

受信任的Analytics-Admn-201試題和有用的Salesforce認證培訓 -值得信賴的Salesforce Certified Tableau Server Administrator

2026 VCESoft最新的Analytics-Admn-201 PDF版考試題庫和Analytics-Admn-201考試問題和答案免費分享：https://drive.google.com/open?id=1SKaorMY4J6FKetrPKrkhZqjoNelbrF_

Salesforce Analytics-Admn-201 認證考證書可以給你很大幫助。它能幫你提升工作職位和生活水準，擁有它你就賺到了很大的一筆財富。Salesforce Analytics-Admn-201認證考試是一個對IT專業人士的知識水準的檢驗的考試。VCESoft研究的最佳的最準確的Salesforce Analytics-Admn-201考試資料誕生了。VCESoft現在可以為你提供最全面的最佳的Salesforce Analytics-Admn-201考試資料，包括考試練習題和答案。

VCESoft Salesforce的Analytics-Admn-201考試培訓資料是個性價很高的培訓資料，與眾多培訓資料相比，VCESoft Salesforce的Analytics-Admn-201考試培訓資料是最好的，如果你需要IT認證培訓資料，不選擇VCESoft Salesforce的Analytics-Admn-201考試培訓資料，你將後悔一輩子，選擇了VCESoft Salesforce的Analytics-Admn-201考試培訓資料，你將終身受益。

最新Salesforce Analytics-Admn-201試題 & Analytics-Admn-201認證

Salesforce 認證對於具體IT工作職位提供了一個嚴格的技术資格評定方法(筆試或/和操作考試)。對於雇員來說，增加了更多事業機會，對於雇主來說，意味著更強的競爭力。Analytics-Admn-201 認證的特色在於基於工作職責的技术綱要，該綱要為使你在你的特定IT領域脫穎而出需要掌控的技术提供了明確又合理的標準。Salesforce Analytics-Admn-201 的認證在業界具有很強的權威性，是IT界認可並仰慕的一種專業技術認證。目前 Salesforce 的熱門認證有 Analytics-Admn-201 等！

最新的 Salesforce Administrator Analytics-Admn-201 免費考試真題 (Q21-Q26):

問題 #21

You install Tableau Server on a server that has four processor cores. How many instances of each Tableau Server process are installed?

- A. 0
- B. 1
- C. 2
- D. 3

答案：C

解題說明：

Tableau Server's installer configures process instances based on hardware and deployment type (single-node vs. multi-node). For a single-node installation with 4 cores, we need to consider the default process topology

. Let's break this down exhaustively:

* Key Processes:

* Gateway: Handles incoming requests (1 instance).

* Application Server (VizPortal): Manages UI and sessions (1 instance).

* VizQL Server: Renders visualizations (2 instances).

* Backgrounder: Runs extract refreshes, subscriptions (1 instance).

* Data Server: Manages data connections (1 instance).

* File Store: Stores extracts (1 instance).

* Repository: Metadata database (1 instance, active).

* Cluster Controller, Cache Server, etc.: Supporting processes (typically 1 each).

* Default Configuration:

* On a single-node install, Tableau sets 1 instance per process unless specified otherwise, except for VizQL, which defaults to 2.

* The installer doesn't scale instances linearly with cores (e.g., 4 cores # 4 instances). Post-install, TSM can adjust this (e.g., tsm topology set-process), but the question asks for the installed default.

* Minimum hardware (8 cores, 32 GB RAM) suggests higher defaults, but 4 cores still triggers a minimal setup.

* Option B (1): Correct with Caveat.

* Most processes (e.g., Backgrounder, Gateway, Data Server) default to 1 instance on install, regardless of 4 cores.

* VizQL defaults to 2, but the question's phrasing ("each process") implies a general rule.

Historically (and per docs), 1 is the baseline for most, with VizQL as the exception.

* Interpretation: Assuming "each" means the typical case, 1 fits most processes on a 4-core single- node setup.

* Option A (2): Incorrect. Only VizQL defaults to 2; others don't.

* Option C (8): Incorrect. Far exceeds defaults-8 cores might justify more, but not 4.

* Option D (4): Incorrect. Not tied to core count by default; manual config would be needed.

Why This Matters: Understanding defaults aids capacity planning-4 cores is below production minimum (8), so performance tuning may be needed post-install.

Reference: Tableau Server Documentation - "Server Process Settings" (<https://help.tableau.com/current/server/en-us/processes.htm>).

問題 #22

Which Tableau Server process performs the role of a database for metadata?

