Simulation of our AD0-E911 Training Materials make it possible to have a clear understanding of what your strong points and weak points are and at the same time, you can learn comprehensively about the AD0-E911 exam and pass it easily.

Adobe Workfront Project Manager Certified Professional Sample Questions (Q88-Q93):

NEW QUESTION # 88

An organization has created unique data fields relevant to their projects. Starting by navigating from a project's landing page, where is this data found?

- A. Project Details > Custom Forms
- B. Project Details > Overview
- C. Business Case > Project Info

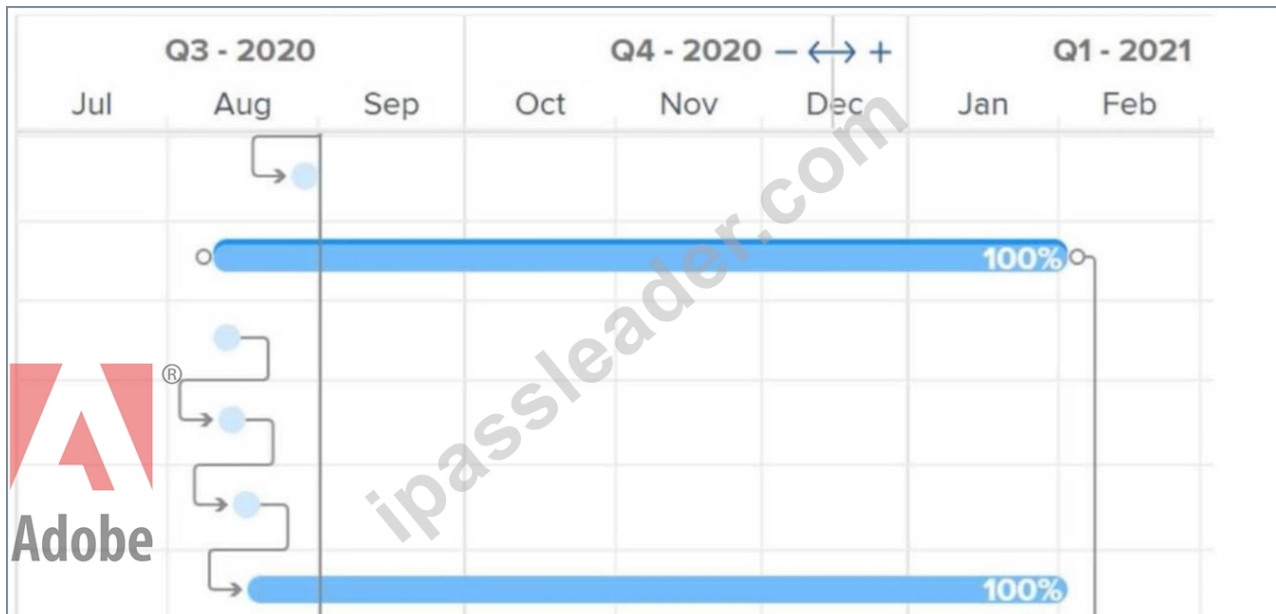

Answer: C

Explanation:

In Workfront, custom data fields created for projects are typically found within the "Business Case" section, specifically under "Project Info." This area houses key project information and unique custom fields that are relevant to the project's setup. The "Project Details" section is more focused on task-related information and the overall summary of the project.

NEW QUESTION # 89

Refer to the exhibit.

What do the connector lines between tasks in a Gantt chart represent?

- A. Critical path
- B. Multiple assignments
- C. Predecessor relationship

Answer: C

Explanation:

In Workfront, the connector lines in a Gantt chart represent the predecessor relationships between tasks. These lines show how one task depends on another, indicating the order in which tasks need to be completed. This helps project managers visualize task dependencies and how changes in one task can affect others in the timeline.

NEW QUESTION # 90

Which two statements are true about Groups and Teams? (Choose two.)

- A. A Group can be assigned to a task, but a Team cannot be assigned to a task.
- B. A Team can be assigned to a task, but a Group cannot be assigned to a task.
- C. Work requests can be routed to either a Group or a Team.
- D. Objects can be shared with either a Group or a Team.

Answer: B,C

Explanation:

In Workfront, Teams are operational entities that can be assigned to tasks, while Groups are organizational entities that are not assignable to tasks. Additionally, work requests can be routed to both Groups and Teams, depending on how the organization is structured and how the routing is set up.

NEW QUESTION # 91

Two team members are assigned to a task that is expected to start this Tuesday based on the predecessor and the task constraint, but the Planned Start Date is showing as this Friday.

Why may this be the case?

- A. The team needs to review the task before confirming the start date.
- B. The primary task owner has time off logged in Workfront.
- C. The task duration and planned hours are set to begin on Friday.

Answer: C

Explanation:

In Workfront, tasks are governed by several factors such as task duration, planned hours, and predecessors. In this case, the most likely reason for the task starting later than expected is due to the task's duration and planned hours being configured to start on Friday. Even though the predecessor may suggest an earlier start, task settings such as constraints and assigned hours can override the default scheduling. Additionally, task constraints, like "Fixed Start" or "Fixed Finish," can influence when tasks appear on the schedule.

NEW QUESTION # 92

A project manager needs to locate the fixed revenue and costs of a project. Where should the project manager look to find this information?

- A. Business Case
- B. Billing Records
- C. Project Details

Answer: C

Explanation:

In Adobe Workfront, the Project Details section is where you can find critical information about the financial aspects of a project, including the fixed revenue and costs. This section includes details such as budgets, financials, and other related data. The Business Case primarily contains the justification or rationale for the project, while Billing Records pertain to invoicing and payment tracking, not necessarily fixed project costs and revenue.

For accurate financial tracking and reporting, the Project Details page is the go-to source for project managers to monitor and update financial data.

NEW QUESTION # 93

.....

There are a lot of leading experts and professors in different field in our company. The first duty of these leading experts and professors is to compile the AD0-E911 exam questions.
