## AP-204 Latest Questions | Test AP-204 Prep

The Salesforce AP-204 certification will further demonstrate your expertise in your profession and remove any room for ambiguity

on the hiring committee's part. Have you, however, consider how you might get ready for the Salesforce AP-204 Exam Questions? Do you know how we can unlock the door so that our dreams might take flight? Let's talk about some information that can help you prepare for the Salesforce AP-204 Certification Exam, and alter your route to success.

## Salesforce Consumer Goods Cloud Accredited Professional Sample Questions (Q76-Q81):

### NEW QUESTION # 76

Acme Technologies is a Tier-1 provider selling fixed line Internet and TV services. In order to optimize the shipping of modems and set-top boxes (STBs), they are requesting a single call to the shipping fulfillment system, which combines all devices that need to be sent to the customer. They also want to ensure optimal performance and avoid unnecessary use of storage since they have a large customer base.

Which decomposition pattern fits their requirements?

- A. Decompose modem and STB products into one Customer Facing Service (CFS) technical product using M:1 decomposition pattern. Set Scope field on the modem and STB products to 'Account'.
- B. Decompose modem and STB products into distinct Customer Facing Service (CFS) technical products using 1:1 decomposition pattern. Set Scope field on the modem and STB products to 'Downstream Order Item'.
- C. Decompose modem and STB products into one Customer Facing Service (CFS) using M:1 decomposition pattern. Set Scope field on the technical product definition to 'Account'.
- D. Decompose modem and STB products into distinct Customer Facing Service (CFS) technical products using 1:1 decomposition pattern. Set Scope field on the CFS technical product to 'Downstream Order Item'.

**Answer: A**

### NEW QUESTION # 77

ABC Telecom uses Communications Cloud while its distributors use their own CRM system. ABC Telecom wants to share product catalog information, including technical descriptions of products from ABC Telecom's Communications Cloud. Distributors can then use this information to set up their own CRM product catalog.

What should a Consultant suggest as a starting point for this integration?

- A. Use Object REST APIs to retrieve data from Product2 Object.
- B. Use Enterprise Product Catalog REST APIs to retrieve product specifications and product offerings.
- C. Use productized TM Forum 620 Catalog Open APIs to retrieve product specifications and product offerings.
- D. Use CPQ API getCartProducts to create a cart and retrieve product specifications and product offerings.

**Answer: B**

Explanation:

In Communications Cloud, the single source of truth for commercial and technical products is the Enterprise Product Catalog (EPC). For external systems-like distributors' CRMs-to consume product specifications, offerings, attributes, technical details, and bundled components, Salesforce provides EPC REST APIs.

These APIs expose:

Product Offerings

Product Specifications

Commercial & technical attributes

Prices (optional depending on configuration)

Relationships and hierarchies

They are designed explicitly for external catalog synchronization, making them the ideal starting point for distributors to pull up-to-date product definitions.

Why others are incorrect:

A (Product2 APIs): Product2 is not used for Communications Cloud catalog; EPC uses Vlocity EPC objects.

B (TMF620): Salesforce EPC is not natively TMF620 compliant. TMF620 requires a mediation layer; using EPC APIs directly is the recommended starting point.

D (getCartProducts): CPQ APIs require a cart context and do not expose full catalog specs.

### NEW QUESTION # 78

Where would a Consumer Goods Cloud Admin need to establish the expected value for the planogram metrics?

- **A. Assessment Indicator Definition**
- B. Retail Store KPI
- C. Delivery Tasks
- D. Assessment Task Definition

**Answer: A**

Explanation:

The object where a Consumer Goods Cloud Admin needs to establish the expected value for the planogram metrics is Assessment Indicator Definition. A planogram is a visual representation of how products should be arranged on a shelf. A planogram metric is a measure of how well the actual shelf image matches the expected planogram image. An Assessment Indicator Definition is an object that defines an indicator or metric that can be used to assess the performance or compliance of a retail store or an action plan task. By creating an Assessment Indicator Definition for the planogram metric, such as out of stock, share of shelf, or SKU facings, an admin can establish the expected value for that metric and use it to calculate the actual value based on the shelf image. Verified Reference: [Salesforce Consumer Goods Cloud Implementation Guide], page 23-24.

#### **NEW QUESTION # 79**

Which object is exclusively available to users in setup to perform direct store delivery?

- A. Product Transfer
- **B. Shipment**
- C. Order
- D. Delivery Task

**Answer: B**

Explanation:

The Shipment object is specifically designed for managing direct store delivery processes, tracking the movement of goods from distribution to retail locations.

#### **NEW QUESTION # 80**

Which object is connected to Action Plan?

- A. Assessment Task
- **B. Visit**
- C. Action Plan Template item
- D. Retail Store

**Answer: B**

Explanation:

An action plan is connected to a visit, which represents a scheduled or unscheduled interaction between a field rep and a retail store. A visit can have one or more action plans associated with it, depending on the tasks that need to be completed during the visit. Verified Reference: [Salesforce Consumer Goods Cloud Implementation Guide], page 25.

#### **NEW QUESTION # 81**

.....

Once you have selected the AP-204 study materials, please add them to your cart. Then when you finish browsing our web pages, you can directly come to the shopping cart page and submit your orders of the AP-204 study materials. Our payment system will soon start to work. Then certain money will soon be deducted from your credit card to pay for the AP-204 study materials. The whole payment process only lasts a few seconds as long as there has money in your credit card. Then our system will soon deal with your orders according to the sequence of payment. Usually, you will receive the AP-204 Study Materials no more than five minutes. Then you can begin your new learning journey of our study materials. All in all, our payment system and delivery system are highly efficient.