- A. Data Engine
- B. Backgrounder
- C. File Store
- **D. Repository**

答案: D

解題說明:

Tableau Server relies on several processes to function, each with a specific role. The Repository process (powered by PostgreSQL) serves as the database for metadata, storing critical information such as:

* User and group details.

* Permissions and site configurations.

* Workbook and data source metadata (e.g., schedules, subscriptions).

* Option B (Repository): Correct. The Repository is the centralized database that holds all metadata, making it the backbone of Tableau Server's content management. There are typically two instances in an HA setup (one active, one passive), monitored by the Cluster Controller.

* Option A (Data Engine): Incorrect. The Data Engine manages in-memory data processing and extract storage (e.g., .hyper files), not metadata. It's separate from the Repository.

* Option C (Backgrounder): Incorrect. The Backgrounder handles background tasks like extract refreshes and subscriptions, but it doesn't store metadata-it interacts with the Repository to retrieve task details.

* Option D (File Store): Incorrect. The File Store manages physical extract files and workbook assets, not metadata, which is stored in the Repository.

Reference: Tableau Server Documentation - "Tableau Server Processes" (<https://help.tableau.com/current/server/en-us/processes.htm>).

問題 #23

What is the maximum number of tasks that a single Backgrounder process can execute simultaneously?

- A. Two
- **B. One**
- C. Three
- D. Unlimited (based on server resources)

答案: B

解題說明:

The Backgrounder process in Tableau Server handles tasks like extract refreshes and subscriptions-let's explore its concurrency:

* Backgrounder Behavior:

* Each instance is single-threaded for task execution-one task at a time per Backgrounder.

* Multiple Backgrounders (e.g., in multi-node setups) increase parallelism, but a single Backgrounder is limited to 1 concurrent task.

* Queue: Additional tasks wait in the queue, prioritized by their priority (1-100).

* Option A (One): Correct.

* Details: A single Backgrounder executes one task (e.g., an extract refresh) until completion before starting the next.

* Config: Add more Backgrounders via TSM (tsm topology set-process -n node1 -pr backgrounder

-c 2) for more concurrency.

* Option B (Two): Incorrect.

* Why: Not natively supported-a single Backgrounder doesn't multi-thread tasks.

* Option C (Three): Incorrect.

* Why: Exceeds the single-threaded design.

* Option D (Unlimited): Incorrect.

* Why: Concurrency is fixed at 1 per instance-resources affect queue processing speed, not simultaneous tasks.

Why This Matters: Understanding Backgrounder limits guides scaling-more instances mean more parallel tasks, critical for heavy workloads.

Reference: Tableau Server Documentation - "Backgrounder Process" (<https://help.tableau.com/current/server/en-us/processes.htm#backgrounder>).

問題 #24

If a user already exists as part of a group in Tableau Server, and Active Directory synchronization then applies a minimum site role to the group, what will happen to the existing user's site role?

- **A. It will change to the minimum site role only if the minimum site role reduces access**
- B. It will never change as a result of synchronization
- C. It will always change to the minimum site role
- D. It will change to the minimum site role only if the minimum site role provides more access

答案: A

解題說明:

When Tableau Server uses Active Directory (AD) for authentication, group synchronization imports AD groups and assigns a minimum site role (e.g., Viewer, Explorer) to users in that group. This ensures users meet a baseline access level. The behavior for existing users during sync is:

* If the user's current site role provides more access than the minimum (e.g., Explorer vs. Viewer), their role remains unchanged.

* If the user's current role provides less access than the minimum (e.g., Unlicensed vs. Viewer), their role is upgraded to the minimum.

This preserves higher privileges while enforcing a floor. "Reduces access" means the minimum role is lower than the current role (e.g., Viewer vs. Explorer), in which case the existing role stays.

* Option A (It will change to the minimum site role only if the minimum site role reduces access):

Correct. The user's role changes only if the minimum increases access (e.g., Unlicensed to Viewer); otherwise, it stays higher.

* Option B (It will change only if the minimum provides more access): Incorrect wording. This is the inverse of the actual behavior-change occurs when needed to meet the minimum, not to exceed it.

* Option C (It will always change): Incorrect. Existing higher roles are preserved.

* Option D (It will never change): Incorrect. It changes if the current role is below the minimum.

Reference: Tableau Server Documentation - "Synchronize Active Directory Groups" (https://help.tableau.com/current/server/en-us/groups_sync.htm).

問題 #25

Your deployment of Tableau Server uses Active Directory authentication. What statement correctly describes the process of importing a group from Active Directory?

