

Certification NS0-528 Training - NS0-528 Latest Exam Papers

What's more, part of that ActualVCE NS0-528 dumps now are free: <https://drive.google.com/open?id=1SbMSgQoeBmW3a63foNSrj96MXTaohX>

We provide free update of our NS0-528 exam materials within one year and after one year the client can enjoy the 50% discounts. The old clients enjoy some certain discounts when they buy our NS0-528 exam torrent. Our experts check whether there is the update of the test bank every day and if there is an updated version of our NS0-528 learning guide, then the system will send it to the client automatically. And that is one of the reasons why our NS0-528 study materials are so popular for we give more favourable prices and more considerable service for our customers.

ActualVCE's braindumps provide you the gist of the entire syllabus in a specific set of questions and answers. These study questions are most likely to appear in the actual NS0-528 exam. The Certification exams are actually set randomly from the database of NS0-528. Thus most of the questions are repeated in exams and our experts after studying the previous exam have sorted out the most important questions and prepared dumps out of them. Hence NS0-528 Dumps are a special feast for all the exam takers and sure to bring them not only NS0-528 exam success but also maximum score.

NS0-528 Latest Exam Papers - NS0-528 Exam Dumps Pdf

It is of no exaggeration to say that sometimes NS0-528 certification is exactly a stepping-stone to success, especially when you are hunting for a job. The NS0-528 study materials are of great help in this sense. With the NS0-528 test training, you can both have the confidence and gumption to ask for better treatment. To earn such a material, you can spend some time to study our NS0-528 study torrent. No study can be done successfully without a specific goal and a powerful drive, and here to earn a better living by getting promotion is a good one.

Network Appliance NS0-528 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• NetApp ONTAP Core Data Protection Features: This section of the exam measures the skills of Systems Administrators and validates core knowledge of data protection and redundancy within the ONTAP environment. It encompasses understanding how data efficiencies impact protection strategies and the practical knowledge required to deploy these data protection solutions effectively in a hybrid cloud infrastructure.
Topic 2	<ul style="list-style-type: none">• Troubleshooting and Testing: This section of the exam measures the skills of Support Engineers and focuses on the practical skills needed to maintain data integrity. It involves troubleshooting common data protection configuration issues, executing well-defined Disaster Recovery (DR) procedures, and performing data restore operations to recover from data loss.

Topic 3	<ul style="list-style-type: none"> NetApp ONTAP Business Continuity Solutions: This section of the exam measures the skills of Disaster Recovery Specialists and covers advanced business continuity technologies. This includes the configuration and operation of SnapMirror active sync for continuous data replication and the execution of SVM-DR (Storage Virtual Machine Disaster Recovery) operations to ensure high availability.
Topic 4	<ul style="list-style-type: none"> NetApp Data Protection Software: This section of the exam measures the skills of DevOps Engineers and focuses on the deployment and administration of NetApp's proprietary data protection software. A key part of this domain involves applying these solutions to protect modern containerized applications running in Kubernetes environments.
Topic 5	<ul style="list-style-type: none"> Data Protection Solutions: This section of the exam measures the skills of Storage Architects and covers the foundational principles of designing data protection solutions. It focuses on creating comprehensive design documentation, understanding the various components involved, and identifying all critical solution dependencies to ensure a robust and reliable data protection strategy.

Network Appliance Implementation Engineer - Data Protection Exam Sample Questions (Q115-Q120):

NEW QUESTION # 115

You have set up a SnapMirror relationship between two SVMs for data protection. The data in the source volume is unavailable due to an event related to a virus infection leading to data corruption.

In this scenario, which three actions are required to activate the SnapMirror destination volume and provide data access to the users? (Choose three.)

- A. Perform a SnapMirror break operation.
- B. Configure the destination volume for data access.
- C. Disable the source volume by taking it offline.
- D. Perform a SnapMirror quiesce operation.
- E. Verify the status of the source and destination volumes.

Answer: A,B,E

NEW QUESTION # 116

You noticed that your SnapVault relationship is healthy but that the destination volume does not have any Snapshot copies. In this scenario, what should be performed to solve the problem?

- A. Configure a rule with the Snapshot label.
- B. Set up volume source free space.
- C. Set up volume destination free space.
- D. Use the snapvault update command.

Answer: D

NEW QUESTION # 117

You are at a customer site and assisting with testing a sudden site disaster scenario with their MetroCluster solution. All the equipment at the production site is suddenly powered off, and the command `metrocluster switchover -forced-on-disaster true` is issued. After the switchover to the disaster site is complete, the customer notices that one of their database applications is offline. All other data is accessible from the disaster site. You notice the following in the volume show output:

```
vserver volume in-nvfailed-state, state, total, used, type
vserver volume state total used type in-nvfailed-state
-----
SVM1-mc APP02_I ActualVCE 800 GB 785 GB RW true
```

What can you do to help bring the application online while in switchover?

- A. Reboot the NetApp nodes with the `-ignore-strict-sync-warnings true` option.
- B. Increase the available space using the `volume size` command.

- C. Modify the `-in-nvfailed-state` option using the volume modify command.
- D. Advise the customer to reboot their application server.

Answer: C

Explanation:

The `in-nvfailed-state: true` indicates that the volume is in Nonvolatile RAM (NVRAM) failed state, which happens when write operations could not be committed properly during a disaster event. This causes the volume to go into a read-only protected mode to avoid data corruption.

To restore access, you must manually override this state with:

`volume modify -vserver SVM1 -mc -volume APP02_DB -in-nvfailed-state false` This will bring the volume out of failed state and allow the database application to function again during the switchover.

NEW QUESTION # 118

What is the minimal interface requirement for a SnapMirror relationship between clusters?

- A. one cable directly connected to both clusters
- B. one intercluster LIF per node
- C. one data LIF per SVM
- D. one intercluster LIF per SVM

Answer: B

Explanation:

For a SnapMirror relationship to function properly, each node in a cluster must have at least one intercluster LIF. These LIFs are used exclusively for replication traffic and ensure that all nodes can participate in SnapMirror operations.

NEW QUESTION # 119

A volume on a FabricPool-enabled aggregate is consuming 10 TB of the performance tier and 90 TB of the cloud tier. A SnapMirror copy needs to be created on a FabricPool-enabled peer cluster at a disaster recovery location. In this scenario, how much data is transferred when the SnapMirror relationship is initialized?

- A. 200 TB
- B. 90 TB
- C. 100 TB
- D. 10 TB

Answer: C

NEW QUESTION # 120

.....

The ActualVCE has specially designed the Network Appliance NS0-528 desktop practice exam software for the self-assessment of the learned concepts. Our Network Appliance NS0-528 desktop practice exam software can be installed on all types of windows operating computers. This is Network Appliance NS0-528 practice exam for the applicant's practice that could be solved without internet access. The Network Appliance NS0-528 exam questions preparation products have been designed to provide ease to their customers in all aspects. Everybody can use our NS0-528 Exam Questions And Answers conveniently. We provide 365 days of free updates after the date of purchase so that you can get updated Network Appliance NS0-528 exam questions for the NS0-528 exam preparation. ActualVCE offers reliable Network Appliance NS0-528 exam questions and also provides a 30% exclusive discount on all Network Appliance exam questions. Use coupon code '30OFF' while purchasing Network Appliance NS0-528 exam questions preparation products.
