- A. Mortgage broker fraud
- B. Lending to foreign nationals
- C. Terrorist acts
- D. Appraisal fraud

Antwort: C

Begründung:

The USA PATRIOT Act was enacted in 2001 to help deter and punish terrorist acts in the United States and around the world, and to enhance law enforcement investigatory tools. It requires financial institutions to establish anti-money laundering programs and procedures to help prevent terrorist financing.

36. Frage

Which of the following actions by a mortgage loan originator is prohibited regarding credit secured by a dwelling?

- A. Presenting program options that best qualify and satisfy the consumer
- B. Providing a copy of the credit application to the primary borrower
- C. Providing disclosures within three days of an application
- D. Receiving compensation from both the borrower and the lender

Antwort: D

Begründung:

Mortgage loan originators (MLOs) are subject to strict rules regarding compensation to prevent conflicts of interest and protect consumers. According to the Truth in Lending Act (TILA) Regulation Z, Loan Originator Compensation Rule (12 CFR § 1026.36(d)), an MLO may not receive compensation from both the borrower and any other person (such as a creditor or lender) in a single transaction. This is often referred to as the "anti- dual compensation rule" and is designed to prevent situations where an MLO could be incentivized to steer consumers into less favorable loans for higher pay.

"A loan originator may not receive compensation directly or indirectly from both the consumer and another person in connection with the same transaction."

- 12 CFR § 1026.36(d)(2), Regulation Z, Truth in Lending Act

Other options are not prohibited and are actually required or encouraged by law:

B: Presenting best program options is part of an MLO's fiduciary and ethical duties.

C: Providing required disclosures (e.g., Loan Estimate) within three business days of application is required under TILA/RESPA Integrated Disclosure (TRID) rules.

D: Providing a copy of the credit application is permissible and often requested.

37. Frage

A borrower's monthly debt-to-income ratio is calculated by taking the:

- A. eligible total monthly debt obligations, including the monthly housing expense, divided by the borrower's gross monthly income.
- B. borrower's gross monthly housing expense divided by the principal, interest, and appraised value.
- C. eligible total monthly debt obligations for trade lines greater than 12 months multiplied by the borrower's net monthly income.
- D. eligible total monthly debt obligations excluding the monthly housing expense divided by the borrower's net monthly income

Antwort: A

Begründung:

The debt-to-income (DTI) ratio is a key metric used by lenders to assess a borrower's ability to manage monthly payments and repay a mortgage. It is calculated by dividing the borrower's total monthly debt obligations, including:

* Monthly housing expenses (principal, interest, taxes, and insurance, also known as PITI).

* Any other recurring debt obligations (car loans, student loans, credit card payments, etc.).

This total is divided by the borrower's gross monthly income (before taxes and deductions). This calculation helps determine whether the borrower meets lending standards, with most lenders preferring a DTI ratio below 43% for qualified mortgages.

38. Frage

Which of the following statements is true regarding a fixed-rate mortgage?

- A. The rate is fixed for 15 years and is followed by a single balloon payment.
- B. The rate is fixed for 10 years and then adjusts every year thereafter.
- **C. The rate is fixed for 30 years with no adjustment.**
- D. The rate is fixed for 5 years and is followed by a step-up for 5 years.

Antwort: C

Begründung:

A fixed-rate mortgage (FRM) is a mortgage loan where the interest rate remains constant for the entire term of the loan, regardless of changes in market interest rates. These loans typically come in terms of 15, 20, or 30 years, with 30-year fixed-rate mortgages being the most common in the U.S.

"A fixed-rate mortgage is one in which the interest rate remains the same for the entire term of the loan. The most common term is 30 years. This provides borrowers with a stable and predictable monthly payment over the life of the loan."

- SAFE Mortgage Loan Originator Test Prep Guide (NMLS-approved)

"Unlike adjustable-rate mortgages, fixed-rate mortgages do not change over time. The interest rate is locked in at the time of loan origination."

- U.S. Department of Housing and Urban Development (HUD), Mortgage Basics Guide The other options describe adjustable-rate mortgages (ARMs) or balloon mortgages, which are distinctly different products:

* Option A: Describes a type of step-rate mortgage, not a fixed-rate loan.

* Option B: Refers to a 10/1 ARM, not a fixed-rate mortgage.

* Option C: Refers to a balloon mortgage, where a large payment is due at the end of the term.

Therefore, only Option D accurately describes a true fixed-rate mortgage product.

39. Frage

A mortgage loan originator (MLO) cannot be approved for licensure if the applicant has:

- **A. been convicted of a felony within the past seven years.**
- B. never been licensed or registered as an MLO in any governmental jurisdiction.
- C. taken and failed the SAFE MLO National Test three times within the last year.
- D. had an MLO license suspended in any governmental jurisdiction.

Antwort: A

Begründung:

Under the SAFE Act, a mortgage loan originator (MLO) cannot be approved for licensure if they have been convicted of a felony within the past seven years, or at any time if the felony involved fraud, dishonesty, breach of trust, or money laundering. This provision ensures that individuals with serious criminal backgrounds are not permitted to operate as MLOs.

* Other factors, such as failing the SAFE MLO test (C) or having never been licensed (D), do not automatically disqualify an applicant from obtaining an MLO license.
