Salesforce Certified Advanced Administrator Sample Questions (Q143-Q148):

NEW QUESTION # 143

an administrator wants to report on activities related to a specific account over the past 18 months but some of these activities have been archived.

how can the administrator obtain a report with the correct data? choose 3

- A. open a case with support to extend archived days.
- B. use the weekly data export to obtain the archived activities.
- C. Export archived activities using the data loader.
- D. Restore archived activities from the activity archive object.

Answer: C

NEW QUESTION # 144

How should an administrator accomplish this?

- A. Configure a roll-up summary field on Equipment.
- B. Create a roll-up summary field on Room.
- C. Make record-triggered flows whenever Equipment records are created, modified or deleted.
- D. Write record-triggered flows whenever Room records are related, modified, or deleted.

Answer: B

Explanation:

Explanation

A roll-up summary field is a type of field that calculates values from related records and displays them on the parent record. A roll-up summary field can be used to count, sum, min, or max values from child records. You can create a roll-up summary field on an object that has a master-detail relationship with another object. In this case, you can create a roll-up summary field on Room that counts the number of Equipment records related to it. References:

NEW QUESTION # 145

Cloud Kicks (CK) has a field called Shoe Type Preference, CK's product team wants to see a report that groups specific picklist values together into the one of two lists.

What functionality should the administrator use to fulfill the team's request?

- A. Matrix Report
- B. PREVGROUPVALUE
- C. Summary Formula
- D. Bucket field

Answer: D

NEW QUESTION # 146

AW Computers has enabled the feature for Contact to multiple Accounts. A rep is trying to remove the primary Account from a Contact but is unable to do so. The administrator has already updated the page layout to no longer require an Account.

What could be the issue?

- A. Private Contacts need to be enabled in Setup.
- B. The Contact has Indirect relationships to other Accounts.
- C. The Account Contact relationship record needs to be deleted first in order to disassociate Contact from the Account.
- D. A primary Account relationship is required on a Contact regardless of the page layout settings.

Answer: D

Explanation:

When Contacts to Multiple Accounts is enabled, a contact must always be associated with a primary account, even if the account field is not required on the page layout. The primary account determines how the contact is shared and how roll-up summary fields calculate values from the contact records. To remove the primary account from a contact, the contact must be deleted or merged with another contact. References:
