## User-Friendly Salesforce AI-201 Exam Questions in PDF Format

For candidates who are going to buy AI-201 exam dumps online, they may pay more attention to the website safety. We will offer you a clean and safe online shopping environment if you buy AI-201 training materials from us. In addition, we offer you free demo for you to have a try before buying, so that you can know what the complete version is like. We have online and offline chat service stuff, and they possess the professional knowledge for AI-201 Exam Braindumps, if you have any questions, you can consult us.

## Salesforce Certified Agentforce Specialist Sample Questions (Q261-Q266):

### NEW QUESTION # 261

An Agentforce Specialist is creating a custom action in Agentforce. Which option is available for the Agentforce Specialist to choose for the custom Agent action?

- A. SOQL
- **B. Flows**
- C. Apex Trigger

**Answer: B**

Explanation:

The Agentforce Specialist is defining a custom action for an Agentforce agent in Agent Builder. Actions determine what the agent does (e.g., retrieve data, update records).

### NEW QUESTION # 262

Universal Container's internal auditing team asks An Agentforce to verify that address information is properly masked in the prompt being generated. How should the Agentforce Specialist verify the privacy of the masked data in the Einstein Trust Layer?

- A. Review the platform event logs
- **B. Inspect the AI audit trail**
- C. Enable data encryption on the address field

**Answer: B**

Explanation:

The AI audit trail in Salesforce provides a detailed log of AI activities, including the data used, its handling, and masking procedures applied in the Einstein Trust Layer. It allows the Agentforce Specialist to inspect and verify that sensitive data, such as addresses, is appropriately masked before being used in prompts or outputs.

Enable data encryption on the address field: While encryption ensures data security at rest or in transit, it does not verify masking in AI operations.

Review the platform event logs: Platform event logs capture system events but do not specifically focus on the handling or masking of sensitive data in AI processes.

Inspect the AI audit trail: This is the most relevant option, as it provides visibility into how data is processed and masked in AI activities.

### NEW QUESTION # 263

Coral Cloud Resorts needs consistent pass/fail logic for agent testing. Which Testing Center capability provides that?

- A. Run a script on event logs to identify the failed utterances.
- **B. Use structured batch testing with validation per test utterance,**
- C. Use customer rating as a proxy for correctness.

**Answer: B**

Explanation:

According to the AgentForce Testing Center Guide, structured batch testing is the feature that provides consistent, repeatable pass/fail validation for agent testing. The documentation explains:

"Structured batch testing allows specialists to define expected outputs per test utterance and automatically validate the agent's responses, resulting in deterministic pass/fail outcomes."

### NEW QUESTION # 264

Which part of the Einstein Trust Layer architecture leverages an organization's own data within a large language model (LLM) prompt to confidently return relevant and accurate responses?

- **A. Dynamic Grounding**
- B. Prompt Defense
- C. Data Masking

**Answer: A**

Explanation:

Dynamic Grounding in the Einstein Trust Layer architecture ensures that large language model (LLM) prompts are enriched with organization-specific data (e.g., Salesforce records, Knowledge articles) to generate accurate and relevant responses. By dynamically injecting contextual data into prompts, it reduces hallucinations and aligns outputs with trusted business data.

### NEW QUESTION # 265

A data scientist needs to view and manage models in Einstein Studio, and also needs to create prompt templates in Prompt Builder. Which permission sets should an Agentforce Specialist assign to the data scientist?

- **A. Data Cloud Admin and Prompt Template Manager**
- B. Prompt Template Manager and Prompt Template User
- C. Prompt Template User and Data Cloud Admin

**Answer: A**

Explanation:
