explanation: Scrum emphasizes incremental delivery and adaptive planning, contrasting with the fixed scope and detailed upfront planning of traditional project management.

5. Which role is responsible for maximizing the value of the product in Scrum?

- A) Scrum Master
- B) Product Owner
- C) Development Team
- D) Project Manager

Answer: B

Explanation: The Product Owner is charged with maximizing the product's value by prioritizing work based on stakeholder and customer needs.

CASPO-001 Exam is designed to test the candidate's ability to lead and manage agile development teams, as well as their understanding of the product owner's role in the agile development process. CASPO-001 exam is intended for individuals who have experience working in agile development teams and are looking to take their skills to the next level.

The CASPO certification program is ideal for product owners, product managers, business analysts, and anyone involved in product development using Agile Scrum methodologies. Certified Agile Scrum Product Owner (CASPO) certification program is designed to help individuals gain a competitive edge in the job market, enhance their career prospects, and demonstrate their commitment to professional development. The CASPO certification program also provides access to a global community of Agile Scrum professionals, including networking opportunities, career resources, and ongoing education and training.

## Pass Guaranteed Quiz Latest GAQM - Exam CASPO-001 PDF

Our CASPO-001 practice dumps compiled by the most professional experts can offer you with high quality and accuracy practice materials for your success. Up to now, we have more than tens of thousands of customers around the world supporting our CASPO-001 Exam Questions. If you are unfamiliar with our CASPO-001 study materials, please download the free demos for your reference, and to some unlearned exam candidates, you can master necessities by our CASPO-001 training guide quickly.

### GAQM Certified Agile Scrum Product Owner (CASPO) Sample Questions (Q75-Q80):

#### NEW QUESTION # 75

What is typical work for a Product Owner in a Sprint? (Choose the best two answers)

- A. Collaborate with stakeholders, user communities, and product managers.
- B. Work with the Developers on Product Backlog refinement.
- C. Update the work plan for the Developers on a daily basis.
- D. Attend every Daily Scrum to answer functional questions on the discussed Sprint Backlog items.
- E. Create financial reporting upon the spent hours reported by the Developers.

**Answer: A,B**

Explanation:

The Scrum Guide outlines the Product Owner's responsibilities as maximizing value through Product Backlog management, which includes:

\* C: "Developing and explicitly communicating the Product Goal" and refining the Product Backlog with Developers to ensure clarity and readiness.

#### NEW QUESTION # 76

What two things best help the Product Owner manage the value of a product? (Choose the best two answers)

- A. The order of the Product Backlog.
- B. Devising a formula for a neutral calculation of value.
- C. Validating assumptions of value through frequent releases.
- D. Setting value on individual Product Backlog items using Value Poker.

**Answer: A,C**

Explanation:

The Product Owner maximizes value, per the Scrum Guide: "The Product Owner is accountable for maximizing the value of the product."

\* C: Ordering the Product Backlog by value ensures high-priority items are addressed first, a core responsibility: "Ordering Product Backlog items."

\* D: Frequent releases test assumptions empirically, aligning with Scrum's inspection and adaptation pillars.

\* A: Value Poker is a technique, not a fundamental principle, and isn't universally required.

#### NEW QUESTION # 77

When is a Sprint finished? (Choose the best answer)

- A. When the Definition of Done is met
- B. When the time-boxed duration is met
- C. When the work remaining is zero
- D. When the Product Owner accepts the Increment

**Answer: B**

Explanation:

A Sprint is a fixed-length, time-boxed event that ends when its duration expires, regardless of work completion. The Scrum Guide states: "Sprints are the heartbeat of Scrum, where ideas are turned into value.

They are fixed length events of one month or less to create consistency." The end is determined by the time-box, not by acceptance, quality standards, or task completion.

\* A: Product Owner acceptance occurs at Sprint Review, but doesn't define Sprint end.

\* B: The Definition of "Done" applies to the Increment, not the Sprint's duration.

\* C: Correct-the time-box dictates the end.

### NEW QUESTION # 78

If the Product Owner is not collaborating with the Developers during the Sprint, what should the Scrum Master do? (Choose the best answer)

- A. Escalate to senior management
- **B. Coach the Product Owner on the values and benefits of Scrum and incremental delivery**
- C. Cancel Scrum until a better Product Owner is identified

**Answer: B**

Explanation:

The Scrum Master serves the Product Owner by fostering Scrum adoption: "The Scrum Master serves the Product Owner in several ways, including... Helping find techniques for effective Product Goal definition and Product Backlog management." If collaboration is lacking, coaching (C) aligns with this role, emphasizing Scrum's collaborative nature and incremental value delivery.

\* A: Escalation bypasses the Scrum Master's responsibility to resolve issues.

### NEW QUESTION # 79

Which statement best describes the Sprint Backlog as an outcome of the Sprint Planning? (Choose the best answer)

- A. Each task is estimated in hours.
- **B. It is the Developers' plan for the Sprint.**
- C. Every item has a designated owner.
- D. It is ordered by the Product Owner.
- E. It is a complete list of all work to be done in a Sprint.

**Answer: B**

Explanation:

The Scrum Guide defines the Sprint Backlog as "a plan by and for the Developers" that includes selected Product Backlog items and a plan to deliver the Sprint Goal. Option C accurately reflects this ownership and purpose. Option A is too absolute-while it's a plan, it's not necessarily "complete" as it can evolve during the Sprint. Option B is incorrect-Scrum does not mandate hour-based estimates; estimation is up to the Developers' discretion. Option D is false-items don't require individual owners; the Developers collectively own the Sprint Backlog. Option E is wrong-the Product Owner orders the Product Backlog, not the Sprint Backlog, which is managed by the Developers. Thus, C is the best description.

### NEW QUESTION # 80

.....

The Itbraindumps is on a mission to support its users by providing all the related and updated Certified Agile Scrum Product Owner (CASPO) (CASPO-001) exam questions to enable them to hold the Certified Agile Scrum Product Owner (CASPO) (CASPO-001) certificate with prestige and distinction.