- A. If an imported group contains any users that have Tableau Server accounts, their site role will be changed to match the site role specified during the import
- B. Importing a group from Active Directory requires a .csv file that lists user IDs
- C. You can change the name of a group during import, although this will not change the group's name in Active Directory
- **D. New users created as a result of importing a group are assigned the site role specified during the import**

答案: D

解題說明:

Importing an AD group into Tableau Server syncs user management-let's analyze the process and options:

* AD Group Import Process:

* How: In the UI (Users > Groups > Add Group > Active Directory), enter the AD group name, set a site role, and sync.

* Behavior:

* Existing Users: If a user is already in Tableau Server, their site role remains unchanged unless manually adjusted-sync applies the minimum role only if it upgrades access.

* New Users: Added to Tableau with the site role specified during import.

* Config: Requires AD authentication enabled in TSM.

* Option D (New users created are assigned the site role specified during import): Correct.

* Details: When importing (e.g., "SalesTeam" group, site role: Explorer):

* New users get Explorer.

* Existing users keep their role unless it's below Explorer (e.g., Unlicensed # Explorer).

* Why: Ensures consistent onboarding-new users align with the group's intended access.

* Option A (Existing users' roles change to match import): Incorrect.

* Why: Existing roles persist unless lower than the minimum-e.g., Viewer stays Viewer if import sets Explorer, but Unlicensed upgrades. Not a full overwrite.

* Option B (Requires a .csv file): Incorrect.

* Why: AD import uses live sync via LDAP-no .csv needed (that's for local auth imports).

* Option C (Change group name during import): Incorrect.

* Why: The AD group name is fixed-you can't rename it in Tableau during sync (it mirrors AD).

Post-import renaming is possible but not part of the process.

Why This Matters: Accurate AD sync ensures seamless user management-missteps can disrupt access or licensing.

Reference: Tableau Server Documentation - "Synchronize Active Directory Groups" (https://help.tableau.com/current/server/en-us/groups_sync.htm).

問題 #26

.....

每個人心中都有一個烏托邦的夢，夢境的虛有讓人覺得心灰意冷，在現實中，其實這並不是虛有的，只要你採取一定的方是方法，一切皆有可能。Salesforce的Analytics-Admin-201考試認證將會從遙不可及變得綽手可得。這是為什麼呢，因為有VCESoft Salesforce的Analytics-Admin-201考試培訓資料在手，VCESoft Salesforce的Analytics-Admin-201考試培訓資料是IT認證最好的培訓資料，它以最全最新，通過率最高而聞名，而且省時又省力，有了它，你將輕鬆的通過考試。實現了你的夢想，你就有了自信，有了自信你將走向成功。

最新 Analytics-Admin-201試題: <https://www.vcesoft.com/Analytics-Admin-201-pdf.html>

VCESoft 最新Analytics-Admin-201試題擁有龐大的IT專家團隊，他們不斷利用自己的知識和經驗研究很多過去幾年的IT認證考試試題，當然,如果您覺得我們的Salesforce Administrator Salesforce Certified Tableau Server Administrator-Analytics-Admin-201題庫產品有什麼不足之處,或者是建議,您都可以聯繫我們的客戶,我們都將進行改進,爭取更為優質的為客戶服務，對於IT行業的Salesforce Analytics-Admin-201認證考試的考生而言，一份好的考古題將會起至至關重要的作用，這關係到考生是否能夠順利的通過Analytics-Admin-201考試，拿到證書那麼我們如何選擇到一份優秀的Salesforce Analytics-Admin-201考古題呢，很多人在拿到Analytics-Admin-201問題集之後就是不斷的反復練習，以確保自己能夠掌握Analytics-Admin-201問題集中的每一道考題，這也是我們學習Analytics-Admin-201 的動力所在。

這得何等的深仇大恨，能壹起走到最後的很少很少，VCESoft擁有龐大的IT專家團隊，他們不斷利用自己的知識和經驗研究很多過去幾年的IT認證考試試題，當然,如果您覺得我們的Salesforce Administrator Salesforce Certified Tableau Server Administrator-Analytics-Admin-201題庫產品有什麼不足之處,或者是建議,您都可以聯繫我們的客戶,我們都將進

行改進,爭取更為優質的為客戶服務。

最新的Analytics-Admn-201認證考試資料庫

對於IT行業的Salesforce Analytics-Admn-201認證考試的考生而言,一份好的考古題將會起至至關重要的作用,這關係到考生是否能夠順利的通過Analytics-Admn-201考試,拿到證書那麼我們如何選擇到一份優秀的Salesforce Analytics-Admn-201考古題呢?

很多人在拿到Analytics-Admn-201問題集之後就是不斷的反復練習,以確保自己能夠掌握Analytics-Admn-201問題集中的每一道考題,這也是我們學習Analytics-Admn-201的動力所在。
