## **Real CPC-CDE-RECERT Exam Dumps, 100% CPC-CDE-RECERT Accuracy**

We apply international recognition third party for payment for CPC-CDE-RECERT exam materials, therefore, if you choose us, your money safety will be guaranteed. The third party will guarantee your interests. Besides, CPC-CDE-RECERT exam materials of us is high-quality, they will help you pass the exam successfully. We also pass guarantee and money back guarantee if you fail to pass the exam. CPC-CDE-RECERT Exam Braindumps offer you free update for one year, and in the following year, you can know the latest information for the exam. The latest version for CPC-CDE-RECERT will be sent to your email automatically.

## **CyberArk CDE-CPC Recertification Sample Questions (Q73-Q78):**

### **NEW QUESTION # 73**

Before you can delete a Safe, you must first delete all of its content (accounts and files) permanently. What else must also be achieved before the Safe can be successfully deleted?

- **A. The version retention period has expired for all files.**
- B. The "Save account versions for a period of:" has been set to 0 within the Safe version retention settings.
- C. The associated CPM user has been removed from the Safe.
- D. The Safe owners have been removed from the Safe membership.

**Answer: A**

Explanation:

CyberArk states that a Safe can be deleted only after its contents are deleted permanently, and (critically) objects are only deleted permanently after their retention/versions retention has passed. In the Privilege Cloud Safe management documentation, it notes that accounts are deleted permanently only after their retention period has passed, which is why deletion can be blocked by "non-expired" objects.

The underlying Vault/PACLI behavior is also explicit: "It is only possible to delete a Safe after the version retention period has expired for all files contained in the Safe." So, beyond deleting the content, the version retention period must have expired for all files # B.

#### **NEW QUESTION # 74**

When calling the PSM Health Check Webservice to assess the state of a PSM node, which response code does a healthy node return?

- **A. 200 (OK)**
- B. 500 (OK)
- C. 404 (OK)
- D. 503 (OK)

**Answer: A**

Explanation:

CyberArk documents that the health check service returns HTTP 200 (OK) when the PSM service is healthy, and returns 503 (Service unavailable) when it is not healthy (in code-based behavior).

#### **NEW QUESTION # 75**

When creating a new Safe, if you select "Save account versions for a period of days" within Version Retention settings, what is the default number of days that password versions are saved?

- **A. 0**
- B. 1
- C. 2
- D. 3

**Answer: A**

Explanation:

In Privilege Cloud, each Safe controls its own retention policy for account/password objects. CyberArk documentation states that when retention is set by Number of days, the default retention is 7 days.

#### **NEW QUESTION # 76**

What is a requirement when installing the PSM on multiple Privileged Cloud Connector servers?

- **A. Each PSM must have the same path to the same recordings directory.**
- B. All PSMs in the environment must be configured to use load balancing.
- C. Additional Privilege Cloud Connector servers cannot have CPM installed.
- D. In-domain servers cannot be used when deploying multiple PSM servers.

**Answer: A**

Explanation:

When installing the Privileged Session Manager (PSM) on multiple servers, it is required that each PSM installation has the same

path to the same recordings directory. This is necessary to ensure that session recordings are stored consistently across different PSM instances, which is important for high availability and load balancing implementations, as well as for maintaining a unified audit trail.

:

CyberArk documentation on installing multiple PSM servers

### NEW QUESTION # 77

What is the default username for the PSM for SSH maintenance user?

- A. proxyusr
- B. psmp\_maintenance
- C. proxymng
- D. psmpmaintenanceuser

**Answer: C**

Explanation:

<https://docs.cyberark.com/pam-self-hosted/latest/en/content/pasimp/administrating-the-psmp.htm#Createamaintenanceuser>

### NEW QUESTION # 78

.....

If you are one of such frustrated candidates, don't get panic. TestKingIT declares its services in providing the real CPC-CDE-RECERT PDF Questions.
