APMG-International Agile Project Management (AgilePM) Foundation Exam Sample Questions (Q79-Q84):

NEW QUESTION # 79
What DSDM product describes how the benefits have actually accrued following a period in live operation?

- A. Delivery Plan
- B. Benefits Assessment
- C. Prioritized Requirement List
- D. Project Review Report

Answer: B

Explanation:
The DSDM product that describes how the benefits have actually accrued following a period in live operation is the Benefits Assessment3. This product is used to assess the actual benefits realized after the solution has been in use3.

NEW QUESTION # 80
What is defined as 'Working together towards a shared goal'?

- A. Collaboration
- B. Scrum
- C. Governance
- D. Communication

Answer: A

Explanation:
Agile Project Management places a premium on collaboration-the act of different roles (business, product, and technical) working together toward a shared goal. While communication is the exchange of information, collaboration goes further: it is joint problem-solving and decision-making that aligns perspectives to deliver value. AgilePM/DSDM principles explicitly promote active business involvement and empowered teams, creating an environment where collaboration is the default for refining requirements, planning increments, resolving trade-offs, and assuring quality. Ceremonies such as backlog refinement, Sprint Planning, daily coordination, and reviews exist to reinforce collaborative behavior, shorten feedback loops, and surface constraints early. Scrum itself (option C) is a framework that enables collaboration, but the definition given-"working together towards a shared goal"-is the definition of collaboration, not the framework or governance mechanisms. Governance (option D) concerns oversight and control structures rather than the cooperative behaviors that produce outcomes. Consequently, the statement most accurately and directly defines Collaboration.

NEW QUESTION # 81
Which of the following is a stated benefit of using DSDM?
1. The business is better able to direct development
2. Designs are based on predicted
3. The risk of building the wrong solution Is reduced
4. Deployment is more likely to go smoothly

- A. 1, 2, 4
- B. 1, 3, 4
- C. 1, 2, 3
- D. 2, 3, 4

Answer: B

Explanation:
The stated benefits of using DSDM include the business being better able to direct development, the reduced risk of building the wrong solution, and a smoother deployment process2. These benefits stem from DSDM's iterative approach and close collaboration with stakeholders2.

NEW QUESTION # 82

Which information is given in the Solution Architecture Definition?

- A. The strategy for testing
- B. The tools and standards to be used in Evolutionary Development
- C. A snapshot of the evolving business, solution and management products
- D. A high-level design framework for the solution.

Answer: D

NEW QUESTION # 83

Which of the following statements about neuroscience research, relevant to helping people learn and embrace change, are true?
* Following moments of insight, offer supportive feedback.
* Positive informative talks from experts.

- A. Only 2 is true.
- B. Only 1 is true.
- C. Both 1 and 2 are true.
- D. Neither 1 nor 2 is true.

Answer: B

Explanation:
* Statement 1: Correct. Offering supportive feedback after moments of insight reinforces learning and helps individuals process change more effectively.
* Statement 2: Incorrect. While talks from experts may inform, they are less impactful than engaging individuals directly.
Key AgilePM Concepts Referenced:
* Neuroscience in Change Management: AgilePM Handbook, Chapter 6, Section 6.2.
