Do you want to pass the VMware 2V0-32.24 exam better and faster? Then please select the TestValid. It can help you achieve your dreams. TestValid is a website that provide accurate exam materials for people who want to participate in the IT certification. TestValid can help a lot of IT professionals to enhance their career blueprint. Our strength will make you incredible. You can try a part of the questions and answers about VMware 2V0-32.24 Exam to test our reliability.

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Architecture and Technologies: This section of the exam measures the skills of Cloud Architects and covers the core differences between VMware Cloud Management offerings, focusing on SaaS versus on-premises deployments. It introduces the capabilities of vRealize Suite Lifecycle Manager, vRealize Operations, and vRealize Log Insight, helping professionals understand the foundational technologies that support VMware's cloud ecosystem.
Topic 2	<ul style="list-style-type: none">Planning and Designing: This section of the exam measures the skills of Cloud Architects and covers the architectural models and sizing requirements for vRealize Operations and vRealize Log Insight. It evaluates the ability to choose between standalone, clustered, and high-availability setups, and to plan appropriately based on scenario-based requirements for capacity and deployment type, ensuring well-designed cloud solutions.
Topic 3	<ul style="list-style-type: none">Troubleshooting and Repairing: This section of the exam measures skills of Support Engineers and covers the diagnosis and resolution of common performance and configuration issues in vRealize Operations, Log Insight, and Lifecycle Manager. It also includes cluster management options, log bundle generation, password handling, and changing authentication settings, equipping professionals to ensure system reliability.
Topic 4	<ul style="list-style-type: none">Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.

Topic 5	<ul style="list-style-type: none"> • Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam.
Topic 6	<ul style="list-style-type: none"> • VMware Products and Solutions: This section of the exam measures the skills of Cloud Engineers and covers the components, integrations, and use cases for various VMware Cloud Management solutions. It includes tools like vRealize True Visibility Suite, Skyline, Federated Analytics, vRealize AI Cloud, and Log Insight Cloud. Candidates also explore deployment tools such as Remote Collectors and Cloud Proxies to understand their role in scalable cloud operations.

Pass Guaranteed 2026 Valid 2V0-32.24: VMware Cloud Operations 8.x Professional V2 Training Courses

We know making progress and getting the certificate of 2V0-32.24 study materials will be a matter of course with the most professional experts in command of the newest and the most accurate knowledge in it. Our VMware Cloud Operations 8.x Professional V2 exam prep has taken up a large part of market. with decided quality to judge from customers' perspective, If you choose the right 2V0-32.24 Practice Braindumps, it will be a wise decision. Our behavior has been strictly ethical and responsible to you, which is trust worthy.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q28-Q33):

NEW QUESTION # 28

In vRealize Operations, a user applies a CPU License to a custom group which has existing hosts. How will the Virtual Machines (VMs) on the existing hosts be affected?

- A. vRealize Operations prompts the user to apply a VM license key to the VMs running.
- B. The VMs running on the hosts show a 'License is Invalid' watermark.
- **C. The VMs running on the hosts are not affected.**
- D. The CPU license gets converted to a CPU and VM license.

Answer: C

Explanation:

When a CPU license is applied to a custom group in vRealize Operations, it impacts the hosts but does not directly affect the Virtual Machines (VMs) running on those hosts. The license is applied at the host level, and the VMs are not impacted by this change. The VMs will continue to run as they were, and no additional VM licenses are required.

NEW QUESTION # 29

An administrator has been tasked with deploying vRealize Operations (vROps).

The requirements are:

The deployment must consume a minimal amount of cluster compute resources The deployment must be resilient against a single vROps node failure Which option would meet the requirements?

- A. Deploy vRealize Operations so that Continuous Availability (CA) can be enabled
- **B. Deploy vRealize Operations as a cluster and enable High Availability (HA)**
- C. Deploy two Remote Collector nodes and place them in a Collector Group
- D. Deploy vRealize Operations as a cluster

Answer: B

Explanation:

To meet the requirement of consuming minimal cluster compute resources while also being resilient against a single node failure, deploying vRealize Operations as a cluster and enabling High Availability (HA) is the best option.

NEW QUESTION # 30

When creating a vRealize Operations content endpoint in vRealize Suite Lifecycle Manager what should an administrator configure on the vRealize Operations appliance?

- A. A content management agent for capturing the supported types of content
- B. A local user account with the relevant permissions to allow ssh access
- **C. A configuration file with the vRealize Suite Lifecycle Manager server details**
- D. A new file system partition that is shared for storing content exports

Answer: C

Explanation:

When creating a vRealize Operations content endpoint in vRealize Suite Lifecycle Manager (vRSLCM), an administrator must configure a configuration file that includes the vRealize Suite Lifecycle Manager server details. This allows vRealize Operations to communicate with vRSLCM and facilitates the management of content within vRealize Operations using the Lifecycle Manager.

NEW QUESTION # 31

An administrator has added Microsoft Azure as a data source in vRealize Operations. Which is the minimal time interval that is supported for data collection?

- A. 1 minute
- B. 5 minutes
- **C. 30 minutes**
- D. 10 minutes

Answer: C

Explanation:

When Microsoft Azure is added as a data source in vRealize Operations, the minimal supported time interval for data collection is 30 minutes. This is the smallest interval at which data can be retrieved from Azure, ensuring that performance and resource utilization data is gathered at regular intervals for monitoring and analysis.

NEW QUESTION # 32

Which capability of vRealize Suite Lifecycle Manager can help administrators with the use case of automating day 2 operations in a private cloud environment?

- A. Centralized log analysis for all vRealize components deployed on-premises.
- B. Proactive findings and recommendations delivered on-demand.
- **C. Management of configurations, certificates, licenses, passwords, and users.**
- D. Proactive monitoring and automated remediation of Workspace ONE Access database consistency problems.

Answer: C

Explanation:

vRealize Suite Lifecycle Manager (vRSLCM) offers a range of features to manage the lifecycle of vRealize Suite components. For automating day 2 operations in a private cloud environment, the capability of managing configurations, certificates, licenses, passwords, and users is essential. This allows administrators to streamline the ongoing management and maintenance of the cloud environment, which includes tasks like updating licenses, managing user access, and configuring system settings, thus automating several operational aspects of the environment.

NEW QUESTION # 33

.....

We provide the VMware 2V0-32.24 exam questions in a variety of formats, including a web-based practice test, desktop practice exam software, and downloadable PDF files. TestValid provides proprietary preparation guides for the certification exam offered by the VMware Cloud Operations 8.x Professional V2 (2V0-32.24) exam dumps. In addition to containing numerous questions similar to the VMware Cloud Operations 8.x Professional V2 (2V0-32.24) exam, the VMware Cloud Operations 8.x Professional V2 (2V0-32.24) exam questions are a great way to prepare for the VMware 2V0-32.24 exam dumps.
