아직도 Salesforce Plat-Admn-301 인증시험을 어떻게 패스할지 고민하시고 계십니까? Itcertkr는 여러분이 Salesforce Plat-Admn-301덤프자료로 Salesforce Plat-Admn-301 인증시험에 응시하여 안전하게 자격증을 취득할 수 있도록 도와드립니다. Salesforce Plat-Admn-301 시험가이드를 사용해보지 않으실래요? Itcertkr는 여러분께 Salesforce Plat-Admn-301시험패스의 편리를 드릴 수 있다고 굳게 믿고 있습니다.

## Salesforce Plat-Admn-301 시험요강:

주제	소개
주제 1	<ul style="list-style-type: none"> <li>• Process Automation: This section of the exam measures skills of Salesforce Consultant and covers choosing the right automation tools to solve complex business problems. It focuses on understanding the capabilities and limitations of declarative tools, identifying the right troubleshooting methods, and applying automation correctly within Salesforce’s order of execution. This section emphasizes designing efficient, scalable automation using workflow tools, flows, and other declarative features.</li> </ul>

주제 2	<ul style="list-style-type: none"> <li>• <b>Data and Analytics Management:</b> This section of the exam measures skills of Salesforce Data Analyst and covers data quality assessment, data enrichment, and duplicate management. It explains how to choose appropriate reporting and analytics tools for advanced requirements, including custom report types, snapshots, formulas, joined reports, and dashboard configurations. It also covers methods for connecting external data sources using big objects, external objects, data warehouses, data lakes, and Salesforce Connect. Finally, it describes the suitable tools and methods for importing data, including Data Loader, Data Import Wizard, and external IDs.</li> </ul>
주제 3	<ul style="list-style-type: none"> <li>• <b>Environment Management and Deployment:</b> This section of the exam measures skills of Salesforce Administrator and covers moving metadata between environments using tools such as sandboxes, change sets, and managed or unmanaged AppExchange packages. It explains the capabilities and best practices related to deploying changes through change sets to ensure smooth and controlled migrations.</li> </ul>
주제 4	<ul style="list-style-type: none"> <li>• <b>Cloud Applications:</b> This section of the exam measures skills of Salesforce Consultant and covers the standard Salesforce capabilities that support sales and service operations. It includes features such as products, price books, schedules, orders, quotes, and the tools that help with forecasting and territory management. The section also describes how to create Salesforce Knowledge articles, manage entitlements, support service workflows, and enable interactions through chat, case feed, Omni-Channel, console apps, and Experience Cloud sites. It also introduces the broader Salesforce suite that extends core platform functionality.</li> </ul>
주제 5	<ul style="list-style-type: none"> <li>• <b>Auditing and Monitoring:</b> This section of the exam measures skills of a Salesforce Support Specialist and covers the tools used to monitor system behavior and review user activity. It includes understanding debug logs, setup audit trail, and methods for ensuring sensitive data is handled correctly in both production and sandbox environments. It also explains how to review and troubleshoot security settings, including recognizing pending updates that might affect system access.</li> </ul>

## Plat-Admn-301최신 인증시험 기출문제, Plat-Admn-301최신버전 덤프공부 문제

Plat-Admn-301인증시험패스는 쉬운 일은 아닙니다. 높은 전문지식은 필수입니다. 하지만 자신은 이 방면 지식이 없다면 Itcertkr가 도움을 드릴 수 있습니다. Itcertkr의 전문가들이 자기만의 지식과 지금까지의 경험으로 최고의 IT인종관련자료를 만들어 여러분들의 고민을 해결해드릴 수 있습니다. 우리는 최고의Plat-Admn-301인증시험문제와 답을 제공합니다. Itcertkr는 최선을 다하여 여러분이 한번에Plat-Admn-301인증시험을 패스하도록 도와드릴 것입니다. 여러분은 우리 Itcertkr 선택함으로 일석이조의 이익을 누릴 수 있습니다. 첫째는 관여지식은 아주 알차게 공부하실 수 있습니다.둘째는 바로 시험을 안전하게 한번에 통과하실 수 있다는 거죠.그리고 우리는 일년무료 업데이트서비스를 제공합니다.덤프가 업뎃이되면 우리는 모두 무료로 보내드립니다.만약 시험에서 실패한다면 우리 또한 덤프비용전액을 환불해 드립니다.

### 최신 Salesforce Administrator Plat-Admn-301 무료 샘플문제 (Q143-Q148):

#### 질문 # 143

An administrator wants to determine if brute-force password attacks are being used against the org. A brute-force attack is when multiple password combinations are attempted in a short time period.

Where should the administrator look for more information?

- A. Connected Apps OAuth Usage
- **B. Login Forensics**
- C. Event Manager
- D. User Field History Tracking

**정답: B**

**설명:**

Login Forensics is a Salesforce feature that allows you to monitor and analyze login behavior and trends in your org. It can help you

identify and prevent brute-force password attacks by showing you the number of login attempts, successes, and failures per user, location, and device. You can also set up alerts to notify you when a user exceeds a certain number of login failures or when a login originates from an unusual location or device. References: [https://help.salesforce.com/s/articleView?id=sf.security\\_loginforensics.htm&type=5](https://help.salesforce.com/s/articleView?id=sf.security_loginforensics.htm&type=5)  
[https://help.salesforce.com/s/articleView?id=sf.security\\_loginforensics\\_alerts.htm&type=5](https://help.salesforce.com/s/articleView?id=sf.security_loginforensics_alerts.htm&type=5)

#### 질문 # 144

What should an administrator do to keep secure fields protected in email templates'?

- **A. Use classic encrypted fields.**
- B. Set up an approval process for email alerts.
- C. Implement GDPR.
- D. Remove the fields from the email.

정답: A

#### 설명:

To ensure that secure fields remain protected in email templates, administrators should remove the fields from the email. Email templates can expose sensitive information if they contain fields with secure data. By excluding these fields, administrators can prevent unauthorized access to sensitive information through email communication.

\* Removing Secure Fields from Email Templates:

\* When creating or updating email templates, administrators should carefully assess the fields included and remove any that contain sensitive information, such as encrypted fields or fields that contain Personal Identifiable Information (PII).

\* This approach ensures that secure information is not unintentionally shared via email, aligning with best practices for data security and minimizing exposure risks.

\* Implications of Including Secure Data in Emails:

\* Secure fields, particularly those that contain sensitive or confidential information, should be restricted from emails to avoid potential data breaches.

\* Email communication often lacks the same security controls as the Salesforce platform, making it essential to limit the sharing of sensitive data.

Incorrect options:

\* Implement GDPR: While GDPR compliance ensures proper data handling practices, it does not directly prevent secure fields from being included in emails.

\* Set up an approval process for email alerts: An approval process can control the sending of email alerts but does not inherently protect secure fields within the email content.

\* Use classic encrypted fields: Encrypted fields add a layer of security for data at rest within Salesforce but do not provide specific protections for data included in email templates. Moreover, encrypted fields cannot be referenced in email templates.

In conclusion, the most effective way to ensure that secure fields are not exposed through email templates is to remove these fields from the template altogether, avoiding the inclusion of sensitive data in email communications.

Reference: As per Salesforce's best practices for handling secure data, email templates should avoid referencing secure fields to prevent unauthorized data exposure.

#### 질문 # 145

Ursa Major Solar allows accounts to apply for loans to purchase solar panels. Financial information will be stored in a custom object. Only finance team members should see the related financial information about the account.

What kind of field should the administrator create in the custom object?

- A. Hierarchical Relationship
- B. External Relationship
- C. Lookup Relationship
- **D. Master-Detail Relationship**

정답: D

#### 설명:

A lookup relationship is a type of field that links one object to another object. It allows you to access related data from another object and display it on a record page. A lookup relationship can be used to link the custom object that stores financial information to the Account object, so that only finance team members can see the related financial information about the account. References: <https://help.salesforce.com/s/articleView?id=sf>

relationships\_lookup.htm&type=5

#### 질문 # 146

users at Northern Trail Outfitters have a lot of fields on their new account records because they track their accounts and competitors on the Account object. For accounts created for customers, they need access to different fields than the accounts used to track competitors. For partner accounts, they need different values in the Industry field. What should the administrator use to resolve the issues?

- A. Flow Builder
- **B. Record Types**
- C. Required Fields
- D. Business Processes

정답: B

설명:

record types allow administrators to offer different business processes, picklist values, and page layouts to different users based on their profiles. By using record types for accounts and contacts at AW Computing, administrators can track their accounts and competitors on different record types with different fields on their page layouts. For partner accounts, they can also use record types to specify different values in the Industry picklist field. References: [https://help.salesforce.com/s/articleView?id=sf.customize\\_recordtype.htm&type=5](https://help.salesforce.com/s/articleView?id=sf.customize_recordtype.htm&type=5)

#### 질문 # 147

Users report that the industry picklist field is no longer visible on account records. What test can an administrator use to troubleshoot the issue?

- A. Field history tracking
- B. Field audit history
- C. Debug log
- **D. Setup audit trail**

정답: D

설명:

The setup audit trail tracks the recent setup changes that you and other administrators have made to your org. It can help you troubleshoot issues by showing you what changes were made, who made them, and when. In this case, the setup audit trail can help the administrator identify if someone changed the field-level security, page layout, or profile settings for the industry picklist field. References: <https://help.salesforce.com/s/articleView?id=sf.monitorsetup.htm&type=5>

#### 질문 # 148

.....

Itcertkr의 IT전문가들이 자신만의 경험과 끊임없는 노력으로 최고의 Salesforce Plat-Admn-301 학습자료를 작성해 여러분들이 Salesforce Plat-Admn-301 시험에서 패스하도록 최선을 다하고 있습니다. 덤프는 최신 시험문제를 커버하고 있어 시험패스율이 높습니다. Salesforce Plat-Admn-301 시험을 보기로 결심한 분은 가장 안전하고 가장 최신인 적중율 100%에 달하는 Salesforce Plat-Admn-301 시험대비 덤프를 Itcertkr에서 받을 수 있습니다.
