## 3 Formats of Juniper JN0-481 Dumps that Suit your Study Style

One of the best features of Juniper JN0-481 exam dumps is its discounted price. Our Juniper JN0-481 Exams prices are entirely affordable for everyone. We guarantee you that no one can beat us in terms of JN0-481 Exam Dumps prices. Get any Juniper JN0-481 exam dumps format and start preparation with confidence.

### Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q50-Q55):

#### NEW QUESTION # 50

You are receiving cable, interface, and BGP anomalies from several devices within the data center fabric. In Juniper Apstra, how would you troubleshoot these types of errors?

- A. In the UI, verify device connectivity by consulting the cable map.
- B. In the UI, go to Time Voyager and revert to the last working version.

- C. In the UI, go to Devices and confirm that agent connectivity is fine.
- D. In the UI, access the console to the devices and review the interface states.

**Answer: A**

Explanation:

The cable map is a graphical representation of the physical connections between the devices in the data center fabric. It shows the status of the cables, interfaces, and BGP sessions for each device. You can use the cable map to identify and troubleshoot any cable, interface, or BGP anomalies that may occur in the fabric. You can also filter the cable map by device name, device type, device role, device state, cable state, interface state, or BGP state.

#### **NEW QUESTION # 51**

Which two statements are correct about Time Voyager? (Choose two.)

- A. Time Voyager retains up to twenty-five saved revisions.
- B. Time Voyager retains the five most recent blueprint commits.
- C. Time Voyager retains all of the blueprint revisions from the last Juniper Apstra backup.
- D. Time Voyager retains the last ten blueprint commits.

**Answer: A,B**

Explanation:

Time Voyager is a feature of Juniper Apstra that allows you to restore previous revisions of a blueprint, which is a logical representation of your network design and configuration. Time Voyager automatically saves the five most recent blueprint commits, which are the changes that you apply to the network. You can also manually save up to twenty-five revisions by keeping them, which prevents them from being overwritten by new commits.

#### **NEW QUESTION # 52**

You are building an IP fabric and have decided to use Junos devices to create an EBGP underlay. You must ensure that traffic is load balanced throughout your fabric.

You must also ensure that regardless of the path used through the fabric that all traffic is handled consistently and load balanced predictably.

According to Juniper Networks, what are three best practices that you should employ to help you achieve the desired behavior? (Choose three.)

- A. Leaf devices should use a variety of link speeds for each uplink to the spine devices.
- B. All leaf devices should be the same model including linecards and port density.
- C. Each leaf device should be a different model including linecards and port density.
- D. All spine devices should be the same model including linecards and port density.
- E. Each leaf device must use the same link speed for all uplinks to the spine devices.

**Answer: B,D,E**

#### **NEW QUESTION # 53**

In the Apstra design phase, what is the role of DC Reference Design?

- A. It determines the placement of security cameras in the data center
- B. It refers to the design of data center furniture layout
- C. It specifies the color scheme for network cables
- D. It provides a blueprint for the overall data center architecture and configuration

**Answer: D**

#### **NEW QUESTION # 54**

What are two system-defined user roles that are available in Juniper Apstra? (Choose two.)

- A. authorized
- B. viewer
- C. user
- D. root

**Answer: B,C**

Explanation:

Juniper Apstra provides four system-defined user roles that are available in the Apstra GUI environment. They are: administrator, device\_ztp, viewer, and user. Based on the web search results, we can infer the following statements:

viewer: This role includes permissions to only view various elements in the Apstra system, such as blueprints, devices, design, resources, external systems, platform, and others. Users with this role cannot create, edit, or delete any element.

user: This role includes permissions to view and edit various elements in the Apstra system, such as blueprints, devices, design, resources, external systems, platform, and others. Users with this role cannot create or delete any element.

authorized: This is not a system-defined user role in Juniper Apstra. It is a term used to describe users who have been authenticated by an external system, such as LDAP, Active Directory, TACACS+, or RADIUS.

root: This is not a system-defined user role in Juniper Apstra. It is a term used to describe the superuser account on a Linux system, which has full access to all commands and files. Creating a user in the Apstra GUI does not provide that user access to the Apstra platform via SSH. To access the Apstra platform via SSH, you must create a local Linux system user.

## NEW QUESTION # 55

.....

How you can gain the JN0-481 certification with ease in the least time? The answer is our JN0-481 study materials for we have engaged in this field for over ten years and we have become the professional standard over all the exam materials. You can free download the demos which are part of our JN0-481 Exam Braindumps, you will find that how good they are for our professionals devote of themselves on compiling and updating the most accurate content of our JN0-481 exam questions.

**JN0-481 Reliable Exam Papers:** <https://www.exam4tests.com/JN0-481-valid-braindumps.html>

At the same time, our industry experts will continue to update and supplement JN0-481 test question according to changes in the exam outline, so that you can concentrate on completing the review of all exam content without having to pay attention to changes in the outside world, Some candidates have doubt about our one-year free updates and one year service assist for buyers who purchase Exam4Tests JN0-481 valid exam bootcamp files, It can't be denied that professional certification is an efficient way for employees to show their personal JN0-481 abilities.

Later that week, when you get together with your friends for a game of cards, JN0-481 you tell them the joke, For now, don't worry too much about this, At the same time, our industry experts will continue to update and supplement JN0-481 Test Question according to changes in the exam outline, so that you can concentrate on completing the review of all exam content without having to pay attention to changes in the outside world.

## Effective Juniper JN0-481: Study Data Center, Specialist (JNCIS-DC) Test - Hot Exam4Tests JN0-481 Reliable Exam Papers

Some candidates have doubt about our one-year free updates and one year service assist for buyers who purchase Exam4Tests JN0-481 valid exam bootcamp files, It can't be denied that professional certification is an efficient way for employees to show their personal JN0-481 abilities.

This kind of access could cost you over \$100,000 if you were to purchase all materials individually, So JN0-481 practice materials come within the scope of our business activities.
