Updated C_BCBDC_2505 - SAP Certified Associate - SAP Business Data Cloud Exam

You can learn our C_BCBDC_2505 test prep in the laptops or your cellphone and study easily and pleasantly as we have different types, or you can print our PDF version to prepare your exam which can be printed into papers and is convenient to make notes. Studying our C_BCBDC_2505 exam preparation doesn't take you much time and if you stick to learning you will finally pass the exam successfully. Believe us because the C_BCBDC_2505 Test Prep are the most useful and efficient, and the C_BCBDC_2505 exam preparation will make you master the important information and the focus to pass the C_BCBDC_2505 exam.

SAP C_BCBDC_2505 Exam Syllabus Topics:

Topic	Details
Topic 1	• SAP Analytics Cloud: This section of the exam measures the skills of Data Analysts and covers the use of SAP Analytics Cloud in data visualization, story building, and dashboard creation. Candidates should be familiar with its planning and predictive capabilities, along with how to utilize data insights to drive business decision-making. It also includes managing user access and collaborating through shared analytics assets.
Topic 2	• SAP Business Data Cloud: This section of the exam measures the skills of Data Analysts and covers core concepts of the SAP Business Data Cloud. Candidates are expected to understand its key components, integration mechanisms, and how it functions as a foundation for unified data management across SAP and non-SAP environments. The focus is on enabling data connectivity and providing governed access to data across the enterprise.
Topic 3	• SAP Datasphere: This section of the exam measures the skills of Solution Consultants and covers a comprehensive understanding of SAP Datasphere. Candidates should demonstrate knowledge of data modeling, transformation, and harmonization using SAP Datasphere tools. It evaluates how well they can work with data layer structuring, semantic modeling, and integration to support real-time data access for various business applications.

Fresh C_BCBDC_2505 Dumps | New C_BCBDC_2505 Dumps Files

If you are really not sure which version you like best, you can also apply for multiple trial versions of our C_BCBDC_2505 exam questions. We want our customers to make sensible decisions and stick to them. C_BCBDC_2505 study engine can be developed to today, and the principle of customer first is a very important factor. C_BCBDC_2505 Training Materials really hope to stand with you, learn together and grow together.

SAP Certified Associate - SAP Business Data Cloud Sample Questions (Q17-Q22):

NEW QUESTION # 17
What are the some purposes of SAP Business Data Cloud?
There are 2 correct answers to this question.
Response:

- A. To provide a homogeneous system landscape for data, functions, and use cases
- B. To act solely as a data storage solution without analytics capabilities
- C. To provide foundational services for data and analytics scenarios
- D. To provide mainly manual data integration scenarios

Answer: A,C

NEW QUESTION # 18
What do you use to write data from a local table in SAP Datasphere to an outbound target?

- A. Data Flow
- B. Transformation Flow
- C. CSN Export
- D. Replication Flow

Answer: A

Explanation:
To write data from a local table in SAP Datasphere to an outbound target, you primarily use a Data Flow. A Data Flow in SAP Datasphere is a powerful tool designed for comprehensive data integration and transformation. It allows you to extract data from various sources (including local tables within Datasphere), perform various transformations (like joins, aggregations, filtering, scripting), and then load the processed data into a specified target. This target can be another local table, a remote table, or an outbound target like an external database or a file system. While a Replication Flow (C) is used for ingesting data into Datasphere, and a Transformation Flow (A) is not a standalone artifact for outbound writes (often part of a Data Flow), the Data Flow provides the complete framework for extracting, transforming, and loading data, including sending it to external destinations.

NEW QUESTION # 19
What lets you create 1 or more models that learn from your historical data?
Please choose the correct answer.
Response:

- A. Smart Predict
- B. Smart Insights
- C. Predictive Forecast

Answer: A

NEW QUESTION # 20

You created a story and want to share it with an external agent, who does not have SAP Analytics Cloud. You decide to export the story as a file. Which file type can be used?

Please choose the correct answer.

Response:

- A. .html
- B. .pdf
- C. .csv
- D. .xlsx

Answer: B

NEW QUESTION # 21

Which options do you have when using the remote table feature in SAP Datasphere? Note: There are 3 correct answers to this question.

- A. Data access can be switched from virtual to persisted, but not the other way around.
- B. Data can be persisted by using real-time replication.
- C. Data can be accessed virtually by remote access to the source system.
- D. Data can be persisted in SAP Datasphere by creating a snapshot (copy of data).
- E. Data can be loaded using advanced transformation capabilities.

Answer: B,C,D

Explanation:
The remote table feature in SAP Datasphere offers significant flexibility in how data from external sources is consumed and managed. Firstly, data can be accessed virtually by remote access to the source system (E). This means Datasphere does not store a copy of the data; instead, it queries the source system in real-time when the data is requested. This ensures that users always work with the freshest data. Secondly, data can be persisted in SAP Datasphere by creating a snapshot (copy of data) (C). This allows users to explicitly load a copy of the remote table's data into Datasphere at a specific point in time, useful for performance or offline analysis. Lastly, data can be persisted by using real-time replication (D). For certain source systems and configurations, Datasphere supports continuous, real-time replication, ensuring that changes in the source system are immediately reflected in the persisted copy within Datasphere. Option A is incorrect as the access mode cannot be arbitrarily switched, and option B refers to data flow capabilities, not inherent remote table access options.

NEW QUESTION # 22

......

All people dream to become social elite. However, less people can take the initiative. If you spend less time on playing computer games and spend more time on improving yourself, you are bound to escape from poverty. Maybe our C_BCBDC_2505 real dump could give your some help. Our company concentrates on relieving your pressure of preparing the C_BCBDC_2505 Exam. Getting the certificate equals to embrace a promising future and good career development. Perhaps you have heard about our C_BCBDC_2505 exam question from your friends or news. Why not has a brave attempt? You will certainly benefit from your wise choice.
