Box 2: Yes

Power BI Desktop includes a Report view, where you can create any number of report pages with visualizations.

Can you create reports in Power BI service?

In the navigation pane in the Power BI service, you can select the Create button that opens a page where you can select your data source. It's also accessible from the New report button on Home. Currently, we only support creating a report based on an existing dataset, or typing or pasting data directly in a table.

Box 3: No

Can you share Power BI desktop report with others?

Basic Sharing for Dashboards and Reports

You can simply click on the Share button in the dashboard or report, and then share it with other users. By default when you share a Power BI dashboard with this method, then the report and the data set will be shared as well.
