## Professional-Cloud-Network-Engineer Prep Torrent - Professional-Cloud-Network-Engineer Latest Questions & Professional-Cloud-Network-Engineer Vce Guide

We will provide you with three different versions of our Professional-Cloud-Network-Engineer exam questions on our test platform. You have the opportunity to download the three different versions from our test platform. The three different versions of our Professional-Cloud-Network-Engineer Test Torrent include the PDF version, the software version and the online version. The three different versions will offer you same questions and answers, but they have different functions.

## Google Cloud Certified - Professional Cloud Network Engineer Sample Questions (Q180-Q185):

### NEW QUESTION # 180

You are designing a hybrid cloud environment for your organization. Your Google Cloud environment is interconnected with your on-premises network using Cloud HA VPN and Cloud Router. The Cloud Router is configured with the default settings. Your on-premises DNS server is located at 192.168.20.88 and is protected by a firewall, and your Compute Engine resources are located at 10.204.0.0/24. Your Compute Engine resources need to resolve on-premises private hostnames using the domain corp.altostrat.com while still resolving Google Cloud hostnames. You want to follow Google-recommended practices. What should

you do?

- A. Create a private zone in Cloud DNS for 'corp.altostrat.com' called corp-altostrat-com  
Configure DNS Server Policies and create a policy with Alternate DNS servers to 192.168.20.88.  
Configure your on-premises firewall to accept traffic from 35.199.192.0/19.
- B. Create a private forwarding zone in Cloud DNS for 'corp.altostrat.com' called corp-altostrat-com that points to 192.168.20.88.  
Configure your on-premises firewall to accept traffic from 10.204.0.0/24.  
Set a custom route advertisement on the Cloud Router for 10.204.0.0/24
- C. Create a private forwarding zone in Cloud DNS for 'corp.altostrat.com' called corp-altostrat-com that points to 192.168.20.88.  
Configure your on-premises firewall to accept traffic from 35.199.192.0/19 Set a custom route advertisement on the Cloud Router for 35.199.192.0/19.
- D. Create a private forwarding zone in Cloud DNS for 'corp.altostrat.com' called corp-altostrat-com that points to 192.168.20.88.  
Configure your on-premises firewall to accept traffic from 10.204.0.0/24.  
Modify the /etc/resolv.conf file on your Compute Engine instances to point to 192.168.20.88

**Answer: A**

Explanation:

Set a custom route advertisement on the Cloud Router for 35.199.192.0/19.

#### NEW QUESTION # 181

You are designing a shared VPC architecture. Your network and security team has strict controls over which routes are exposed between departments. Your Production and Staging departments can communicate with each other, but only via specific networks. You want to follow Google-recommended practices.

How should you design this topology?

- A. Create 2 shared VPCs within the shared VPC Host Project, and enable VPC peering between them.  
Use firewall rules to filter access between the specific networks.
- B. Create 2 shared VPCs within the shared VPC Host Project, and create a Cloud VPN/Cloud Router between them.  
Use Flexible Route Advertisement (FRA) to filter access between the specific networks.
- C. Create 2 shared VPCs within the shared VPC Service Project, and create a Cloud VPN/Cloud Router between them.  
Use Flexible Route Advertisement (FRA) to filter access between the specific networks.
- D. Create 1 VPC within the shared VPC Host Project, and share individual subnets with the Service Projects to filter access between the specific networks.

**Answer: D**

Explanation:

<https://cloud.google.com/vpc/docs/shared-vpc>

#### NEW QUESTION # 182

You are using the gcloud command line tool to create a new custom role in a project by copying a predefined role. You receive this error message:

INVALID\_ARGUMENT: Permission resourcemanager.projects.list is not valid. What should you do?

- A. Remove the resourcemanager.projects.list permission, and try again.
- B. Add the resourcemanager.projects.setIamPolicy permission, and try again.
- C. Try again with a different role with a new name but the same permissions.
- D. Add the resourcemanager.projects.get permission, and try again.

**Answer: A**

Explanation:

Reference: <https://cloud.google.com/iam/docs/understanding-custom-roles>

### NEW QUESTION # 183

Your company's web server administrator is migrating on-premises backend servers for an application to GCP. Libraries and configurations differ significantly across these backend servers. The migration to GCP will be lift-and-shift, and all requests to the servers will be served by a single network load balancer frontend.

You want to use a GCP-native solution when possible.

How should you deploy this service in GCP?

- A. Deploy a third-party virtual appliance as frontend to these servers that will accommodate the significant differences between these backend servers.
- B. **Create a target pool, add all backend instances to this target pool, and deploy the target pool behind your load balancer.**
- C. Use GCP's ECMP capability to load-balance traffic to the backend servers by installing multiple equal- priority static routes to the backend servers.
- D. Create a managed instance group from one of the images of the on-premises servers, and link this instance group to a target pool behind your load balancer.

**Answer: B**

### NEW QUESTION # 184

An application development team believes their current logging tool will not meet their needs for their new cloud-based product. They want a better tool to capture errors and help them analyze their historical log data. You want to help them find a solution that meets their needs, what should you do?

- A. Help them upgrade their current tool to take advantage of any new features.
- B. Send them a list of online resources about logging best practices.
- C. **Help them define their requirements and assess viable logging tools.**
- D. Direct them to download and install the Google StackDriver logging agent.

**Answer: C**

Explanation:

A and D can be ruled out for them are not general IT good practices. They need your help, not just simply to sell your products, or point them to the crowded resource without explains.

B (Correct Answer) - Help them define their requirements and assess viable logging tools. They know the requirements and the existing tools' problems. While it's true StackDriver Logging and Error Reporting meet all their requirements, they need you to provide expertise to make assessment for new tools, specifically, logging tools that can capture errors and help them analyze their historical log data?

C - Help them upgrade their current tool to take advantage of any new features. They have already used and know those tools' shortcomings. They need your help to find better one. Simply help them upgrade for new features is not enough and may not resolve the problems

### NEW QUESTION # 185

.....

We are engaging in this line to provide efficient reliable Professional-Cloud-Network-Engineer practice materials which is to help you candidates who are headache for their Professional-Cloud-Network-Engineer exams. They spend a lot of time and spirits on this exam but waste too much exam cost. Our Professional-Cloud-Network-Engineer quiz question torrent can help you half work with double results. Sometimes choice is more important than choice. After purchasing our exam Professional-Cloud-Network-Engineer Training Materials, you will have right ways to master the key knowledge soon and prepare for Professional-Cloud-Network-Engineer exam easily, you will find clearing Professional-Cloud-Network-Engineer exam seems a really easily thing.

**Professional-Cloud-Network-Engineer Updated Dumps:** <https://www.pdftorrent.com/Professional-Cloud-Network-Engineer-exam-prep-dumps.html>

In PDFTorrent Professional-Cloud-Network-Engineer Updated Dumps you can find your treasure house of knowledge, Google Valid Professional-Cloud-Network-Engineer Exam Pass4sure I believe you can improve efficiency, If someone who worry about failed the Professional-Cloud-Network-Engineer exam, our website can guarantee that they can get full refund, So owning the Professional-Cloud-Network-Engineer certification is necessary for you because we will provide the best Professional-Cloud-Network-Engineer study materials to you, Google trained experts have made sure to help the potential applicants of Google Professional-Cloud-Network-Engineer certification to pass their Google Professional-Cloud-Network-Engineer exam on the first

try.

Not everyone will see your skills, education, talents, and personality as Professional-Cloud-Network-Engineer being valuable to their cause or business, Container classes are general-purpose template classes that store items of a given type in memory.

## **Valid Professional-Cloud-Network-Engineer Exam Pass4sure | 100% Free Pass-Sure Google Cloud Certified - Professional Cloud Network Engineer Updated Dumps**

In PDFTorrent you can find your treasure house of knowledge, I believe you can improve efficiency, If someone who worry about failed the Professional-Cloud-Network-Engineer Exam, our website can guarantee that they can get full refund.

So owning the Professional-Cloud-Network-Engineer certification is necessary for you because we will provide the best Professional-Cloud-Network-Engineer study materials to you, Google trained experts have made sure to help the potential applicants of Google Professional-Cloud-Network-Engineer certification to pass their Google Professional-Cloud-Network-Engineer exam on the first try.
