問題 #102

State and local governments account for budgeted and actual expenditures to ensure that

- A. GASB standards are met when producing the basic financial statements.
- B. cash is available to pay bills when they come due.
- C. spending conforms to legal requirements.
- D. actual expenditures are used to formulate next year's budget.

答案：C

解題說明：

State and local governments adopt legally binding budgets and are required to monitor compliance with those budgets. Budget-to-actual comparisons help ensure that public funds are spent only as authorized by the legislative body. This supports the core

accountability principle of public sector financial reporting.

While budgets can also support planning and cash flow, the primary purpose of tracking budgeted vs. actual expenditures is legal compliance.

問題 #104

Which of the following revenue sources is an exchange-like transaction?

- A. fines
- B. operating permits
- C. income taxes
- D. grants

答案： B

解題說明：

Exchange and exchange-like transactions occur when each party receives and gives up essentially equal value.

In the case of operating permits (e.g., business licenses or environmental permits), the payer receives a direct and proportional benefit in exchange for the fee paid, making this an exchange-like transaction.

In contrast:

Income taxes and fines are non-exchange revenues.

Grants may or may not be exchange-like, depending on stipulations, but generally are non-exchange.

Relevant Standards and References:

- C. the accounting principles used to prepare the financial statements.
- D. the agency's performance metrics.

答案： B

解題說明：

Footnotes (Notes to the Financial Statements) serve to clarify and provide additional detail about the financial statements. Key components include:

Summary of significant accounting policies (e.g., measurement focus, basis of accounting) Details on capital assets, long-term liabilities, commitments, contingencies Pension/OPEB disclosures Not performance metrics or audit opinions (those are in MD&A and audit reports) Relevant References:

When a new combined government replaces the separate governments of a city and a county, this is an example of

- A. a transfer of operations.
- B. a government acquisition.
- **C. a government merger.**
- D. intergovernmental operations.

答案： C

解題說明：

A government merger occurs when two or more legally separate governments are combined to form a new government, and the original governments cease to exist. This includes combinations like a city and county merging to form a unified government, with combined assets, liabilities, and operations.

There is no acquiring government - rather, the governments voluntarily combine into a new legal entity.
