2026 Latest DumpsMaterials 1z0-1080-25 PDF Dumps and 1z0-1080-25 Exam Engine Free Share:
<https://drive.google.com/open?id=1Or4xNcK3bJXWH7Rp28eKFXkWaOGIZtTl>

The fact that Oracle 1z0-1080-25 questions are available in three different formats enables users to prepare according to their styles. To test out the 1z0-1080-25 study material, you can download a free Oracle 1z0-1080-25 demo from DumpsMaterials. You receive 1 year of free 1z0-1080-25 Questions updates and 24-hour customer service. To avoid disappointment and failure, purchase 1z0-1080-25 exam preparation material and begin your Oracle Planning 2025 Implementation Professional (1z0-1080-25) exam preparation.

This Oracle PDF file is a really convenient and manageable format. Furthermore, the Oracle 1z0-1080-25 PDF is printable which enables you to study or revise questions on the go. This can be helpful since staring at a screen during long study hours can be tiring and the 1z0-1080-25 PDF hardcopy format is much more comfortable. And this Oracle Planning 2025 Implementation Professional price is affordable.

Quiz 2026 Oracle 1z0-1080-25: Oracle Planning 2025 Implementation Professional Unparalleled Reliable Braindumps Questions

We are a certification exam dumps website that meets the needs of many IT workers who are going to participate in the Oracle 1z0-

1080-25 real exam. Our colleagues will always check the updating of 1z0-1080-25 practice questions and the similarity of real question is almost 100%. It will be not difficult for candidates to clear 1z0-1080-25 Exam Braindumps if they are good at considering and conclude except practicing 1z0-1080-25 dumps pdf.

Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Manage Rules: This section of the exam measures the skills of an EPM Consultant and covers designing and managing business logic using rules and rulesets to automate calculations.
Topic 2	<ul style="list-style-type: none"> Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.
Topic 3	<ul style="list-style-type: none"> Manage Dimensions: This section of the exam measures the skills of a Planning Administrator and covers how to manage essential dimensions and hierarchies that organize planning data.
Topic 4	<ul style="list-style-type: none"> Explain required and user-defined dimensions; how dimension hierarchies impact Planning
Topic 5	<ul style="list-style-type: none"> Import and export data into Planning: This section of the exam measures the skills of a Planning Administrator and covers the process of moving planning data into and out of the system.
Topic 6	<ul style="list-style-type: none"> This section of the exam measures the skills of a Planning Administrator and includes understanding how standard and custom dimensions are used, and how dimension hierarchies affect planning structure and outcomes.
Topic 7	<ul style="list-style-type: none"> Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.
Topic 8	<ul style="list-style-type: none"> Manage Metadata and Data: This section of the exam measures the skills of a Planning Administrator and covers methods for loading and maintaining metadata and data in Planning.
Topic 9	<ul style="list-style-type: none"> Provision users and groups. This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.
Topic 10	<ul style="list-style-type: none"> Set Up Planning Security: This section of the exam measures the skills of a Planning Administrator and includes provisioning user roles and assigning appropriate access rights across Planning artifacts and data.
Topic 11	<ul style="list-style-type: none"> Explain the benefits of using Groovy Rules: This section of the exam measures the skills of an EPM Consultant and explains how Groovy scripting enhances rule flexibility and performance.
Topic 12	<ul style="list-style-type: none"> Create and manage navigation flows: This section of the exam measures the skills of an EPM Consultant and involves organizing navigation flows to simplify user interaction in Planning.
Topic 13	<ul style="list-style-type: none"> Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.
Topic 14	<ul style="list-style-type: none"> Map data across applications: This section of the exam measures the skills of an EPM Consultant and includes how to map and align data structures between Planning and other connected applications.
Topic 15	<ul style="list-style-type: none"> Set up and run data maps: This section of the exam measures the skills of a Planning Administrator and focuses on configuring and executing data maps to move data across plan types or applications.
Topic 16	<ul style="list-style-type: none"> Build validation rules: This section of the exam measures the skills of an EPM Consultant and includes creating rules that validate data entry in forms.

Topic 17	<ul style="list-style-type: none"> • Manage Forms, Dashboards, and Navigation Flows: This section of the exam measures the skills of an EPM Consultant and includes creating interactive forms and dashboards and setting up navigation flows for a better user experience.
Topic 18	<ul style="list-style-type: none"> • Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.
Topic 19	<ul style="list-style-type: none"> • Create Reports: This section of the exam measures the skills of a Planning Administrator and involves creating reports that summarize planning activities and outcomes.
Topic 20	<ul style="list-style-type: none"> • Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.
Topic 21	<ul style="list-style-type: none"> • Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.
Topic 22	<ul style="list-style-type: none"> • Create and run data integrations: This section of the exam measures the skills of an EPM Consultant and involves building data integration flows between different data sources and Planning.
Topic 23	<ul style="list-style-type: none"> • Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.
Topic 24	<ul style="list-style-type: none"> • Identify metadata and data load options: This section of the exam measures the skills of a Planning Administrator and introduces options available for importing and managing metadata and data within the system.

Oracle Planning 2025 Implementation Professional Sample Questions (Q57-Q62):

NEW QUESTION # 57

You enabled Projects and within Projects you enabled the Program dimension so that you can group projects together into a program. Which is a post configuration task for Projects?

- A. Synchronize defaults by pushing updated data to the input forms by running the Synchronize Default business rule.
- **B. Map projects to programs for analysis purposes.**
- C. Review the assumptions under Investments and Intangibles at the No Entity level and members under the Total Entity level.
- D. Modify account type and variance reporting options for members in programs.

Answer: B

NEW QUESTION # 58

You want to select a probability distribution for your Strategic Modeling simulation. The minimum and maximum are fixed, and you know the most likely values.

Which probability distribution is useful with limited data in situations such as sales estimates, inventory numbers, and marketing costs in Strategic Modeling simulations?

- A. Uniform
- B. Normal
- **C. Triangular**
- D. Lognormal
- E. Beta PERT

Answer: C

Explanation:

In Oracle Planning 2024's Strategic Modeling simulations, selecting a probability distribution for scenarios with fixed minimum and maximum values and a known most likely value (e.g., sales estimates, inventory, marketing costs) points to:

- * A. Beta PERT: Incorrect. Beta PERT uses min, max, and most likely values but requires more data to shape the curve accurately, making it less ideal with limited data.
- * B. Uniform: Incorrect. Uniform assumes equal probability between min and max, ignoring the most likely value, which doesn't fit this scenario.
- * C. Triangular: Correct. The Triangular distribution uses minimum, maximum, and most likely values, making it simple and effective for limited data situations like sales or costs.
- * D. Normal: Incorrect. Normal requires mean and standard deviation, not just min, max, and most likely, and assumes more data availability.
- * E. Lognormal: Incorrect. Lognormal is skewed and suited for data with a positive range, requiring more statistical input than provided here.

The Oracle documentation recommends the Triangular distribution for its simplicity and suitability with limited data, making C the correct answer.

Oracle EPM Cloud Documentation: "Simulation Distributions" (docs.oracle.com, Published 2023-11-30, updated for 2024).

NEW QUESTION # 59

Which two permissions are assigned when a model is first created in Strategic Modeling?

- A. Power User permissions
- B. Viewer permissions
- C. Owner permissions
- D. Default permissions

Answer: C,D

NEW QUESTION # 60

You want to design a report with Reports for Oracle Enterprise Performance Management Cloud. You have an error on the report indicated by a red bar above the report header.

Which two statements describe possible causes of report object errors in Report Designer?

- A. The report name is blank when you use a text function to display the name.
- B. The size of the inserted graphic is too large.
- C. The report object overlaps with another report object.
- D. The data source connection for the report is no longer valid.

Answer: C,D

Explanation:

When designing a report in Reports for Oracle Enterprise Performance Management Cloud and encountering an error (indicated by a red bar above the report header), the issue often stems from report object configuration. The two possible causes are:

- * A. The report name is blank when you use a text function to display the name: Incorrect. A blank report name might cause display issues, but it's not a common cause of a report object error flagged by a red bar-errors typically relate to objects or data sources, not naming.
- * B. The report object overlaps with another report object: Correct. Overlapping objects (e.g., grids, charts) can cause rendering or validation errors in Report Designer, triggering an error indicator like a red bar due to layout conflicts.
- * C. The data source connection for the report is no longer valid: Correct. If the data source (e.g., a cube or grid definition) becomes invalid (e.g., deleted, renamed, or inaccessible), the report cannot retrieve data, resulting in an error marked by a red bar.
- * D. The size of the inserted graphic is too large: Incorrect. While large graphics might affect performance or formatting, they do not typically cause a report object error flagged by a red bar-size issues are more likely to impact display than functionality.

The Oracle documentation identifies B (object overlap) and C (invalid data source) as frequent causes of errors in Report Designer, making them the correct answers.

25, updated for 2024).

NEW QUESTION # 61

Which four job types can be scheduled in Planning?

- A. Data map
- B. Create Snapshot
- C. Merge Data Slices
- D. Promote Planning Unit
- E. Refresh Database
- F. Import Data and Export Data

Answer: A,C,E,F

NEW QUESTION # 62

• • • • •

The 21 century is the information century. Information and cyber technology represents advanced productivity, and its rapid development and wide application have given a strong impetus to economic and social development and the progress of human civilization (1z0-1080-25 exam materials). They are also transforming people's lives and the mode of operation of human society in a profound way. So you really should not be limited to traditional paper-based 1z0-1080-25 Test Torrent in the 21 country especially when you are preparing for an exam,our company has invested a large amount of money to introduce the advanced operation system which not only can ensure our customers the fastest delivery speed but also can encrypt all of the personal 1z0-1080-25 information of our customers automatically.
