Through user feedback recommendations, we've come to the conclusion that the OGBA-101 learning guide has a small problem at present, in the rest of the company development plan, we will continue to strengthen our service awareness, let users more satisfied with our OGBA-101 study dumps, we hope to keep long-term with customers, rather than a short high sale.

The Open Group TOGAF Business Architecture Foundation Exam Sample Questions (Q42-Q47):

NEW QUESTION # 42
In the diagram, what are the items labelled A, B, and C?

□

- A. A-Architecture Repository, B-Governing Board, C-Enterprise Capability
- B. Enterprise Repository, B-Board repository, C-Enterprise Capability
- C. A-Architecture Repository, B-Governance Repository. C-Architecture Capability
- D. A-Enterprise Repository, B-Governance Repository. C-Board Repository

Answer: A

Explanation:
In the provided diagram, item A refers to the Architecture Repository, which is a part of the TOGAF framework where all the architecture assets are stored. This includes the architectural models, patterns, architecture descriptions, and other artifacts relevant to the architecture. Item B is labeled as the Governing Board, which is likely referring to the Architecture Board or a similar governance structure responsible for oversight and decision-making regarding the enterprise architecture. Item C refers to Enterprise Capability, which encompasses the processes, tools, skills, and other capabilities that enable the architecture function within the enterprise.

NEW QUESTION # 43
Which of the following best describes this diagram?

- A. Business Capability/Value Stream Mapping
- B. Business Capabilities Layer diagram
- C. Business Relationships diagram
- D. Business Capability Map

Answer: D

Explanation:
The diagram presented is best described as a Business Capability Map. Here's a detailed explanation:
* Business Capability Map:
* Definition: A Business Capability Map represents the various capabilities an organization requires to deliver its products and services and achieve its strategic objectives. It typically categorizes capabilities into different levels or tiers, such as strategic, core, and supporting capabilities.
* Diagram Analysis:
* Layers and Groupings: The diagram shows capabilities grouped into three categories: Strategic, Core, and Supporting. Each group lists specific business capabilities necessary for the organization's functioning.
* Color Coding: The use of different colors (green, red, yellow, purple) may indicate various aspects such as priority, status, or different business units. However, the primary purpose is to visually represent and categorize capabilities.
* TOGAF References:
* Phase B: Business Architecture: In this phase, creating a Business Capability Map is a crucial activity. It helps in understanding the business functions and aligning them with strategic goals.

* Capability-Based Planning: TOGAF promotes capability-based planning, which involves identifying, mapping, and analyzing business capabilities to ensure they support the overall strategy and objectives.
* Purpose and Benefits:
* Strategic Alignment: The Business Capability Map helps in aligning business capabilities with the strategic objectives of the organization. It provides a clear view of what the organization needs to do to achieve its goals.
* Gap Analysis: It is useful for conducting gap analysis by comparing current capabilities with the desired state, helping to identify areas for improvement.
* Resource Allocation: By understanding the different capabilities, organizations can allocate resources more effectively to areas that need development or enhancement.
In summary, the diagram is best described as a Business Capability Map because it visually represents and categorizes the various capabilities needed by the organization into strategic, core, and supporting layers, aligning them with the business strategy and objectives.

NEW QUESTION # 44

What component of the Architecture Repository is an architectural representation of SBBs supporting the Architecture Landscape?

- **A. Solutions Continuum**
- B. Solutions Library
- C. Solutions Repository
- D. Solutions Landscape

Answer: A

Explanation:
In the context of the TOGAF Architecture Repository, the Solutions Continuum represents an architectural representation of Solution Building Blocks (SBBs) supporting the Architecture Landscape. It provides a view of the available and implemented solutions that can be used or adapted for new initiatives.

NEW QUESTION # 45

Which of the following can be used to help define information concepts in an information map?

- A. Organization Map
- B. Statement of business goals and drivers
- **C. Value streams**
- D. Stakeholder Map

Answer: C

Explanation:
Value streams can be used to help define information concepts in an information map5. A value stream is a representation of a sequence of activities that create an overall result for a customer, stakeholder, or end user5. A value stream can help to identify the information that is required, produced, consumed, or exchanged by each activity in the value stream. An information map can then document and visualize the information concepts and their relationships.

NEW QUESTION # 46

Complete the sentence. The classification model of the Architecture Landscape is divided Into levels known as_____

- A. Segment. Strategic, and Capability Architectures
- **B. Transitional. Complete, and Incremental Architectures**
- C. Baseline. Transition, and To Be Architectures
- D. Gaps, Plateaus, and Target Architectures

Answer: B

NEW QUESTION # 47
